OUR STORY

SORBET ISLAND's creations evoke an aura of magical vacations inspired by the enchanting Aegean landscape that surrounds it. All products are designed based on the principles of inclusivity, authenticity and positivity. Driven by good energy and ageless youthfulness, SORBET ISLAND always cherishes the warmth that has been at its core since the beginning.

In 2014, founder Sophia Mamas embarked on a personal venture to create customized friendship bracelets for her loved ones. What started as a hobby to craft handmade tokens of appreciation for her friends organically evolved into a business. It ultimately transformed into the multi-brand it is today when she discovered a fabric called crinkle. Recognizing its versatility, which flattered every body type in a fashionable and inclusive manner, she knew she had stumbled upon something special that aligned perfectly with the brand's ideals.

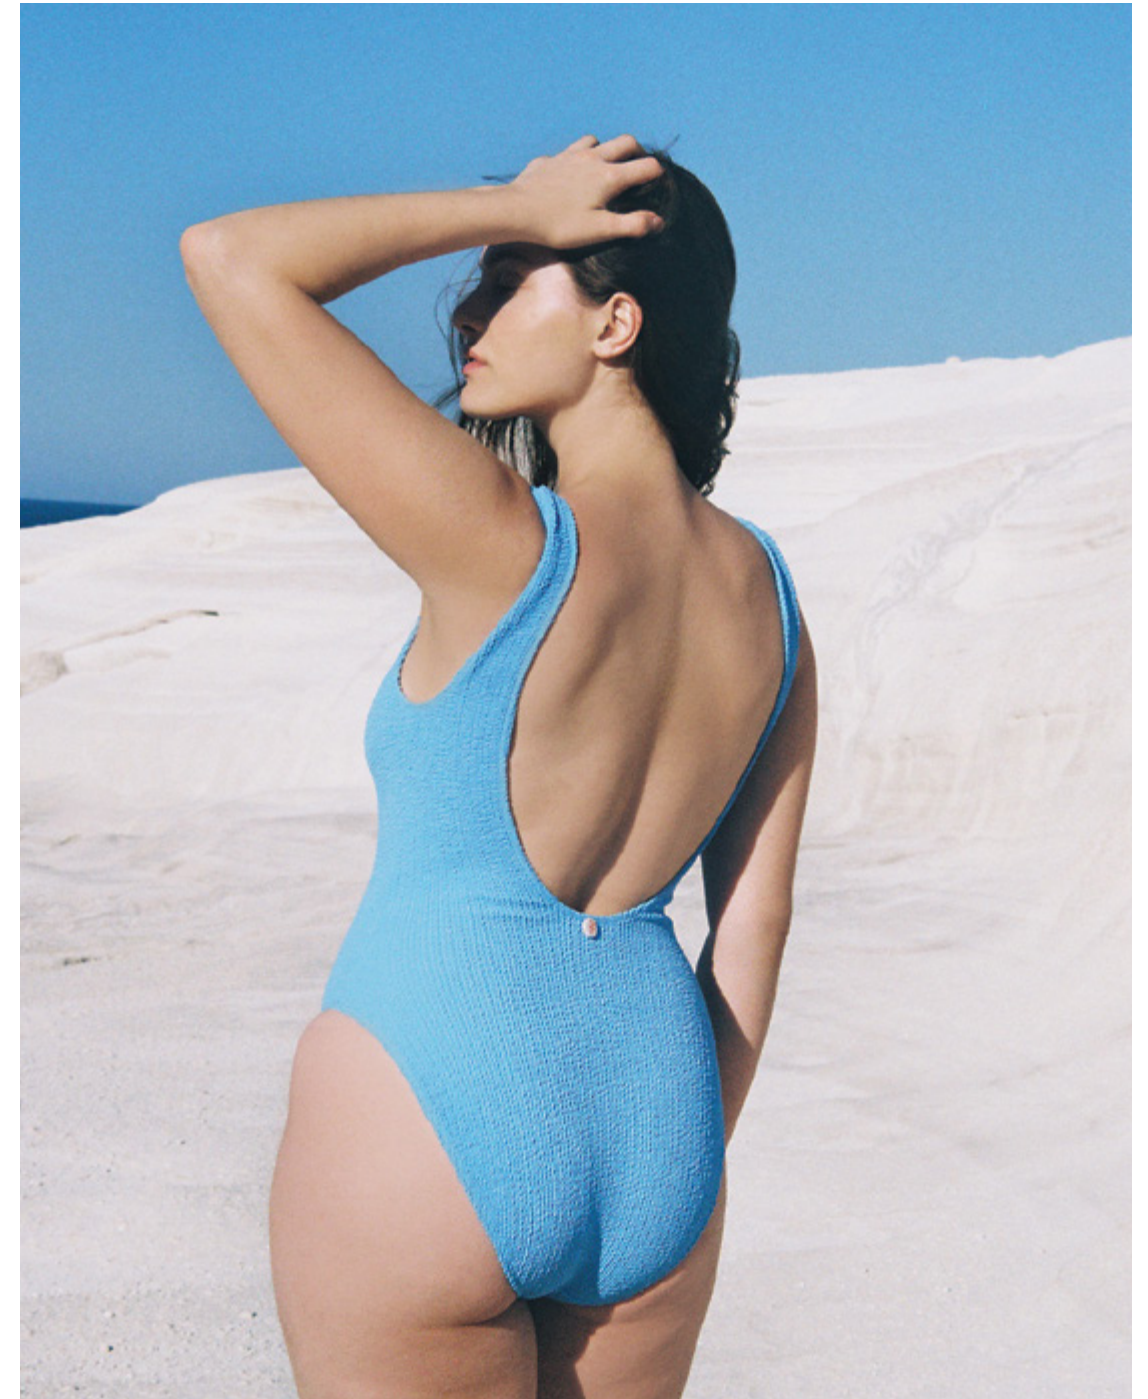

At SORBET ISLAND, we design swimwear that celebrates every female silhouette, embracing the beauty of our diverse and ever-changing bodies. With no limits to expressing oneself, we provide a universal solution for all; our ONE SIZE collection comfortably fits sizes XS-XXL and A to G cup.

