# BOTTLES

It is now being considered better practice to avoid using bottles of certain materials at high temperatures and for some other materials it is recommended to not re use the bottle. Common cleaning detergents can cause chemicals to leach out of these plastic.

Gluman is concerned for your health!

Gluman bottles are made from one of the safest materials there is. All our bottles are PVC, Phthalate and BPA free. Which means they can be used with hot liquids and even washed to be re used again.

Look for the  plastics logo in your bottles.

**WIDE-MOUTH  
FOR EASY  
CLEANING**

Made from No. 5 plastic

4	Ice Stick Tray (Set of 2)	20042	27 x 11 cm

Our jugs are ideal for putting in the fridge door

Mom and grandmas secret weapon for that yummy mango kulfi

Let's not fight with our ice-trays any more by bashing them about. Ours are uniquely designed with a tapered shape so you can dispense cubes with a single twist! The ice sticks are slim so they can slide into your water bottles to chill.

Made with  
Tritan  
Copolyester

ADVANTAGE OF TRITAN

- ❑ Tritan is unlike any other plastic. It stands up to repeated use better than anything else.
- ❑ Dishwasher safe, so it won't warp or crack after multiple wash cycles.
- ❑ Won't get hazy or cloudy after washing
- ❑ Free of BPA and all other bisphenol compounds
- ❑ Have the look of glass but won't shatter.
- ❑ Lighter weight than glass
- ❑ Tough and durable as stainless steel but are crystal clear and won't dent or ding.
- ❑ Odor and taste resistant, so there are no surprise smells or flavors.
- ❑ Tritan keeps its quality; its looks are long-lasting and its functionality ensures you get the most for your money.

At Gluman we believe that life should not be taken too seriously and that every now and then it's important to experience those little moments of joy which lighten up your mood, uplift your spirits or simply just make you smile.

We hope that while using the Gluman range of colorful plastic household products, not only would your day to day chores become easier and fun, but you experience those little moments of joy. Whether its cooking, serving, organizing or just opening a lunch box to see what's inside.

You can also be fully assured that Gluman range of plastic products are 100% Food Grade, BPA free, Phthalate free, Microwave Safe, Dishwasher Safe, Freezer Safe , Reusable and Recyclable. Wow !

## PRECISION MOULDS & DIES

Precision Moulds and Dies (PMD) was started in 1973 by Mr. G.S. Kochhar. After completing a Master Degree in Mechanical and Industrial Engineering from the University of Florida, Gainesville, USA, he spent two years in Los Angeles, USA working in a high precision tool shop. On his return to India, he founded PMD with the aim of creating a high precision tool room.

After all these decades, we are now one of the oldest and best tool rooms in India, manufacturing over 150 moulds a year and processing over 2000 tons of plastic.

The tool room is fully air-conditioned with the latest CNC machines and operates 24 hours to produce international standard moulds in the fastest lead times. Our biggest asset is our technical knowhow and highly trained staff of technicians, designers, engineers and machinists who look forward to solving the toughest of problems with the most innovative solutions.

At PMD we have three injection moulding units, two in Sahibabad (U.P) and one in Baddi (H.P), with a total of 60 injection moulding machines and 6 blow moulding machines. Millions of plastic parts are produced every month for the packaging, personal care, cosmetic, engineering, pharmaceutical and household industry.

Each process is fully controlled with various in-process and final checks, to ensure products are within specification and adhere to all quality standards.

We are continuously improving, evolving and adding new technologies. Currently PMD has an expertise in the following:

- \* Product Design
- \* Engineering Design.
- \* Mould Design
- \* Mould Manufacturing
- \* Injection moulding - single and two shot moulding
- \* Extrusion blow moulding
- \* Injection Stretch Blow Moulding
- \* In mould labeling - 2D & 3D
- \* Heat transfer Printing
- \* Pad printing
- \* Special Assemblies of various types

Since we design, manufacture and produce the final plastic product we are a one stop solution for our clients. No process in PMD is outsourced and it is this experience and control in every step, which gives us a competitive edge and ensures our quality.

PMD is an ISO : 9001:2015 certified company. We are a fully complaint factory with a Sedex Certification. We are also approved and audited by Disney and have been given their Facility and Merchandise Authorization (FAMA) which allows us to produce Disney products

**SIMPLY

## ABOUT GLUMAN

After many years of being in plastic manufacturing, PMD saw the need for good quality yet affordable plastic household products in India. It was then that a vision for a brand was conceptualized and a new range of colourful and eclectic household products was created.

Known for their high quality, Gluman products are manufactured with an extra attention to quality. We believe that no customer would ever be unhappy with a Gluman product.

We produce a vast range of airtight storage container, water bottles, hangers, kids lunch boxes and pencil boxes. We have a full collection of Disney products as well. The Gluman product range covers the following categories.

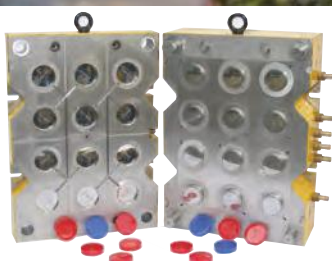

- Storage
- Drinkware
- Kitchenware
- Tableware
- Houseware
- Back to School (Disney)
- Stationery (Disney)

All our products are tested in laboratories and are certified for being:

- BPA free
- 100% Food Safe
- Freezer Safe
- Microwave Safe
- Dishwasher Safe (Top Rack)
- Reusable & Recyclable

Gluman products are supplied to small shops and big retailers all across India and are also used as promotional gifts by various companies. Gluman products are exported to North America, Central America, South America, Europe, Middle-East & South East Asia.

Every year Gluman is increasing its market share and is on its way to becoming a brand that becomes synonymous with quality & service. We provide innovative solutions and make everyday household chores easy & fun.

- Polycarbonate is a high performance engineering material which is as clear as glass and stronger than aluminum of the same shape and thickness
  - Polycarbonate products are highly break resistant and give many years of life to its user
  - A very high grade of plastic
  - Be a proud owner of a gluman polycarbonate product
- 

Most bottles available in the market are made from PET which is not phthalate free. Gluman PP bottles are BPA & Phthalate free.

---

Products which have this logo are made from polypropylene (PP) which is a very safe general purpose plastic. Polypropylene is also free from BPA & Phthalates.

---

Most transparent bottles available today are either made from PET (which contains phthalates) or polycarbonate (which contains BPA). Gluman transparent bottles are made from a co polyester material called Tritan, which are BPA & Phthalate free.

---

Some of our hangers are designed in such a way that they save you some extra space under the clothes that you hang, that's a nice way to find some extra space in your cupboard.

---

Gas stove compatible cookware

---

Induction compatible cookware

---

- Use a mild detergent to wash inside and outside.
- For better results, use a brush to clean the insides.
- Strong detergents, bleach or cleansers containing chlorine should not be used to clean the mug.
- Pre-Condition your mug with hot water for hot beverages and cold water for beverages.
- Fill the mug completely to maintain temperature.
- Do not store carbonated drinks.
- Practice caution while opening the mug as contents may be too hot.
