## FUGISLIDER® Mission

The FUGISLIDER is a new, patent pending cleaning tool that successfully cleans every corner angle due to its innovative shape. The tips reach the corners perfectly and the diamond-shaped support also cleans the surfaces. This results in two cleaning processes in one tool. Areas of application include doors, windows, stairs, window sills and glass walls of showers. Small areas are cleaned quickly and thoroughly, a considerable reduction in working time with a high degree of thoroughness is guaranteed - especially in corners and peripheral areas.

Due to the very low structural height of the FUGISLIDER, only the surface to be cleaned itself is cleaned or wetted, but not a boundary surface, such as an adjacent wall surface or a structural component. This is very advantageous for impregnating, sealing and disinfecting.

## FUGISLIDER® Benefits

- ✓ Ergonomically shaped handle for particularly effortless, fatigue-free and relaxed cleaning.
- ✓ With practical Velcro quick-change system for cleaning glass surfaces, stairs, showers and small areas.
- ✓ Different pads for different surfaces and contamination.
- ✓ Very quick and uncomplicated changing of the pad textile cover. This saves a lot of time, additional handling and is also much more hygienic.
