COOKING IN TERRACOTTA

Terracotta, literally “cooked earth” (terra=earth, cotta=cooked in Italian and Latin). The experience of using terracotta in your kitchen is a heart warming one. Using terracotta cookware and bakeware is wonderful not only because it stirs up visions of cozy country kitchens dating back generations, but it also adds considerably to the flavor & experience of the food. The first time you use terracotta cookware you will soak it for approximately four hours and give it a quick water rinse all subsequent uses. Fine cracks, also called “crazing” will form inside the pot allowing steam to come through the wet terracotta as it cooks, making it the perfect cooking vessel for all foods you want to stay moist, juicy and tender. Imperfections in terracotta table top pieces or cookware are a guarantee that the goods are hand-made and are proof of the difficulties involved in producing a wide range of shapes and colors.

UNIQUE PIECES

A decorated wall, strategic light points, lanterns, vases, original objects can transform a simple corner into an area capable of arousing emotions and admiration. Each of our objects has a story, is designed, turned by hand and then decorated with skill. Steps that require time and delicacy. No piece is alike and this makes it unique and inimitable. Italian craftsmanship is the very soul of Italy, and the shops and factories are the places of the Italian creative soul. Stories of knowledge, love and creativity that we want to make known.

My dear Pinocchio

Pinocchio is one of the greatest ambassadors of Italian culture in the world and we want to celebrate him with all his fantastic characters, who are part of our identity, of our history, of that fantastic creative heritage that make us proud to be Italian. Thus was born a series dedicated to the Italian fairy tale par excellence, with many small enchanting objects to be collected.

GARDEN

A special garden, full of particular and practical items. Complete outdoor vase lines, in many colors and decorations. Each vase has a hole in the bottom. Terracotta pockets to hang, fumigator holder to plant, terracotta pouf in the shape of a sheep. All objects are turned by hand.

A still life photograph of a table setting. In the background, there is a blue ceramic pitcher, a matching cup on a saucer, a small blue container with a cork lid and a spoon, and a blue bowl. The table is covered with a light-colored fabric featuring a repeating pattern of stylized fish in various shades of blue and green, along with seashells and coral. A semi-transparent text box is overlaid on the center of the image.

OUR FABRIC

Our Jacquard fabrics, made with Italian looms, have an exclusive design. The designs are made with fine yarns of various colors for a relief effect that increases their value. They have a deliberately "heavy" hand, but soft and pleasant. Their cotton blend composition makes them particularly resistant to use, stains and easy to iron. Every single piece is manually cut and packaged in our tailor's shop in Italy, and this allows us to offer a tailor-made service. We produce high quality fabrics with Italian yarns, in mixed cotton, gobelin and chenille, suitable for the table and for the furniture. Tablecloths, cushions, curtains for a perfect mix-match of exclusive patterns.

HOME FRAGRANCES

An ever growing collection, created with handcrafted fragrances produced in Italy, Tuscany.
Made with essences mainly of natural origin, with a low impact on the environment.

STONEWARE

The Stoneware Line consists of the table base, the salad bowl, the tray, a small bowl and the mug. All shapes are original and exclusive, specially designed for the new line and are registered. They are available in three crystalline colors, with a delicate dot, which have a watercolor effect. Some drips are typical of processing and are not to be considered a defect. The colors chosen are the classic blue, green and white. The decoration, on the other hand, is made by drawing with ceramic pencils directly on the biscuit and then plunged into the crystalline.
