HIGH-END KNIFE BLOCK DESIGN

This exclusive high-end knife block series is meticulously crafted for professional-grade quality and performance. Utilizing a variety of materials and diverse knife storage methods, it offers a unique style tailored for various scenarios and settings.

The "Ridgewood" collection features light-colored wood as its main material, with a distinctive ridged design that adds texture and a modern flair to each piece. The minimalist aesthetic, paired with the natural warmth of wood, offers both functionality and a perfect fusion of nature and contemporary craftsmanship. This collection is ideal for homes that value simplicity and elegance, providing a complete range of products from kitchen to dining room essentials.

MODERN PARTNER SERIES

ACACIA WOOD

This series presents a selection of cutting board and knife block sets with a contemporary design ethos. Crafted with an eye for simplicity and elegance, each set strikes a perfect balance between practical use and aesthetic appeal. These sets not only fulfill everyday kitchen needs but also elevate the style and taste of your kitchen environment.

PUZZLE PLATE COLLECTION SERIES

ACACIA WOOD

The "Puzzle Plate Collection" is a blend of functionality and playful design, inspired by the concept of puzzle assembly. Each piece in the collection can be combined like puzzle pieces, allowing users to create unique configurations that suit their needs and creativity. From cutting boards to trays, these modular designs add an element of fun and interaction to your kitchen experience. Whether you're hosting a family meal or simply enjoying a creative kitchen moment, this collection transforms everyday kitchenware into a playful fusion of art and utility.

CONVERGING WOOD SERIES

ACACIA WOOD

This series features a unique wood marquetry technique, with pieces converging from the edges to the center to form distinctive geometric patterns. Each piece showcases the natural grain of the wood and the intricate craftsmanship of the hand-assembled joints. The products in this series are both functional and aesthetically pleasing, adding a touch of modern and natural elegance to your home space.

Z JOINTING SERIES

ACACIA WOOD

This collection offers a range of dining and kitchen products distinguished by a vintage aesthetic and a unique Z-shaped wood board jointing design. Each piece in the series injects a nostalgic and artistic vibe into kitchen spaces through its distinctive retro style. The thoughtful interlocking pattern marries classic and contemporary elements, transforming the kitchen into a space brimming with personality and allure.

HERRINGBONE SERIES

ACACIA WOOD/TEAK WOOD

The design comes from the floor design - herringbone, common in medieval European buildings, such as art galleries, museums, etc. The spliced products have distinct layers and a strong three-dimensional sense. The elegant and retro temperament has a nostalgic texture, and the wood color difference of different shades is interspersed to make the product more layered. The agility and change reflected in the regularity can bring a strong visual impact to people.

OBLIQUE SPLICING SERIES

ACACIA WOOD/BAMBOO

The designer breaks through the traditional kitchenwares design concept of being regular and reasonable and extends the sense of product design through free and personalized oblique splicing. It weakens the rigid impression which given by wooden kitchenwares, and increases the jumping sensation of spatial perspective, and appears playful, cute, and unconventional. The natural characteristics of black and white intervals in acacia wood endows it with color jumps, resulting in unexpected effects in the entire design and fully showcasing the unique style of kitchenwares.

SKULLCRAFT SERIES

ACACIA WOOD

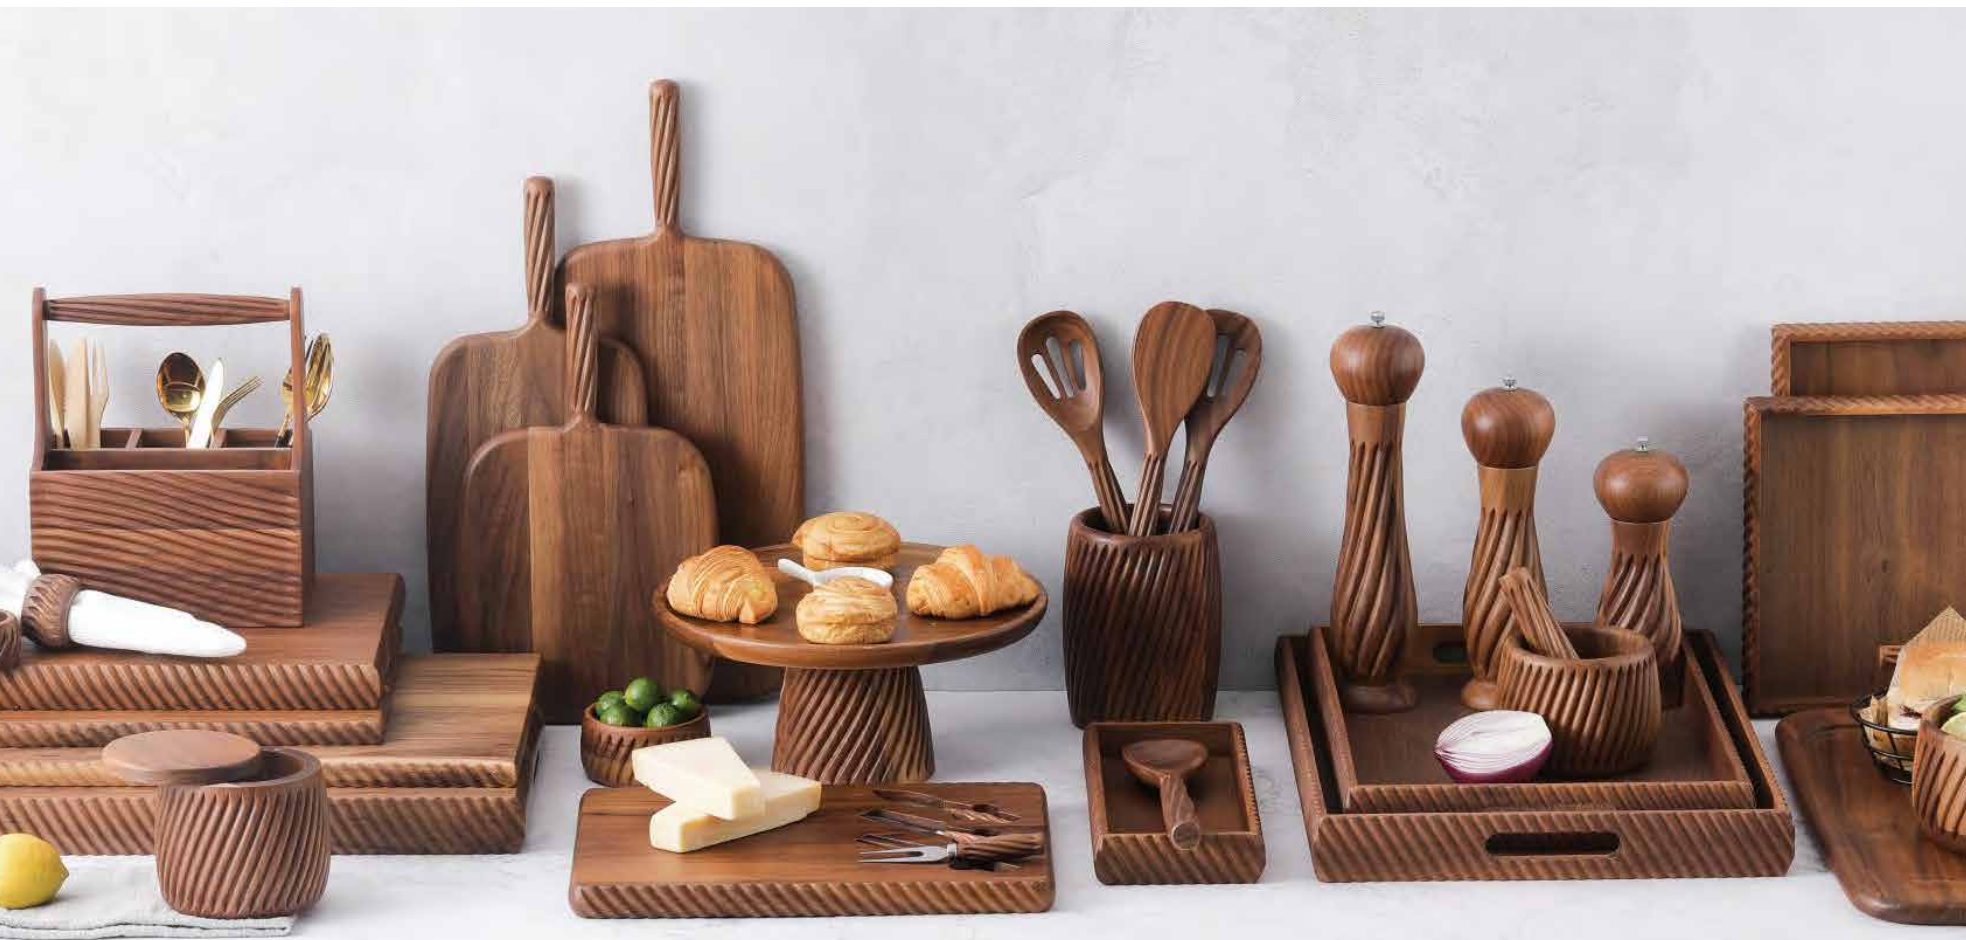

The "Skullcraft" collection combines natural wood with meticulously carved skull designs to create a unique blend of artistry and mystery. Each piece is more than just a kitchen tool—it's a statement of individuality and craftsmanship. Perfect for everyday use or as a standout feature during special occasions, the "Skullcraft" series seamlessly merges practicality with bold, personalized design, bringing an intriguing and edgy aesthetic to any space.

