HISTORY

Cevik Group is an Italian Company established in Meledo di Sarego (VI) by Mr. Maurizio Scaggiari on 1971.

Specialized in the production of gifts during the last 50 years the Company Collections have been changed systematically, creating a large range of items for all tastes. Actually, by Mr. Maurizio side are working his sons Sandro and Marco with the cooperation of famous Sculptors. The Company is located in an area of 6,000 square meters in a brand new building where many skillful Artists previously selected take care of the realization of each item ordered. Our items are completely manufactured in Italy and pass 3 controls before being packed and shipped; for this reason we have reached our leadership in the market and got results rather than promising them. During the years we have, also, selected our suppliers of assembling parts, in order to assure you the best quality of "MADE IN ITALY".

HISTORY

Simple, it's nothing other than relentless hard work for renewing our designs systematically. It's not patented, but it's the hardest thing to copy in the world! The Company exports all over the world, very appreciated by Collectors, attending to the most important exhibitions in Italy and abroad. We're very proud of our market position thanks to our long-lasting relationships built with our faithful customers and with our suppliers.

CREATION

We're manufacturer of fashionable high quality gifts, made of Nuovatterra, completely handcrafted and hand painted by skilful Artists.

The ones are assembled with Crystal or Glass bowls, vases, frames, mirrors or with Brass and Ceramic ornaments.

These are the necessary steps for the creation and production of every exclusive and unique item of our production.

CREATION
idea &
design

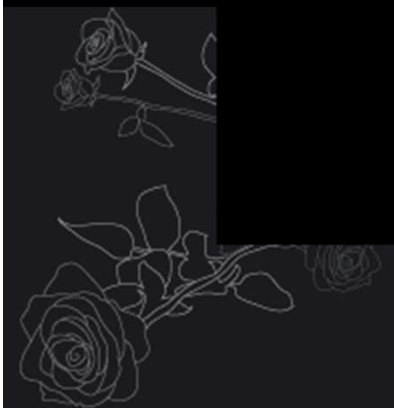

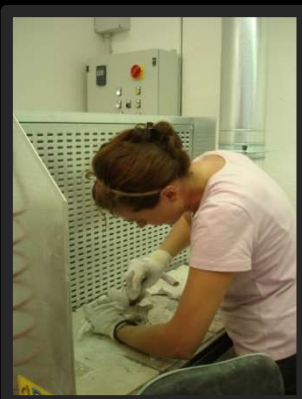

Our designer puts on paper the new Collections and draw them for the Sculptor.

Looking at the drawings, the Sculptor creates with the clay the first item, which is needed to make the production moulds.
