ABOUT US

From the experience of more than 30 years producing decorative earthenware, António Rosa ventured and wanted to go further in this wonderful world that is ceramics and created a small line of tableware in stoneware.

With MY FAMILY TABLE, the moments around the table will have another meaning. We want these moments to be unique, welcoming, different from others, and, above all, remarkable. This is how a new brand emerges, aimed at the family, since the moment of the meal is the time to gather at the table, those who are closest to us.

MY FAMILY TABLE mainly wants to bring something new and differentiate itself from what exists today on the market, so it sought the roots of its history, manual painting, making the pieces on its table, distinct and unique, in terms of decoration.

In terms of shapes, MY FAMILY TABLE wanted to revive lines drawn by founder António Rosa, years ago, and made those same lines contemporary, giving them new colors and dimensions, adjusted to today.

Maintaining the resistance and quality that tableware requires, but making it more familiar, MY FAMILY TABLE was created to be with you at the table and create unique moments.

MY FAMILY TABLE was born into a family and intends to be part of your family.

MY FAMILY TABLE, from our family to yours!

VITORIA COLLECTION

With origins linked to ceramics, both on her mother's and father's side, Raquel also wanted to put her hands to work and create some pieces.

During the school holidays, she joined the António Rosa team, went through the various sections, and created her line which she named "VITORIA".

We are pleased to present, by the hands of one of António Rosa's great-granddaughters and under the guidance of master João, this 1st table line, a small collection for your family breakfast.

Starting the day with a family breakfast, served on MY FAMILY TABLE tableware, makes your day cozier!

From our family to yours, with love!
