KLATT OBJECTS Winter 2024

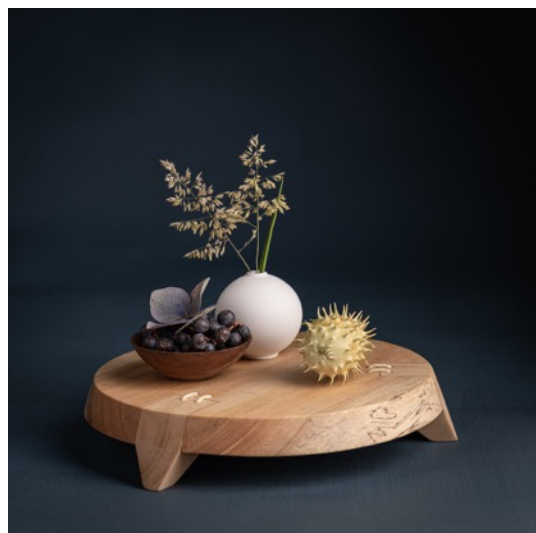

### **The fascination of originality**

*The Klatt Objects brand is presenting three promising series and individual eye-catchers at Maison & Objekt this autumn. ARTA, PALCO, SETTO, ROBODOG and two new busts combine Mediterranean originality and traditional craftsmanship with modern technology. These fascinating collector's items can be seen for the first time at Klatt Objects at Maison & Objets in the Unique & Eclectic hall 7B stand C 159.*

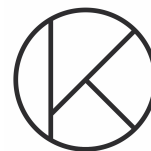

### **The stage for enjoyable moments - PALCO series**

"Palco", the Italian word for stage, is the inspiration for the new must-have in the

Klatt Objects collection. Elevated on three elegant feet, the pedestal skilfully sets the scene for enjoyable moments. With its minimalist design, the tray is discreetly understated and at the same time enchants with its artisan craftsmanship. The fine polish perfectly emphasises both the natural beauty of the wood and the details of the traditional manufacturing process. PALCO is available in two sizes: S (D: 23 cm, H: 4.5 cm) and L (D: 32 cm, H: 4.5 cm).

### Mediterranean originality - ARTA series

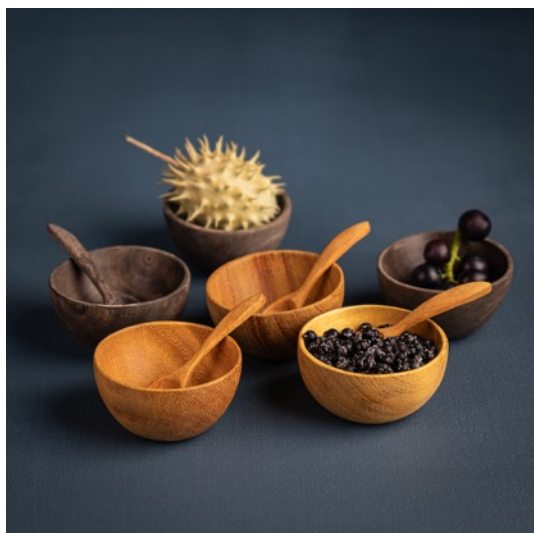

The characteristic Mediterranean flair of the town of Artà in the north of Mallorca has inspired Detlef Klatt to create a completely new series. Translated into three shapes, clear silhouettes meet original patterns, which are worked into the matt polished surfaces in a traditional way. The handmade ARTA series will be launched in pure white bone china, creating an interesting tension between the deliberately "imperfect" surfaces and the special radiance of the high-quality material. The elements are between 17 cm and 29 cm high

### The joy of detail - SETTO series

Unusual spices, special salts, exotic nuts and other delicacies: The joy of creative ingredients and ideas for shared moments of pleasure is an ongoing lifestyle trend that suits the founder of the Klatt Objects brand. Early on, Detlef Klatt developed various series of bowls and spoons for his collection and has continued to expand them. Now a wonderful new series has been added: SETTO describes a set consisting of handmade bowls (5x5x2 cm) with matching spoons. To start with, SETTO is available in the striking yellow "Jackfruit" wood and dark greywood. Not unexpectedly, SETTO harmonises with existing collector's items such as the bestsellers CHISANA, KLÄN and OVO.

### Faithful friend -

Watchful eyes, pricked ears and always there when you need him. The new collector's item ROBODOG, created by Detlef Klatt, is a declaration of love from the designer to the stray dogs that are a common sight on many streets and beaches in the Philippines. Klatt Objects has now given them a loving home: in the life-size wooden version ROBODOG prefers to position himself in places where he can watchfully take centre stage. As in nature, each animal in this pack is unique: ROBODOGs are hand-carved and assembled from driftwood. So no two are alike. The new collector's item is based on the ROBOTER series from Klatt Objects. The dog is around 52 cm high. As a table centrepiece or small stool, he is also happy to use his back (30 cm high) as a tray.

### Busts ELEONORE OF ARAGON and UOMO MISTERIOSO

The merciless ruler and the mysterious man: with two new objects, the Klatt Objects brand is expanding its range of busts in an exciting way. In contrast to the previous hand-carved wooden busts, the models for these heads are created using a state-of-the-art 3D scanning and printing process that is used by major exhibition centres and others. Deceptively real copies of the historical or museum originals are produced, for example for loans. In the joint pilot project with Klatt Objects, Italian artist Massimo Di Pirro used the two busts from his studio as models for the porcelain objects, which are then moulded and handcrafted in the traditional way
