Morbido

Caroline Lundgren

Caroline Lundgren is an interior architect and designer from the south of Sweden who has been living and working mostly in Italy for the last ten years. Her clients includes many of the Italian luxury fashion brands such as Prada, Armani and Bulgari.

She describes her way of working as follow: "I always use the same approach when it comes to creating something, no matter if it is a small cup or if it's a large building or hotel. I always start from an impression, a feeling, often felt in the nature of my homeland Sweden. That feeling is what inspires me and what I try to capture and communicate through the object I create. Every line goes back to the moment of inspiration and when I can feel in a similar way looking at the object or building, that's when I know that I have succeeded, that it is time to put down the pen."

Stefano Iannaco

Design by Caroline Lundgren & Stefano Iannaco

Stefano Iannaco is a industrial designer from Florence, Italy who has been working with well known brands mostly in Italy and China.

He is often in charge of the furniture and graphic design process in larger scale projects and is recognized by his simple lines and often industrial material choices. He describes himself as a designer who loves to work with his own hands and to be a part of the making process from the beginning to the very end. He prefers to make timeless objects and is often inspired by artists and tendencies in the world, to be interpreted into an abstract a simplified language.

THE WHOLE MORBIDO RANGE are heavy duty with finger edge for more elegant looking.