HARMONY OF NATURE SERIES

ACACIA WOOD

The series is inspired by the beauty of nature, incorporating the texture and form characteristics of high-quality wood to create a unique and charming collection of dining and kitchen products. Each product is a tribute to nature, allowing you to feel a close connection with nature in your daily life. They are not just practical kitchen tools but also works of art, adding a natural and warm atmosphere to your home.

SPIRAL SERIES

BLACK WALNUT/ACACIA WOOD

Using elegant black walnut coupled with the classic spiral pattern design, the whole series comes out with French elegance which getting rid of the dull tone of black walnut to achieve more playful and elegant that easily lighting up the overall product and adding softness to the space of kitchen products. It makes the product unique.

MODERN STRIPES SERIES

ACACIA WOOD/RUBBER WOOD

As a timeless classic element, stripes have a simple and unadorned beauty, and are one of the most vital patterns in modern culture. The texture composed of lines creates a sense of regular beauty visually which is neat and refreshing and brings a full of vitality.

PASTORAL EDGE SERIES

ACACIA WOOD

The product design is a pastoral style, adding pastoral edges on the basis of natural wood to make dull solid wood kitchenware more lively and delightful, which gives people a visual beat. In the fast-paced modern life, the design that is close to nature and shows the playful life gives people a more relaxed and comfortable mood.

ELEGANT DEER SERIES

OLIVE WOOD/ACACIA WOOD

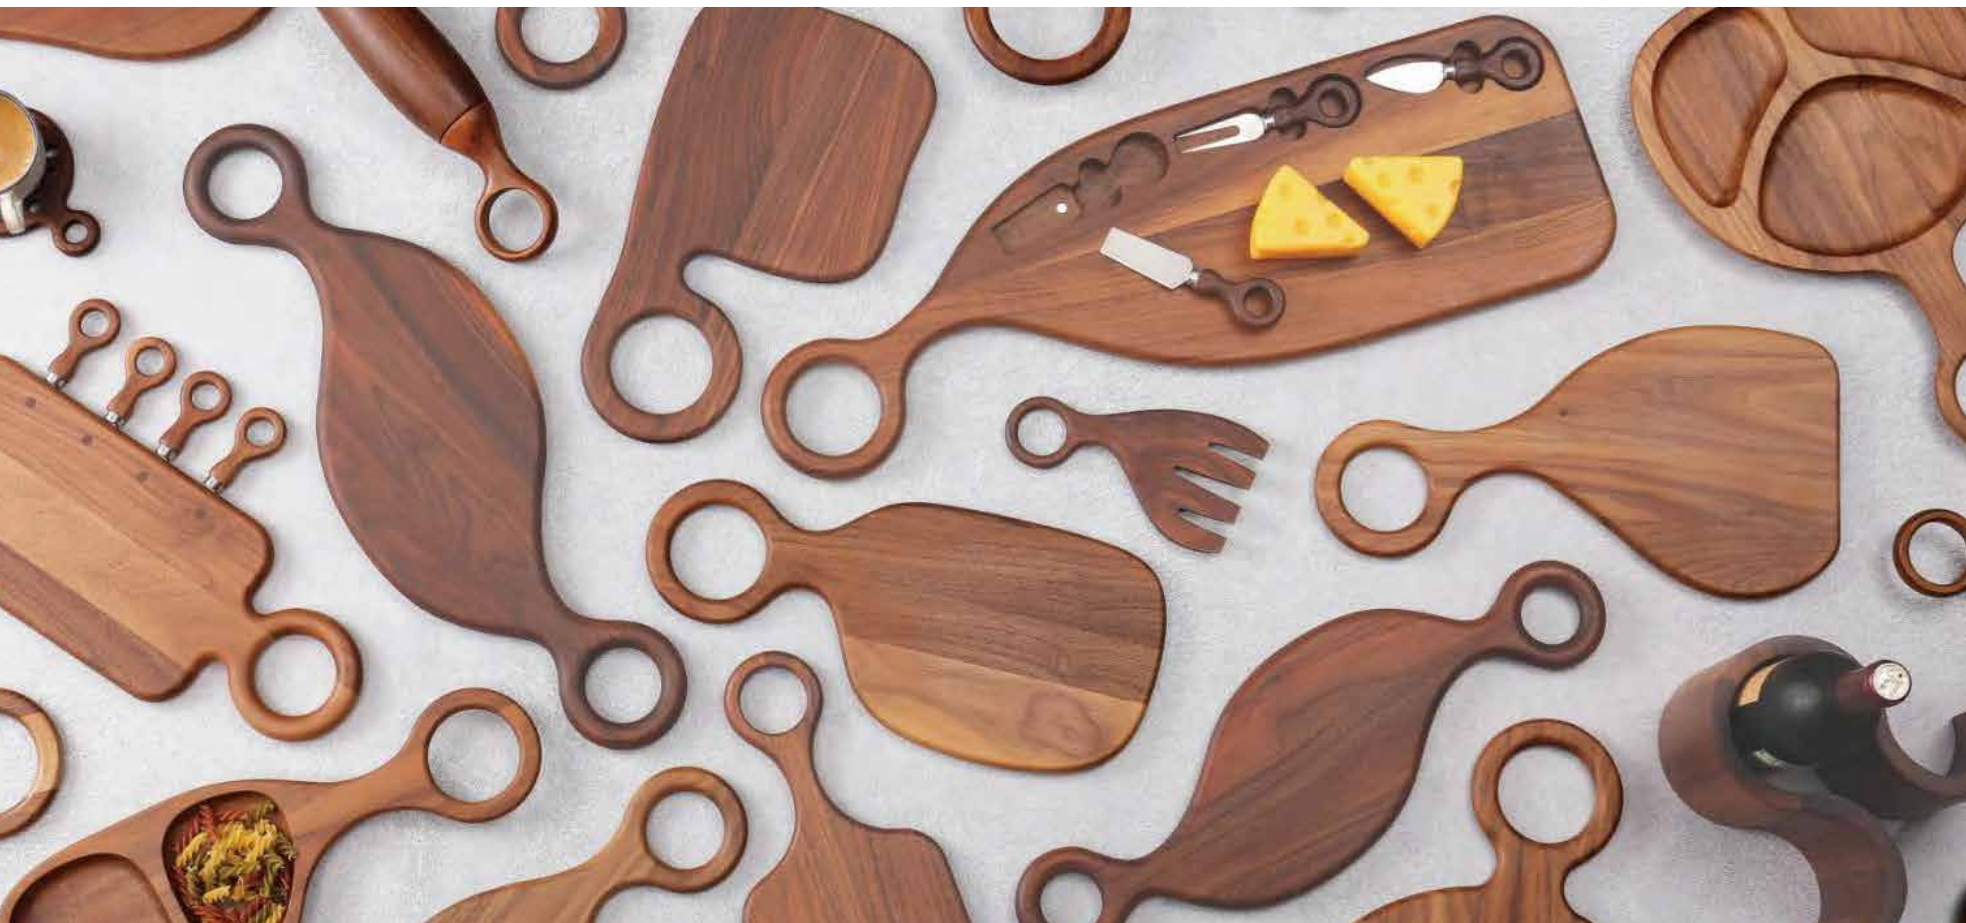

This series uses the ideas of buck and elk. Exquisite outlines create a classic and elegant forest style. With natural wood grain of acacia wood, the warm tone colors make the item more vivid and lively. At the same time, the unique wood grain and bright color of high-quality olive wood also make the whole series richer in color, gorgeous and unique in design.

TWISTED GRAIN SERIES

HARD MAPLE/ACACIA WOOD

With a simple flat twisted design, the products are more vivid and showing characteristics. Within the idea of classical architecture, the simple shape of kitchen utensils are not simple in the detail. Also the other kitchenware are with a sense of grand with the twisted texture. Mild tone from acacia wood brings atmosphere of warmth and it brings another sense of classic and fineness with imported hard maple wood.

CLASSIC ROUND SERIES

BLACK WALNUT/OLIVE WOOD/
ACACIA WOOD

As an enduring classic design element, the round circle has smooth curves and changes to give people the beauty of soft affinity, which is simple and plain. At the same time, it is combined with black walnut with calm and simple color and strong appearance. The soft lines create a visual beauty and the idea of simple circular also provides more advanced and stereoscopic looks and showing a unique European style. Enjoying surprises brought by each piece of wood.

