ALL INDUCTION COMPATIBLE COOKWARE ON THIS COLOUR BACKGROUND

THE WIDEST RANGE OF COOKWARE FOR ALL YOUR COOKING NEEDS

The designers of Hawkins and Futura Cookware have spared no effort to provide you with the best possible cooking experience.

Our Cookware is presented in seven types: **Futura Hard Anodised, Futura Nonstick, Futura Cast Iron, Hawkins Tri-Ply Stainless Steel, Hawkins Sandwich Bottom Stainless Steel, Hawkins Pressure Die-Cast Aluminium and Hawkins Ceramic Nonstick Cookware.**

Each pot or pan is made from heavy gauge, commercially pure material for even heat dispersion and steady heat retention.

The cooking surface of the stainless steel pans is made of food-grade stainless steel. Futura Cast Iron is made of iron. The other pans are given a technologically advanced surface coating, to give you a superb cooking surface.

Sturdy, comfortable, stay-cool handles form part of all our Cookware using the finest materials in rosewood, plastic, stainless steel or silicone handles (except for a few cookware). The handles stay fixed

permanently. Where required, the cookware comes with custom-designed lids of stainless steel, glass or hard anodised aluminium, either included in the product or as an option at extra cost.

Each Cookware item is tried out thoroughly in the Hawkins Test Kitchen before the specifications are approved and manufactured under strict quality control. Each piece is individually packed in a strong, attractive carton designed for protection in transit and sales appeal. An Instruction Manual with tested recipes comes free in each carton (except for a few cookware such as the Tadka Pans, Ezee-Pour Saucepans and TPans).

Futura Cookware and Hawkins Cookware are designed, quality controlled and manufactured or marketed by Hawkins Cookers Limited.

Please see the details of models, sizes and prices of these different types of cookware in the pages that follow.

HAWKINS AQUA

- The Aqua series is designed with a finer grade of ceramic coating which is of light ivory colour and gives a smoother finish.
- This formulation is uniquely designed to not stain even with Indian recipes.
- This ceramic coating which has no PFAS, no PTFE, no heavy metals, has been developed after over a thousand actual cooking trials by Hawkins R&D and the Hawkins Test Kitchen.
- Toughened Heat-Proof Glass Lid – see food while cooking and serving with silicone knob.
- Two product colour surface handles – easy to Cook and Serve.

FUTURA CAST IRON

Cast Iron is made from iron heated to over 1200 degrees centigrade, with many wonderful properties for cooking

- Retains heat well, easy to cook in. Certain foods will brown better, cook faster and crispier, and cook more evenly inside and out
- No coating – Naturally Nonstick, healthy, tasty, crispy food
- Pre-seasoned with vegetable oil – Will not rust with regular care
- The more you use it, the better it gets! The cast iron pan surface gets seasoned with more use, becoming smoother and better for cooking
- Rough and tough – Can use high heat, metal ladles
- Versatile – It may be used on gas cooktops, in the oven, on a grill or a *chulha*.
