About us

TM Majura is a Ukrainian manufacturer of tableware and decorative items made of wood, glass and wine bottles.

Since the beginning of the full-scale war in Ukraine, our company has managed not only to maintain production, but also to increase the number of jobs and expand the range of products. We also continue to improve the work process and the quality of finished products. In this catalog you can find the main products of TM "Majura", which are already in demand

in Ukraine.

We are open to cooperation.

Our goal today is to expand our sales market beyond Ukraine and to establish wholesale deliveries of our products to European countries.

WOOD PRODUCTS

Over the years, Mazhura has already established a well-established production facility that allows it to produce bulk orders for large retail chains. The entire model range is produced on the most modern equipment. We use natural materials in the production of wooden tableware. Each unit undergoes strict quality control at several stages. This allows us to be confident in the high performance of the final product.

ALL PRODUCTS ARE DIVIDED INTO CATEGORIES.

GLASS PRODUCTS

Among our products are products made of wine bottles. These products are quite popular because of their original look and material. We use different technologies to make them: cutting bottles with subsequent grinding in several stages (for vases, scoops, candlesticks, etc.); and an ancient technique - fusing, when the bottle is baked in a special oven to a temperature of 800 C, and then the craftsman gives the desired shape to the product, which makes each item unique.

ALL PRODUCTS ARE DIVIDED INTO CATEGORIES.

LASER CUTTING

Mazhura produces a variety of accessories, decorative items, and organizers from MDF, chipboard, fiberboard, and plywood using laser cutting on its own equipment. This technology allows us to create high-quality products - thanks to the laser and high speed, the cut lines have the most accurate dimensions.

Depending on the material, the optimal laser operation mode is selected.

We accept individual orders for laser cutting.

ENGRAVING

Our company provides laser engraving and marking services for various products: souvenirs, kitchen utensils, promotional items, etc.

The image is applied to products made of the following materials: plywood, wood, leather, metals, glass, plastic.

Laser engraving provides high image detail and durability.

With the help of a laser, any item can be made special and exclusive.

We accept individual orders for engraving.