HOLLOW HANDLE SERIES

ACACIA WOOD

Inspired by simple composition of geometric elements. The hollow-out geometric handle gives a simplicity and lightness feeling, which contrasts sharply with the heaviness of the wood itself. It is integrated into the product shape, reflecting smooth lines and a unique high-end design.

FLORAL WOOD HARMONY SERIES

ACACIA WOOD

This "Floral Wood Harmony" collection draws inspiration from the beauty and harmony of nature. Each piece is handcrafted from premium natural wood, featuring delicately inlaid floral patterns that symbolize warmth and subtle elegance in everyday life. This collection blends modern functionality with traditional craftsmanship, offering not just practicality but also a unique artistic touch to your kitchen. Whether for everyday cooking or family gatherings, this series brings a sense of natural warmth and serenity to your kitchen space.

TIED ELEGANCE SERIES

ACACIA WOOD

The "Tied Elegance" collection is crafted from fine wood, featuring intricately carved bows and gift ribbons on the surface, making each product feel like a thoughtfully wrapped present. The contrast of light and dark wood tones adds depth and a unique touch of sophistication. This collection blends functionality with artistry, bringing a sense of warmth and ceremony to any home.

INK-STAINED WHITEWOOD SERIES

RUBBER WOOD/ACACIA WOOD

The Ink-Stained Whitewood series is based on a minimalist black and white palette, infused with the natural texture and warmth of wood to create kitchenware that is both modern and artistic. Each design strikes a balance between coolness and warmth, like a gentle stroke of ink in the morning light, softly draping over the wood grain. Through our unique craftsmanship, we carve out a dialogue between nature and art, allowing every corner of life to exude enduring poetic charm.

TRIO COLLECTION SERIES

RUBBER WOOD + ACACIA WOOD + CARBONIZED RUBBER WOOD/
ASH WOOD + IMPORTED TEAK + CARBONIZED ACACIA WOOD

This series introduces products featuring a tiered wood design, organized into three distinct layers of varying colors. Strategically hollowed sections reveal the trio of hues in a stunning layered effect, offering both visual depth and a showcase of the wood's diverse colors and textures. Crafted as unique art pieces, these products bring an unparalleled charm to any living space, making each item a testament to innovative design and natural beauty.

POLKA DOT SERIES

RUBBER WOOD/ACACIA WOOD

The product is designed to give a feeling of light, and is fitted with four different colors of wood. The perfect product is distributed in golden proportion, the beauty of the actual product, and the feeling of elegance and harmony. Fashionable shape, rich color tone, a kind of sunshine mood that is spontaneously emitted when dining at home.

GEOMETRIC MOSAIC SERIES

ACACIA WOOD

Inspired by the design concept of geometric segmentation, the simple geometric shape is decomposed and reorganized to generate a new mosaic texture. Different kinds of wood are sliced into different geometric shapes. After recombination, it forms a strong visual and color contrast.

LIFTED HANDLE SERIES

ACACIA WOOD+RUBBER WOOD

The standout feature of this product lies in its uniquely lifted handle, designed for optimal comfort through an ergonomic contour. Crafted from a combination of acacia wood and rubberwood, enhanced by a distinctive tenon structure, it offers a blend of practicality, beauty, and affordability.

HEX STARS SERIES

BLACK WALNUT+HARD MAPLE/
RUBBER WOOD+CARBONIZED RUBBER WOOD

Product design is based on the theme of Hex Stars which uses two kinds of wood with large color difference which are black walnut and hard maple. The main body is made of black walnut and the Hex Stars is made of light-colored maple. The huge color difference highlights the element design of the Hex Stars.

SERRATED GRAPHIC SERIES

BLACK WALNUT+HARD MAPLE/
CARBONIZED RUBBER WOOD
+RUBBER WOOD

In order to enrich the modeling of kitchenware, designers use irregular diagonal lines to connect them to form a serrated graphic design. It makes kitchenware look beautiful and has a strong sense of product hierarchy. At the same time, black walnut and hard maple are used to combination. The main body is black walnut and remaining is made of light maple. The huge color difference highlights the serrated design.

OBLIQUE SPLICING SERIES

ACACIA WOOD+POPLAR WOOD

This series mainly shows the collision between two kinds of wood. The designer uses brown acacia and off-white poplar for the brown main tone and small parts of off-white poplar. The combination of two colors is harmonious and natural, both dark and light colors bring a lively atmosphere to these kitchenware. Laser etched wording like simple greetings/blessings on the poplar wood to give the tableware a touch of playfulness.

ENGRAVED SERIES

ACACIA WOOD

The acacia wood is warm with delicate and smooth textures. The designer has added some engraving in this series, which is rigorous and elegant, with clear layers. It is also more playful, vivid, and interesting. Engraving is the art of concavity and convexity, it achieves a perfect combination in shape and decoration, material and carving techniques, complementing each other and conveying people's understanding of the beauty of wooden kitchenware. It has a strong visual impact and it is very beautiful.

VICHY STYLE SERIES

CARBONIZED RUBBER WOOD
+RUBBER WOOD

Vichy checker design is a pattern composed of crisscrossing lines, and its unique sense of order and fashion has made many people fall in love with it. Designer adopts Vichy checkered patterns as the main element, using different colors and thickness lines of different wood. Different sizes of Vichy checkered patterns create different visual effects, which are flexible, rich and varied. The small grid pattern is subtle and elegant, while the large grid appears much more generous and tense. Add a sense of order and fashion to the entire kitchenware collection.

MULTIPLE WOOD SERIES

MULTIPLE WOOD

Combining different wood materials, different wood textures and colors to form different visual effects bringing a strong visual impact and refreshing. Unique colors and textures to add extra elegance and beauty to your kitchen and life. Every wood is selected carefully. Every wood grain is unique.

SIGNATURE STRIPE SERIES

ACACIA WOOD/RUBBER WOOD

Stripe is one of the most classic elements in design and the most common used visual language for designers. The designer used different color material and incorporated the stripe into the product to express the beauty of lines and surfaces. Throughout the whole collection, the signature striped pattern reflects a modern and minimalist design.

SOLID LETTERING SERIES

RUBBER WOOD/ACACIA WOOD

Our artisans use high-quality woodworking to hand-create the three-dimensional letters around the edges of the product. Different products with different vocabulary add a touch of fun and witty ways of serving dishes. It can also be a sincere gift for wedding, housewarming and anniversary. A product with customized text design would be a good choice.

NATURAL STYLE SERIES

ACACIA WOOD

The designer uses total natural acacia wood without any finish, its natural color and grain provide a look of origin and nature. The idea for blank spaces fully show the natural simplicity of the tableware. The original wood material brings a nature look and plays a different effect of finishing touches.

 Woodsun

RUSTIC ANTIQUE SERIES

ASH WOOD

This series uses ash wood as a rustic antique effect, adding a rustic touch to kitchenware. Ash wood is relatively tough, with a crucial beautiful texture, and has features that are not messy, and are not easy to cracking and deformation. The deep texture similar to mountain and water veins match with the antique and dark color of rustic, giving a sense of old times atmosphere.

SLOTING SERIES

ACACIA WOOD/BLACK WALNUT

This series adopts the mainstream style of European architecture that people like and the technology of slotting, which makes the kitchen products more lively and retro to show natural and pure handmade. Each groove is full of beautiful design and the grooves are clearly defined under natural light to bring a more stereoscopic look.

BURNT EDGE SERIES

ACACIA WOOD

Designers use burnt edges to convert the incomplete features into a sense of "beauty of broken"! Acacia wood undergoes a burning process, which more naturally reflects the natural texture of acacia wood. It not only enriches the color, but also breaks the regular shape in structure to make items vivid and retro. These lively kitchenware brings energy and dynamism to normal kitchen.

TEAK SERIES

CHINESE TEAK/BRAZILIAN TEAK

The designer said, 'Teak is a beautiful and simple wood that can be done well without a lot of maintenance work.' Although it requires regular oiling to maintain its original color, it is still a 'beautiful, organic material'. In this series, the designer adopts classic kitchenwares styles, showcasing the high-quality characteristics of teak wood, mottled textures, and golden color, making kitchenwares full of artistic and light luxurious feeling.

LEATHER AND COPPER SERIES

SILVER BIRCH/ACACIA WOOD

This series features a collection centered around high-quality wood material, complemented by brown leather and accented with copper accessories. These products merge the warmth of leather with the natural beauty of wood, enriched by the distinct texture of copper accessories. The design embodies a blend of modern chic and vintage charm, offering a unique visual feast to any home space.

