Simply place and make your room a relaxing Japanese-style space

Tatami mat (82cm or 67cm square)

Tatami are types of mat used as flooring material in Japanese-style rooms. Traditionally, its surface is woven rushes and the core is sewn-together rice straw. With excellent air permeability and moderate softness, tatami have been essential for Japanese houses where people live on the floor.

Create a Cozy Japanese Space with Modern-Style Tatami Mats from Japan's Leading Tatami Company
