# KINGMAX

*The Super or nothing*

KINGMAX is a professional OEM supplier of Microfiber products and has been in the cleaning industry since 2005. We are a strong team consisting of smart members with expertise who have earned their reputation among customers.

Our products range from fabrics to tools, covering cleaning system in both daily use and professional clean. We have several product lines, including

1. Quality microfiber fabrics
2. Professional cleaning mops
3. Premium microfiber cloths
4. Durable cleaning tools

**MISSION**  
Clean, We Mean

**VISION**  
Professional, Innovative, Sustainable,  
To Be the World Leading Supplier  
in Cleaning.

**VALUE**  
The Super or Nothing

We never stop our pursuit of supreme. KINGMAX is a qualified supplier, the production has passed annual audit of BSCI. Certified by OEKO-TEX® STANDARD 100, also ISO14001, KINGMAX is proven to supply products free of toxic substances and they have direct contacts to skin. Introducing rPET recycled microfiber items into our production line, KINGMAX contributes to reduce tons of post-consume PET bottles and converts them into cleaning cloths and mops verified by GRS.

Our commitment is to make microfiber products with no harm to human health and no threat to the Earth. Believe us to be your most loyal partner. With KINGMAX by your side, you can step ahead of your competitors. Contact us today to get started!

## SUPER OEM

As a reliable OEM microfiber supplier, we provide you the professional service as follows

- Prompt response within 3 hours
- Swift quotation within 24 hours
- Fast sampling within 3 days
- Competitive price
- Assured AQL quality control
- On-time delivery

## ENVIRONMENTAL AWARENESS

We all have just one planet, no other further. Choosing sustainability is for our future.

KINGMAX is the loyal member of Global Recycle Standard (CU1186144). The supply chain has totally certified with GRS, and our production site is also authenticated with ISO14001 EMS.

Our recycled microfibers are made from post-consumed PET bottles. KINGMAX has managed to reduce over 300 tons of CO<sup>2</sup> emission (CER) until 2023 by using recycled materials.

## ADVANCED R&D

As a leading company in microfiber industry, KINGMAX team tests and analyzes different materials to optimize our cleaning jobs.

Within the factory laboratory, we can make most of tests speedily, such as material composition, color fastness, shrinkage, tensile strength, durability, etc.

The certified cleanroom facility (ISO Class 5-7) can produce the pre-washed cleaning items for SEMI and Medical industry, no matter sterile or regular.

# KINGMAX

## KINGMAX'S Commitment To Environmental Sustainability

Crafted with sustainability in mind, KINGMAX rPET microfiber cleaning towels are made from microfiber originated from recycled PET bottles, bringing a completely sustainable option for the hygiene industry.

We have got the [GRS \(Global Recycled Standard\)](#) certificate and guarantee that recycled products follow the standard and traceable procedures in the whole supply chain.

Our rPET towels offer a high-end eco-friendly solution for your cleaning projects. Made from recycled material, these cloths keep absorbent, effective and powerful in cleaning. These durable towel can last up to 500 times of washing.

Each towel is thoughtfully crafted to combine style, functionality, and environmental consciousness all the while ensuring that every purchase is a positive movement to reduce waste and minimize our ecological footprint.