ANTIQUE SERIES

RUBBER WOOD/ASH WOOD

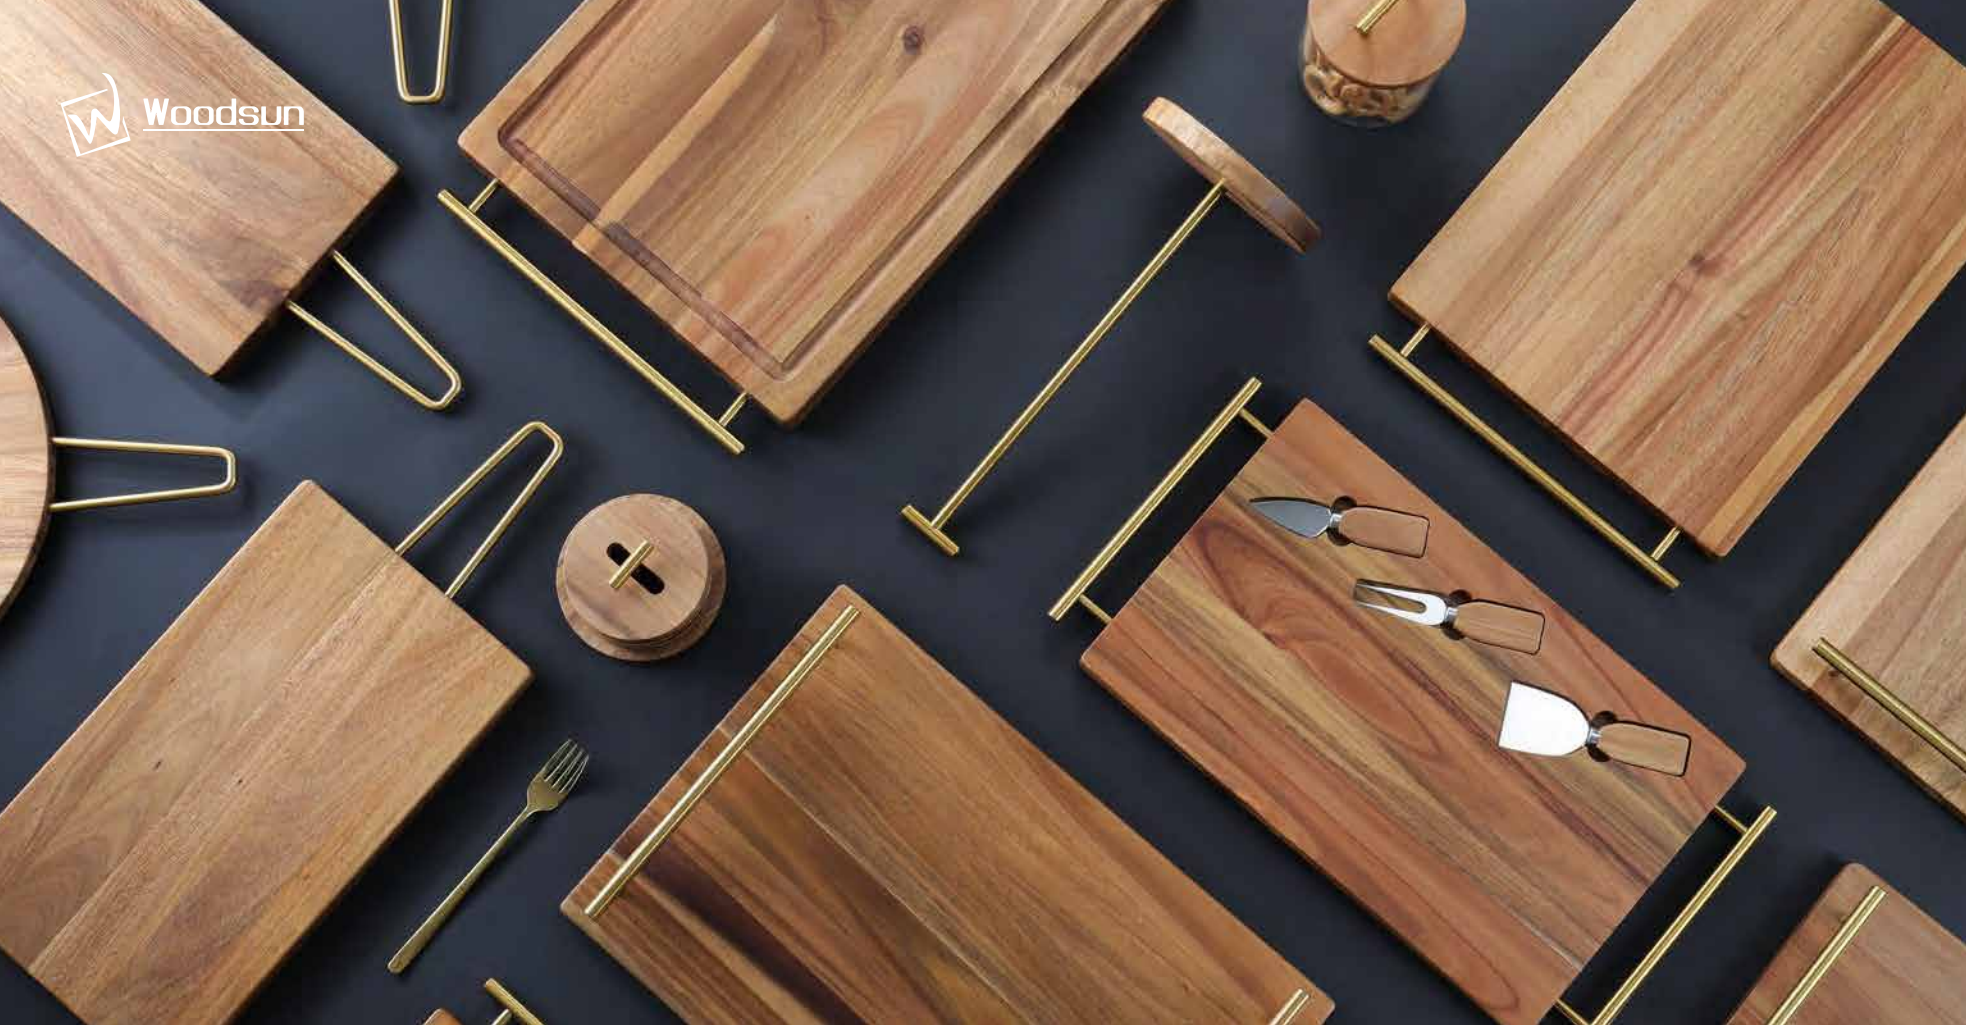

Classical simplicity is the theme of this kitchenware collection. The designer uses rubber wood with delicate patterns and the antique color staining and the details match with exquisite leather decoration. The two elements mix and match to create diversity in levels. Bring an old but modern visual effect to the kitchen.

METAL BOUND SERIES

ACACIA WOOD

The "Metal Bound" collection elegantly combines the warmth of natural wood with the sleek durability of stainless steel. The metal-wrapped handles provide a contemporary edge while ensuring long-lasting strength and usability. This series includes a variety of kitchen essentials, from cutting boards to storage containers, offering a seamless blend of practicality and modern design. Perfect for those who appreciate the fusion of natural and industrial elements, the series collection brings a balanced aesthetic to any kitchen, harmonizing traditional craftsmanship with modern elegance.

METALLONG SERIES

ACACIA WOOD

The "Metallong" collection combines wood as the main material with sleek, elongated metal handles, offering a perfect blend of natural warmth and modern industrial design. Each product is not only highly functional but also visually striking, with the extended metal handles adding a touch of elegance. Designed for homes that appreciate both contemporary aesthetics and practicality, the "Metallong" series elevates your everyday kitchen experience.

WOOD AND TUBE SERIES

ACACIA WOOD

This series showcases a range of products that seamlessly integrate black metal tubes with natural wood, offering home goods that strike a perfect balance between functionality and beauty. Through a masterful blend of industrial and natural elements, each piece embodies a harmonious fusion of contemporary design and rustic allure, enriching any living space with its unique charm.

The Simple Metal series utilizes high-quality natural wood and stainless steel hardware, seamlessly merging nature with a metallic aesthetic to craft a sophisticated and elegant kitchen space. The natural warmth of wood contrasts sharply with the cold, sturdy nature of metal, creating a distinctive yet harmonious visual appeal. This collision between nature and metal showcases refined taste and elevates the quality of life.

RUBBER WOOD

This collection features decorative products that elegantly merge timeless charm with modern materials. Crafted mainly from stainless steel and enhanced with specialized techniques, these items boast a refined antique finish. The designs integrate traditional craftsmanship elements like vintage patterns, engravings, and textures with contemporary design principles, creating a distinct and stylish appeal.

RETRO METAL HANDLE SERIES

ACACIA WOOD+METAL/RUBBER WOOD+METAL

The combination of wood and metal, featuring copper-colored metal accented with metallic nails, lends a retro vibe to the product. The broad, rounded handle design enhances convenience and practicality, elevating its functionality for everyday use.

