Welcome to the World of Craft

This year, we've ventured beyond the familiar with a range of distinctive creations. From stylish water hyacinth bags to versatile outdoor planters and bamboo home decoration objects, each piece is a testament to our commitment to innovation and craftsmanship.

Explore the beauty of nature woven into every design, showcasing the unique charm of water hyacinth and the timeless appeal of bamboo.

Water hyacinth (*Eichhornia crassipes*) is a rapidly growing aquatic plant known for its glossy leaves and vibrant violet flowers.

The plant's fibrous stalks are used to create a variety of woven products such as baskets, mats and furniture.

This sustainable use provides economic opportunities for communities while also harnessing the plant's natural properties for practical and artistic purposes.
