

GABRIELA SERES

The 2024 Collection Brochure

Handmade in Romania

Welcome to the 2024 Collection by Gabriela Seres

Embark on a journey through our 2024 collection, where each piece is a reflection of a deep, personal design process, enriched by the soulful ambiance of classical music. For me, designing to the timeless melodies of classical music is not about directly translating notes into shapes, but about how this music enriches my soul, igniting my love and passion for creating timeless forms.

In this collection, you will discover designs that are born from this enriched state of creativity, where each curve, line, and contour is a testament to the passion that classical music stirs within me. The pieces, ranging from intricate vases to elegant glassware, are more than functional items; they are the physical manifestations of a creative process fuelled by love, dedication, and the pursuit of artistic perfection.

As you explore these creations, you'll find that each item tells a story. It's a story of embracing classical beauty, of being inspired by the elegance and timelessness that classical music embodies, and of translating these elements into the language of glass. The collection is a celebration of the unique journey each piece has undertaken, from an inspired thought to an exquisite work of art.

Our 2024 collection is an invitation to experience the world of Gabriela Seres, where classical inspirations meet contemporary design, and where every piece of glassware is not just a product, but a part of my artistic journey, enriched by my love for glass and our artists' tremendous talent and experience. Join us in embracing the elegance, passion, and timeless beauty that defines our collections.

Gabriela Seres