ELEGANT BLACK SERIES

ACACIA WOOD

Elegance is the theme of this series of kitchenwares. With black metal as the element, the unique charm of hardware is displayed through rough line design. It can meet the perspective of modern urban people on color, the kitchen style has a different rhythm with black as the main color, solid wood style, and natural bright colors of metal as embellishment.

RUSTIC SERIES

RUBBER WOOD

The appearance of the entire product series is in an rustic style. The designer uses natural wood, abandons the traces of machine processing, and shapes the edges to create a pure natural and handmade style. Natural wood with rustic decoration, with rough lines of metal handles, presents a natural and rustic appearance. This kind of kitchenwares can impress your friends and family more, and it is also a natural decoration. Delicate and detailed.

MODERN COPPER SERIES

ACACIA WOOD/BLACK WALNUT

Metal material is one of the mainstream decorative elements in modern design. The designer uses copper feet as the main form of decoration, combined with natural acacia wood, embellishing the beauty of nature in the most rustic way. Kitchenware with clear texture and elegant colors make people feel the vigor and vitality of nature. It can create a natural, simple and elegant tableware atmosphere, reflecting the beauty from nature.

METAL RING SERIES

ACACIA WOOD/BLACK WALNUT

The gentle acacia wood is combined with the cold and rigid round metal ring, which not only makes the wood appear more solid and firm, but also makes the cold metal ring appear soft and friendly. Natural wood and metals both have original ecological textures. The combination of these materials with original textures can create a visual image closer to nature. The designer integrates metal elements into the design of kitchen utensils through different collocations and techniques, which can enhance the style of the overall kitchenwares and bring unexpected high charming to people.

