THE ICONIC ANEMONES

This exquisite handmade bowl, sculpted from the finest marble, stands as a testament to the beauty that emerges when human craftsmanship meets the raw majesty of nature. Unlike the conventional symmetrical bowls, this piece boasts organic shapes that flow and curve unpredictably, reminiscent of the natural landscapes from which its material was born. Some material good to know.

THE KITCHEN DECOR

All products to the kitchen are food safe. We recommend not to put wood, aluminum and stone products in the dishwasher but instead clean them with a damp cloth. But hey, this is just a recommendation and you can do anything you'd like of course, but to keep your products as beautiful as they were when you received them, we suggest you follow this advice.

THE MARBLE, TRAVERTINE AND STONE

All stone pieces has a unique touch to them. Since marble and stone is nature's own material, each product has color shifts, natural patterns such as small cracks and other imperfections and they can also differ slightly in size and shape. We would like you to appreciate the beauty in this, and see all pieces as unique treasures, no one like the other. There is beauty in the imperfect - something that we love.

THE PAPIER-MACHÉ

If nothing else is stated in the product description via the QR-code, all papier-maché pieces are not water resistant and the vases should only be filled with dried flowers or other pretty decor. This is a way to also be more sustainable in your way of thinking, dried plants lasts longer and are in no need of water!

THE LAMPS

All of our lamps are CE-marked that certifies that it meets the EU's health, environmental, and safety requirements.

THE RESIN

The Indra series, is made of resin. They get their look by mixing colors into the raw material which means that every product will have their own unique quirkiness. These pieces are foodsafe but we recommend not to put them in the dishwasher.

THE CERAMICS

The ceramic pieces are all made with a reactive glaze, giving each product its own unique touch in appearance. These are all water and foodsafe, but we recommend not to put them in the dishwasher.