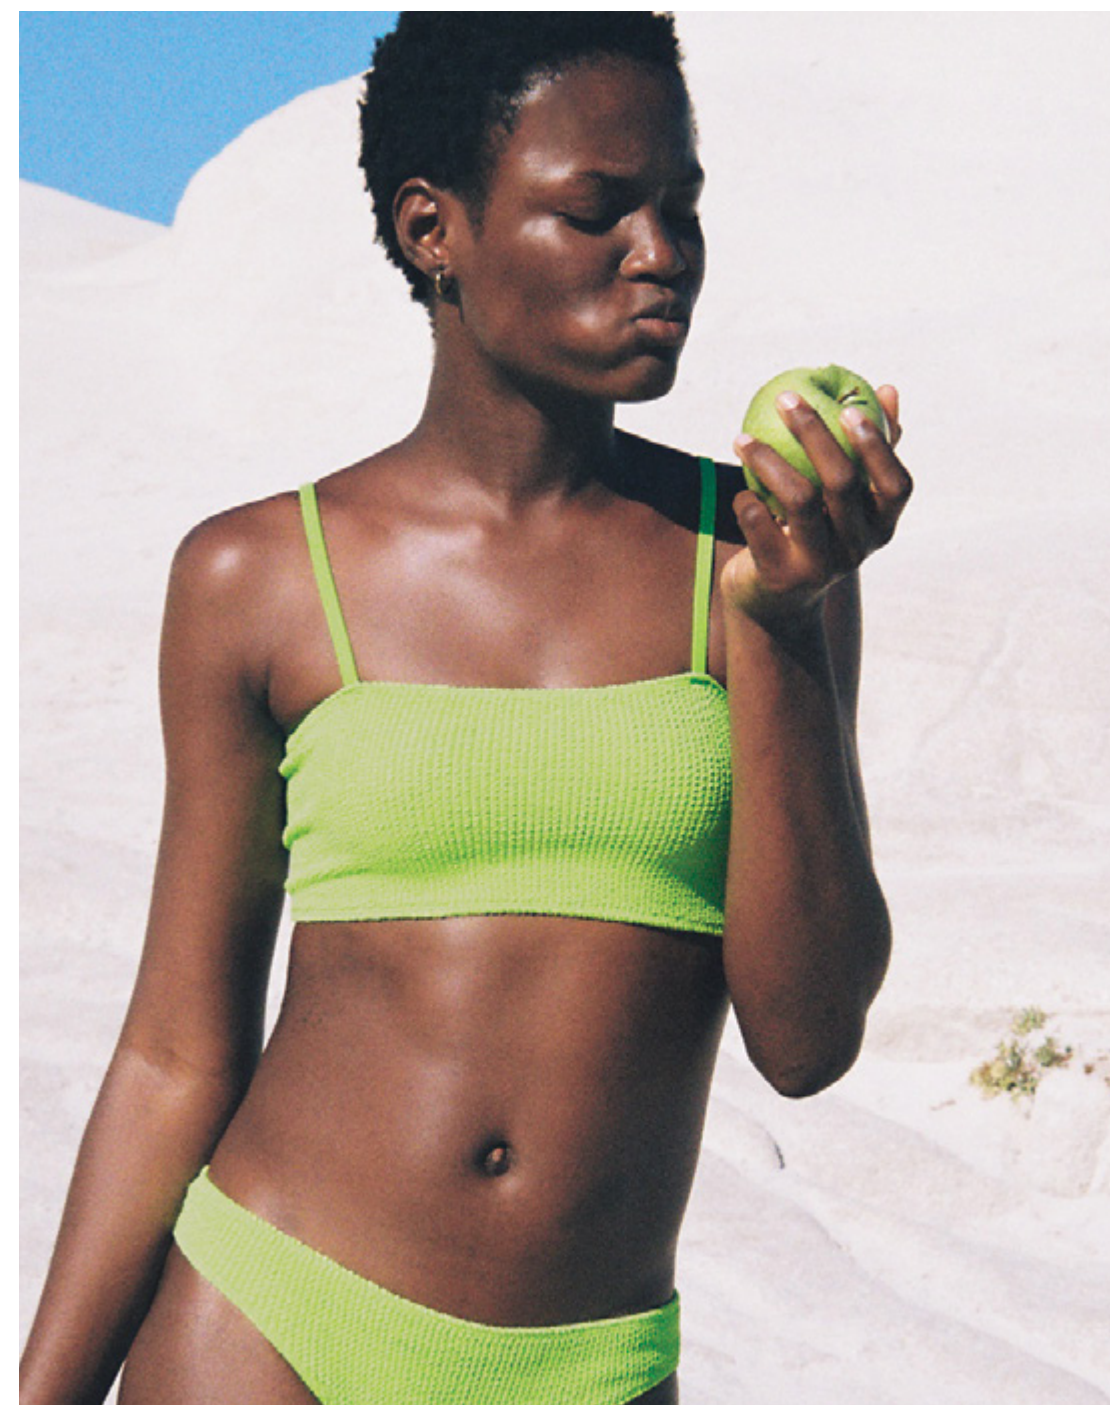

Today, SORBET ISLAND is sold in over 5,000 stores worldwide and has been featured in numerous prestigious fashion magazines. The brand continues its mission to challenge standards and reshape traditional perceptions.