COPPER NAIL SERIES

ACACIA WOOD/
BLACK WALNUT

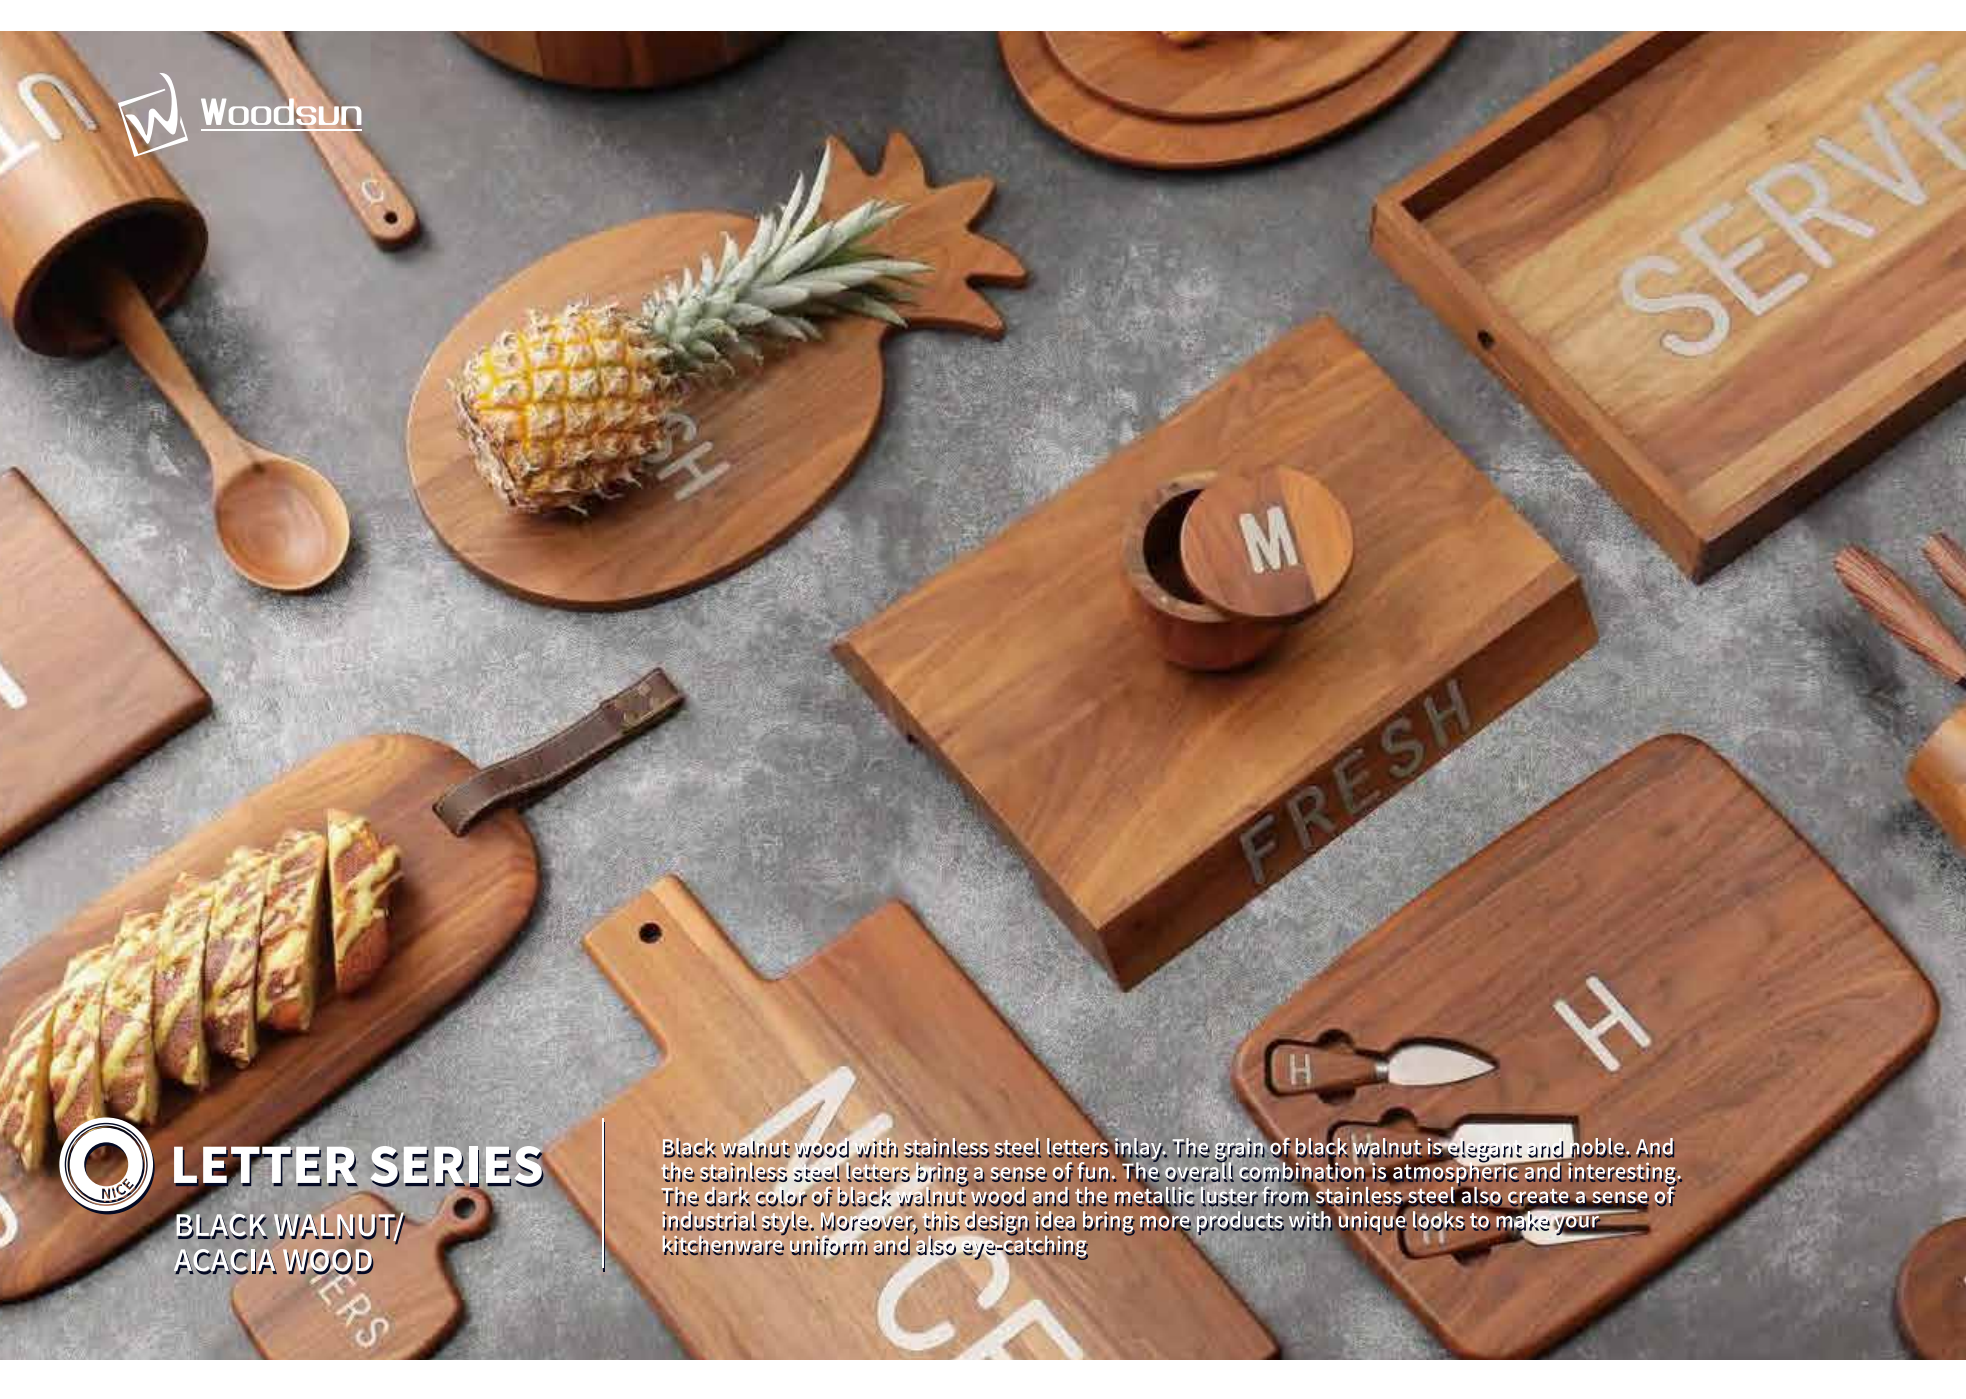

In this series, designers have added copper nails as metal elements to kitchenware. Although stainless steel can find more space in kitchens today, the warmth and charm of copper nail cannot be ignored. More and more people like and are starting to use copper to revitalize kitchen space and give it an alluring and sparkling charm. The classic kitchen showcases farmhouse and country style to modern style, smooth and stylish. The simple and pure copper nail design is quite different from the atmosphere of a modern kitchen, and also incorporates the overall theme.

BRASS INLAY SERIES

BLACK WALNUT/ACACIA WOOD

Black walnut wood with brass inlay. The customized brass undergoes exquisite polishing process and the surface presents a random pattern of brushed lines, which is fashionable. The wood grain of imported black walnut wood is also delicate. The designer uses black walnut wood with original natural wood grain as the main tone and creates highlights with brass inlay for the high end atmosphere. The overall style is atmospheric and gentle with a touch of refreshing elegance. The brass elements also bring the class to upper levels.

LETTER SERIES

BLACK WALNUT/
ACACIA WOOD

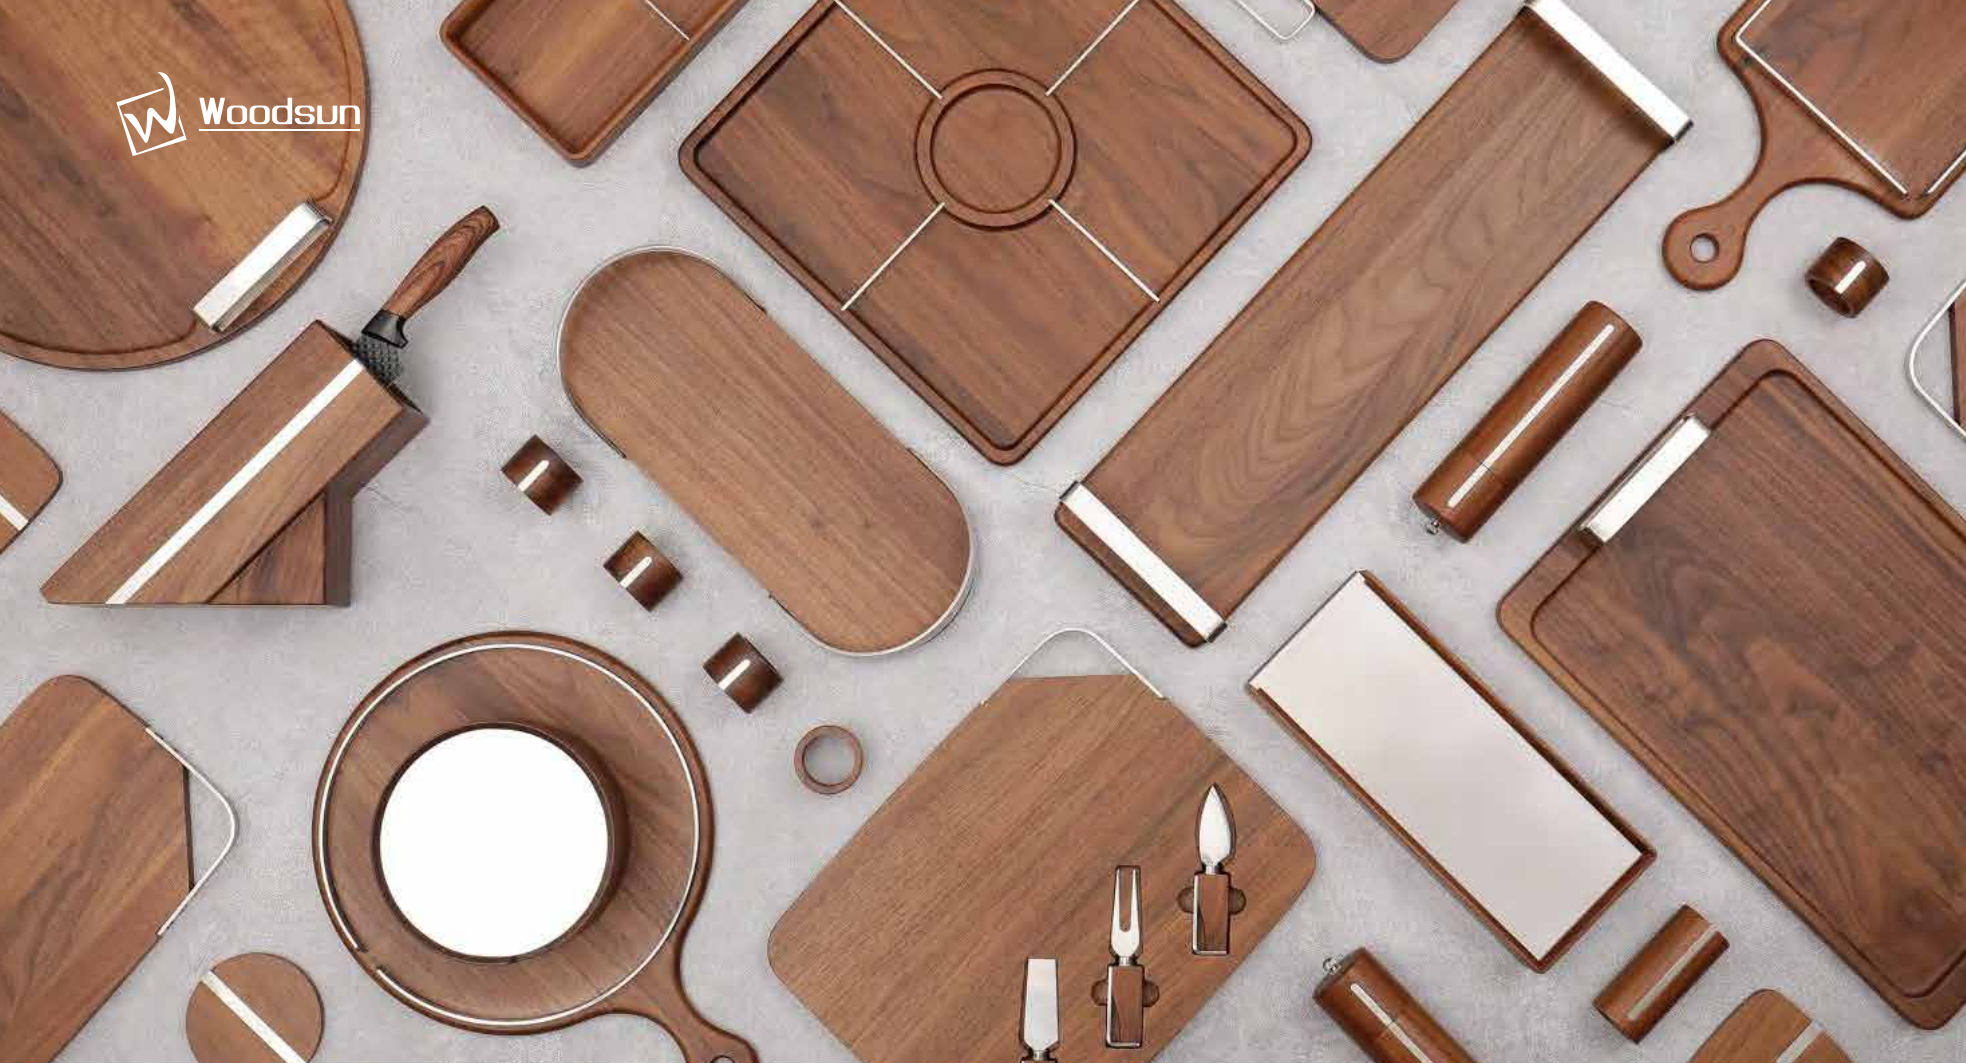

Black walnut wood with stainless steel letters inlay. The grain of black walnut is elegant and noble. And the stainless steel letters bring a sense of fun. The overall combination is atmospheric and interesting. The dark color of black walnut wood and the metallic luster from stainless steel also create a sense of industrial style. Moreover, this design idea bring more products with unique looks to make your kitchenware uniform and also eye-catching

BRIGHT METAL SERIES

OAK+METAL/ ACACIA WOOD + METAL

Oak wood is stable and has a distinct mountain-shaped wood grain. And the bright stainless steel hardware is fashionable and atmospheric. When the two colors of metal and wood collide with each other, which not only can make the kitchen glow with infinite vitality, but also show a romantic atmosphere.

