BOBBY - The loving elephant

Elephants are the largest land animals on earth. And yet their nature is gentle and tender. Bobby is no exception. With his large ears and characteristic long trunk, he may seem ponderous at first. But on closer inspection, you will quickly recognise his gentle nature. With his calm demeanour, he will banish any stress from your everyday life. Once elephants have found their mate, they keep this relationship for life. Just as the other elephants in Bobby's herd have already found their lifelong partner, we are sure that Bobby has also found his „forever“ with you and that his love for you will never end.

Bobby is made from high-quality grey vegan faux leather. With his button eyes and long trunk, you simply can't take your eyes off him. Of course, the big elephant ears are a must. As your new partner, Bobby will never leave your side.

Bobby is a table lamp and can be seen anywhere. Whether as a decorative lamp on the bedside table or on the desk in the office. Its muted grey colour fits into any type of room. Bobby looks particularly good on the bedside table, as his gentle nature will accompany you into your dreams.
