GALBIATI MILANO

OUR BRAND / NOTRE MARQUE

IT

Si scrive Galbiati Milano ma si legge 116 anni di storia e tradizione nei complementi per la tavola e non solo.

Nata nel cuore di Milano, il brand ha sempre respirato lo spirito che fa della città la capitale della moda e del design. La cultura e la cura della tavola hanno fatto da guida all'azienda fin dalla sua fondazione nel 1908. Nata come argenteria, negli anni ha sempre mantenuto un legame e un'attenzione particolare per accessori e stoviglie di alta qualità, pur concentrando la propria ricerca nella lavorazione e nel design del vetro. Galbiati Milano è infatti riconosciuta per la combinazione creativa di decori e colori dei bicchieri e per la ricercatezza e raffinatezza del segno, come elemento distintivo.

Dal luglio 2021 Galbiati Milano è entrata nel portafoglio di Mopita e amplia i propri orizzonti. Specchio delle nuove tendenze nel settore del design, Galbiati Milano recupera la multidisciplinarietà presente nel suo DNA e torna alla progettazione a 360 gradi dell'arte della tavola inserendo, oltre al vetro, nuovi materiali e nuove forme. Dopo più di 100 anni rimane saldo il legame con la città che, come poche altre realtà al mondo, fornisce stimoli creativi e visioni per il futuro.

Ogni pezzo in vetro di Galbiati Milano è unico, un'opera d'arte irripetibile in quanto frutto del lavoro artigianale dei maestri vetrai di cui ci avvaliamo. Pochi abili gesti, un soffio misurato e solo qualche istante per dare forma alle idee dei nostri designer. Piccole imperfezioni e differenze diventano tratti distintivi. Come fiocchi di neve, i bicchieri Galbiati sono leggermente diversi l'uno dall'altro, ma ugualmente perfetti nella loro unicità.

FR

Ça s'écrit Galbiati Milano mais se lit 116 ans d'histoire et de tradition dans les accessoires de table et plus encore.

Née en plein cœur de Milan, la marque a toujours respiré l'esprit qui fait de la ville la capitale de la mode et du design. La culture et le soin de la table guident l'entreprise depuis sa fondation en 1908. Née comme argenterie, elle a toujours maintenu, au fil des années, un lien et une attention particulière aux accessoires et à la vaisselle de haute qualité, tout en concentrant ses recherches sur le traitement et le design du verre. Galbiati Milano est en effet reconnue pour la combinaison créative des décorations et des couleurs des verres et pour le raffinement de l'enseigne en tant qu'élément distinctif.

À partir de juillet 2021, Galbiati Milano est entrée dans le portefeuille de Mopita et a élargi ses horizons. Miroir des nouvelles tendances du secteur du design, Galbiati Milano récupère la multidisciplinarité présente dans son ADN et revient au design à 360 degrés de l'art de la table en insérant, outre au verre, de nouveaux matériaux et de nouvelles formes. Après plus de 100 ans, Galbiati Milano a un lien fort avec la ville qui fournit des stimuli créatifs et des visions pour l'avenir comme peu d'autres entreprises dans le monde le font.

Chaque pièce en verre de Galbiati Milano est unique, une œuvre d'art exceptionnelle car elle est le résultat du savoir-faire des maîtres verriers que nous employons. Quelques gestes astucieux, un souffle mesuré et quelques instants pour donner forme aux idées de nos créateurs. Les petites imperfections et différences deviennent des caractéristiques distinctives. Comme les flocons de neige, les verres Galbiati sont légèrement différents les uns des autres, mais également parfaits dans leur unicité.

EN

It is written Galbiati Milano but it reads 116 years of history and tradition in tableware and more.

Born in the heart of Milan, the brand has always breathed the spirit that makes the city the capital of fashion and design. The culture and care of the table guided the company since its foundation in 1908. Founded as a silversmith firm, over the years it has always maintained a special bond and focus on high-quality accessories and tableware, while concentrating its research on the manufacture and design of glass. Galbiati Milano is in fact recognised for the creative combination of decorations and colours of the glasses and for the refinement and sophistication of the sign, as a distinctive element.

Since July 2021 Galbiati Milano has joined Mopita portfolio and broadened its horizons. Mirroring new trends in the design sector, Galbiati Milano recovers the multi-disciplinary nature of its DNA and returns to 360° design of the art of the table, introducing new materials and new forms in addition to glass. After more than 100 years, Galbiati Milano has a strong bond with the city which provides creative stimuli and visions for the future like few other companies in the world do. Every piece of glass from Galbiati Milano is unique, an artwork, unrepeatable because it is the result of the craftsmanship of the master glassmakers we use. Few skilful gestures, a measured breath and just few moments to give shape to the ideas of our designers. Small imperfections and differences become distinctive features. Like snowflakes, Galbiati glasses are slightly different from each other, but equally perfect in their uniqueness.