The black walnut wood is with natural dark color and grain, which makes black walnut wood the most high-end imported material. The wood grain is delicate, elegant and generous, that perfectly matches the bright stainless steel hardware to create a fashionable and atmospheric look. With natural wood and industrial stainless steel material, the two total different material collide with each other, which not only can make the kitchen glow with infinite vitality, but also show a romantic atmosphere.

COPPER RING SERIES

ACACIA WOOD

Copper ring is a simple embellishment. Designer uses the retro copper color to match the shape of the small circle and the natural color of the wood which gives people a fresh and playful feeling. The innovative inclined corner shape is added to the product to form the guidance of the line of sight and strengthen the perspective effect of the product space. Make the facade effect of the kitchenware more layered, highlighting the elegance and fashion sense of the design.

BUTTERFLY BUCKLE SERIES

ACACIA WOOD/BLACK WALNUT

As one of the classic fashion design elements, the butterfly buckle has never lost its charm since first time show up. The designer integrated the butterfly buckle into the design of kitchenware, which is very chic, exquisite and elegant. The concept of butterfly are well used to create items for this series. And the brass material of butterfly buckles also pops out as a point with its look and feel. Originally, the buckles are for fixing the cracking on wood. But the cracking and buckle become design ideas for the kitchenware and there should not be any concern for the quality.

IRON STAR SERIES

ACACIA WOOD+IRON

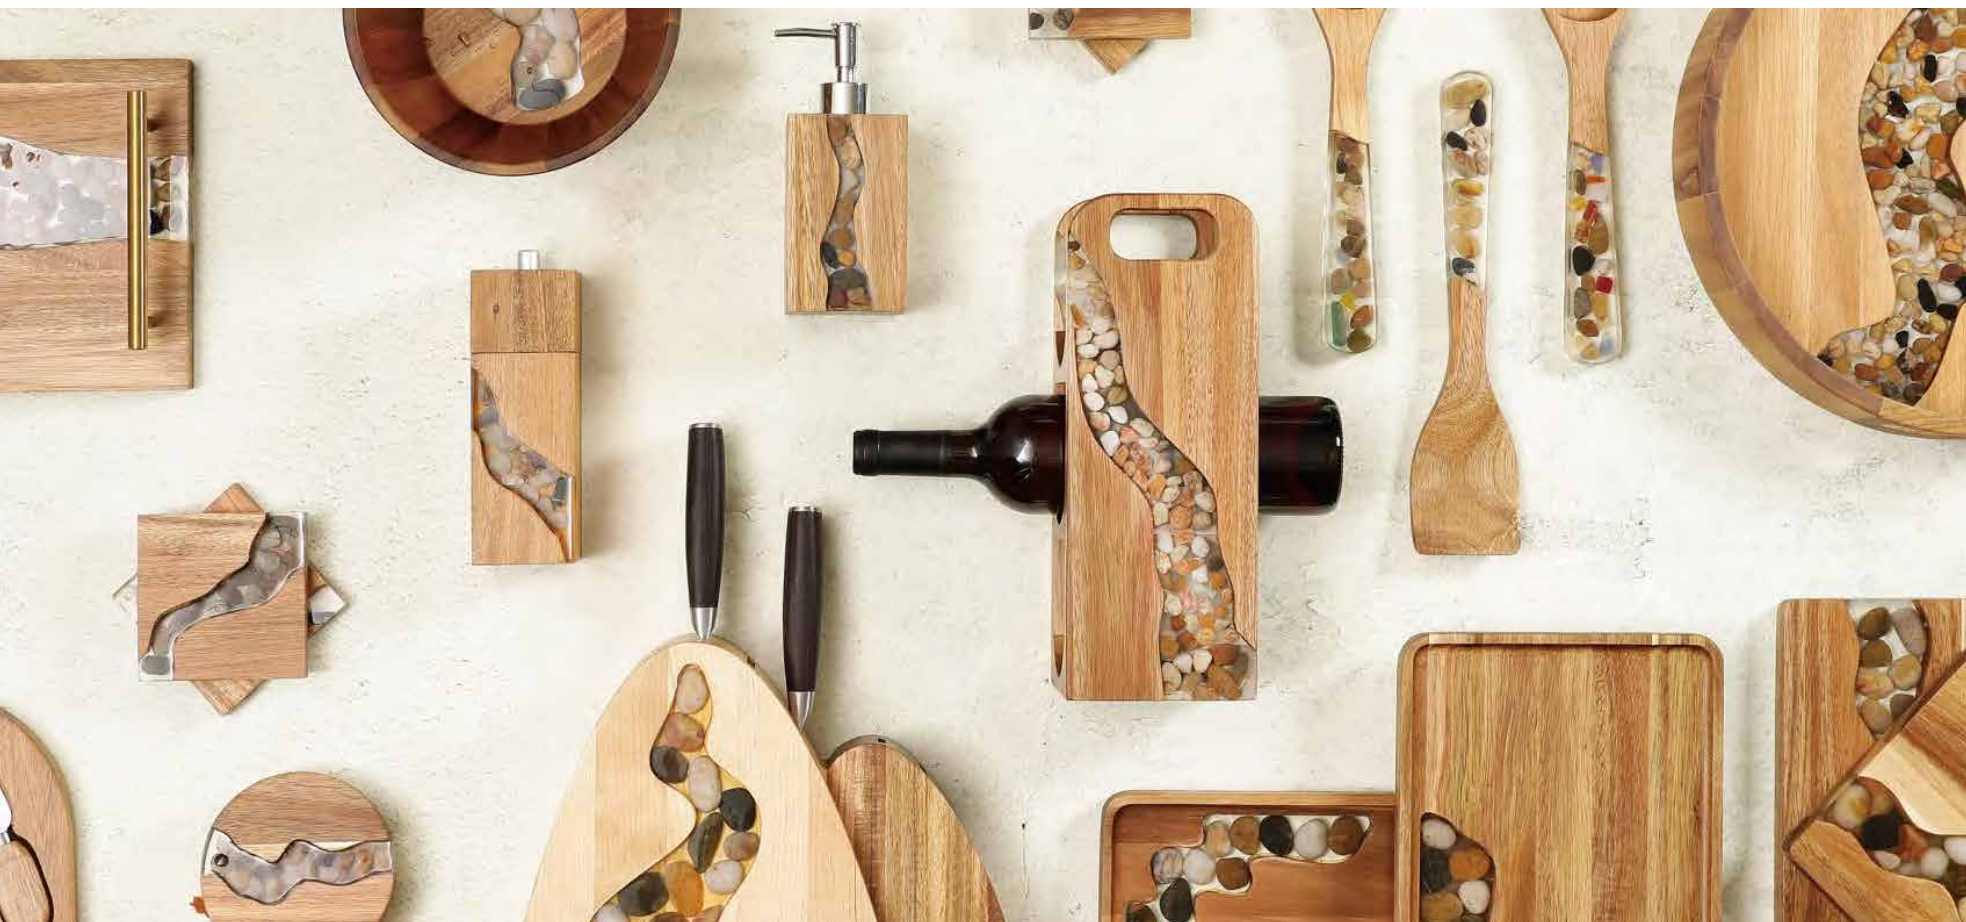

Using the idea of burning as the main style of the series and components in galvanized steel as ornaments. Acacia wood undergoes a combustion process to have the natural texture and look of burnt wood. It not only enriches the color, but also bring a vivid and retro look for the items. The bands in galvanized steel provide a beautiful look from their surfaces and with metal nails, both components bring a roughness and vintage atmosphere to items. The design idea demonstrates a rational, orderly, and smooth industrial aesthetics, which makes the items outstanding from regular kitchenware.

