# Introduction

Established in 1923, Goodmans started its journey with audio speakers and became a household name to British consumers. With the vision to provide its customers with high-quality products at a reasonable and affordable price, Goodmans began its expansion.

In 2009, Goodmans expanded into more products, which we partnered with a UK retailer with over 700+ stores & employs 28,000 staff. It further ventured into Ireland, France and Germany in 2011 and, Australia and New Zealand in 2016.

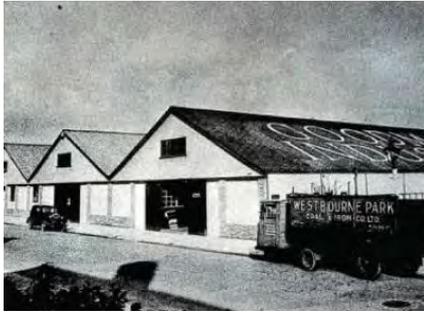

Goodmans partnerships with major retailers LED to it introducing ranges other than audio appliances. Today, Goodmans is a global brand and has a broad product category that includes but is not limited to phone accessories, kitchen appliances, LED lights, heating and cooling appliances.

# History of Goodmans

## 1923

Goodmans' Origins: Post-WWI, Newland sold surplus military radio gear, expanded, utilized Goodman's space, and settled in Wembley in 1936.

## 1952

1952: Ted Jordan launched Axiette, Goodmans' first product. A 200mm driver with broad, smooth frequency range met demand for compact, high-fidelity speakers.

## 1958

In 1958, Goodmans provided 300 speakers for Brussels World's Fair's 'Gardens of the Four Seasons', using 160 to create ambient, low-level sound.

## 1944

Goodmans met high WWII demand for audio equipment, expanded, and quickly built a new facility after bomb damage, preparing for post-war production.

**Augury for TOMORROW...**

THAT tomorrow must be taken care of today has always been Goodmans policy. Constantly thinking and planning ahead Goodmans inevitably found themselves Leaders in the field of Sound Reproduction. As a result, during the past critical years Goodmans have been entrusted with many onerous tasks in the designing and production of Loudspeakers, Microphones, and Earphones. True to their policy Goodmans tested and sifted to build data which might serve in the days to come. Now Goodmans stand ready to give of their greatly enhanced knowledge to the no less onerous tasks of Peace.

**The GOODMANS RANGE**  
Includes Loudspeakers from 2 1/2 dia. 12 watt portably to 18 in. cone portable and industrial. Types up to 20 watts output.

**The TYPE T2/12.** Overall Dia. 12 3/8 in. Voice Coil Impedance 15 ohms at 400 C.P.S. Power Handling Capacity 12 w. Peak A.C. on flat 4 ft. baffle (15 w. horn loaded). Flux Density 13,000 gauss.

**GOODMANS Loudspeakers**

GOODMANS INDUSTRIES LTD. LANCELOT RD. WEMBLEY. MIDD.

## 1946

1946: Goodmans opened a modern factory, using wartime methods, equipped with advanced tech and labs, dedicated to high-quality speaker production.

**Fidelity**  
True to LIFE - Faithful TO TRADITION

**GOODMANS Loudspeakers**

A TRADITION OF EXCELLENCE

GOODMANS INDUSTRIES LTD. LANCELOT ROAD, WEMBLEY, MIDD.

## 1969

In 1969, Goodmans Dimension 8 featured a unique design for broad stereo sound, utilizing strategic placement and wide high-frequency dispersion.

## 1965

In 1965, the Goodmans Maxim, an early mini-monitor with an acoustic suspension design, brought high-fidelity performance and compact size, earning acclaim.

## 1959

In 1959, Axiom 80's innovative design and exceptional performance set a new standard, satisfying even the most discerning audio enthusiasts.

**ASTOUNDING PERFORMANCE FROM 20 to 20,000 CYCLES WITH A SINGLE CHANNEL SPEAKER SYSTEM**

**GOODMANS AXIOM 80 LOUDSPEAKER IN "Piston Loaded" ARV ENCLOSURE**

ROCKBAR CORPORATION 1701 HYMAN AVENUE, WILMINGTON, DE.

## 1971

In 1971, Goodmans relocated to Havant, Hampshire, producing 25,000 high-fidelity loudspeakers weekly with in-house manufacturing, including speaker cones and exporting to 100 countries.
