Red Dot Award Laureate in 2023

WALL TV STANDs have won the Red Dot Design Award 2023 in product design. The award is one of the world's three major design awards organized by "Design Zentrum Nordrhein Westfalen" (DZNRW) in Germany.

The products selected by the Red Dot Jury to win an award may be aesthetically appealing, functional, smart innovative, but what they all have in common is their outstanding design.

Reviews from Amazon

★★★★★ Sturdy and Stylish

These stands are so excellent that we bought a second one. They are sturdy and elegant and are great for a room that doesn't have a good wall on which to set a TV. Or for a room where you want layout flexibility.

★★★★★ Luxurious Design

It has Concealed Caster Wheels, high quality, durable, sturdy, luxurious, elegant design, and modern color. Great price!

★★★★★ Easy To Put Together

Putting together the pieces was fairly straight forward. All the bolts and screws were individually packaged with letters and numbers on them so it was easy to know which bag to open and use when following the instructions.

★★★★★ Space-Saving and Secure

This stand helps me to keep my working space tidy and stylish. It is shocking how such a compact stand holds a large TV without any wobble. Thanks to the hidden wheels, it is effortless to move, yet it stays firmly in place and doesn't roll around by itself.