GOLDEN METAL SERIES

ACACIA WOOD

The wood color looks very warm, while the metal looks very cold. With the firmness and lightness of the metal art, it is mixed with the elegant wood decorations to form a complement between the cold and the heat. The style is strong but harmonious and conflicting. Adding golden metal elements to the wood material can improve the fashion sense of kitchenwares, and it is visually more agile than all wood, which touches people's eyes unconsciously, effectively enhances the layering and visual effects of the product, and highlights the extraordinary style.

NATURAL STONE RESIN SERIES

ACACIA WOOD+RESIN+STONE

Handcrafted with meticulously placed natural stones, creating a flowing stream-like appearance, this design offers an exquisite and natural visual appeal across various products. It evokes a wild, natural vision and imbues a sense of original ecology.

OCEAN RESIN SERIES

ACACIA WOOD+RESIN

Drawing from the ocean's essence, we've integrated elements reminiscent of this profound entity into our kitchen products. Using a deep blue resin and incorporating motifs inspired by marine life, our new kitchenware exudes a refreshing oceanic vibe. Its presence evokes the vivid sound of crashing waves, offering an immersive culinary experience.

OCEAN RESIN SERIES

ACACIA WOOD

Everyone has a beautiful yearning for the endless sea and the surging waves. We use resin material to simulate the white waves splashing in acacia wood instead of golden beaches. Bring the beauty of nature to our products. Let our love of the sea to continue on our natural wood product.

EMERALD GREEN RESIN SERIES

HARD MAPLE+RESIN/BIRCH WOOD+RESIN

The main purpose of product design is to bring luxury and exquisite quality to your table. Designer take birch wood and add emerald green resin, using natural wood's finishing and applied emerald green color to makes it looks truly special and unique. The resin blends seamlessly with the wood and their combination adds a touch of artistry and luxury quality.

MEDITERRANEAN STYLE SERIES

OLIVE WOOD+RESIN

Each piece of olive wood has various characteristics and the texture and color of each corner are different which is the charm of wood. Wood has always looked gorgeous for using. The touch of resin artwork, a natural oil finish and an applied strip of ocean-green to make it truly special and unique. Each kitchenware is strikingly unique. The combination of classic Mediterranean olive wood and modern resin river, its bold beauty fits easily into all decor styles. And it has captured a bit of the wonder of nature.

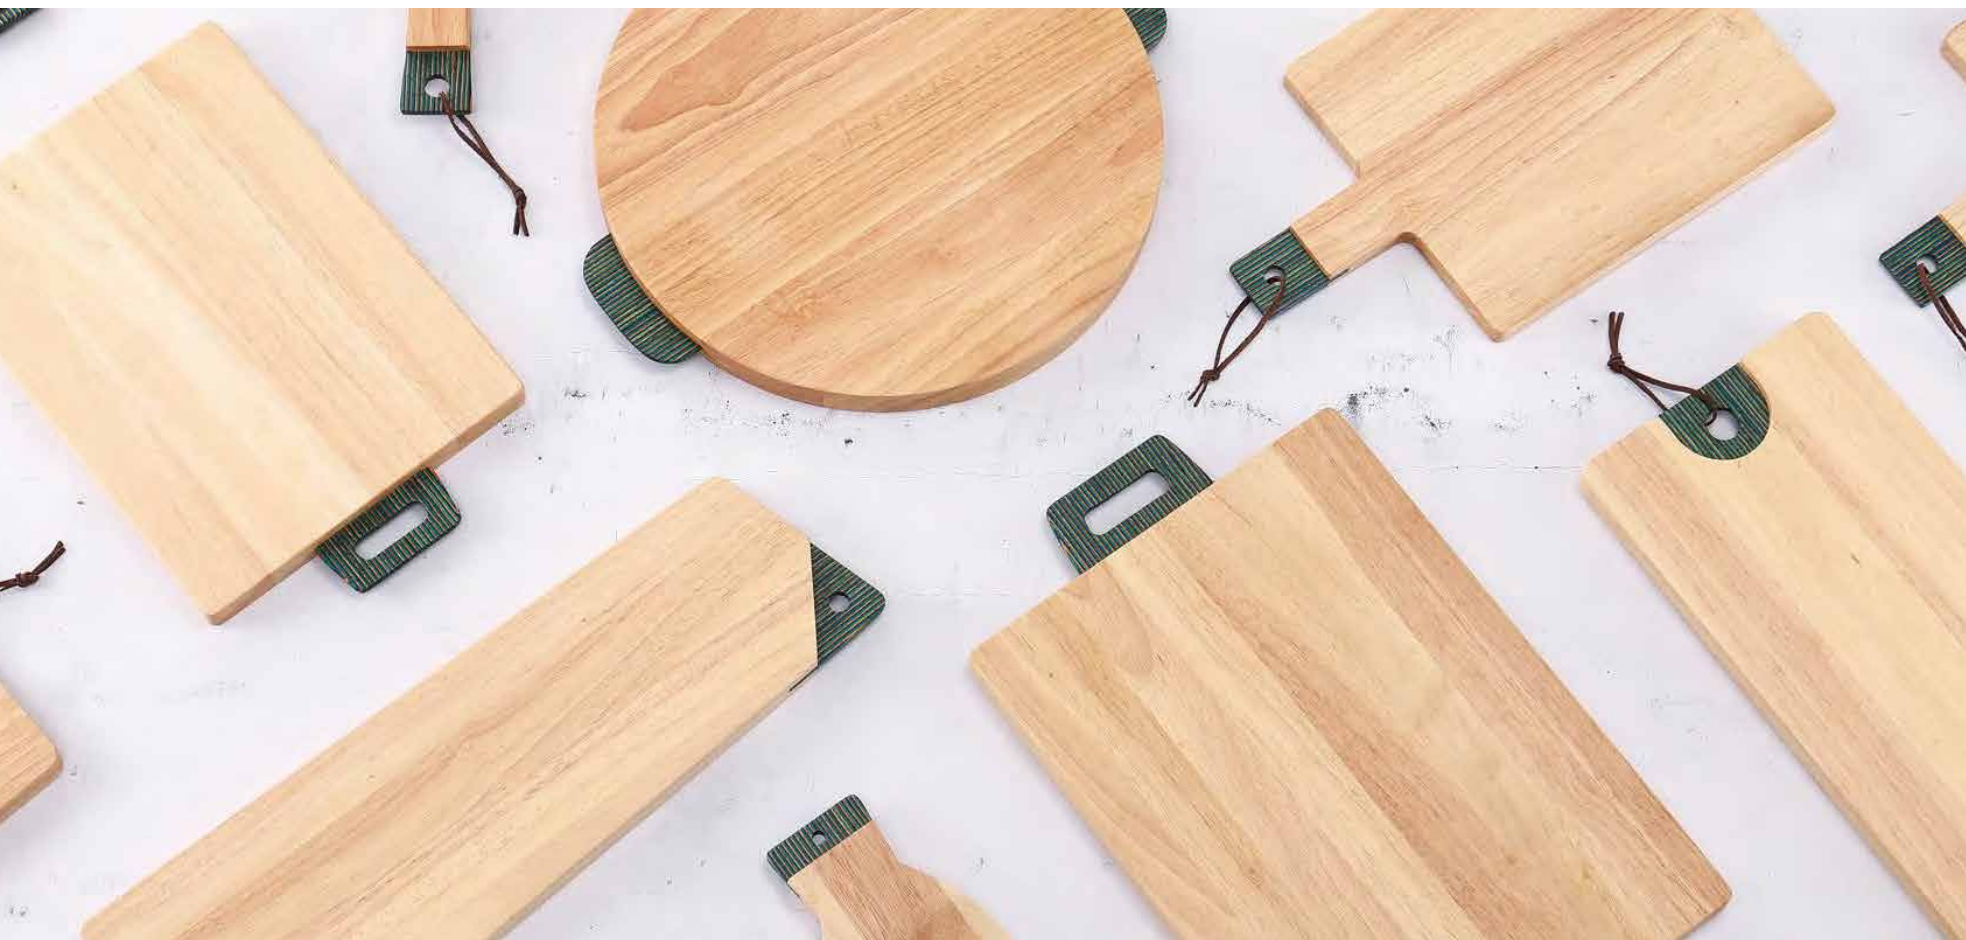

MOSAIC SERIES

ACACIA WOOD

The theme of this series is mosaic. Mosaic is colorful in color contrast to make the whole design unique and fresh. Designers use it as the main decoration, and it can be variety of colors combinations. It vividly expresses the designer's design inspiration, fully display its unique artistic charm.

This series of products is our meticulously designed Morandi color collection. Each item features vibrant Morandi hues, complemented by a modern and minimalist design style, bringing a style of fresh air to your living space.

PEACOCK FUSION SERIES

RUBBER WOOD/ACACIA WOOD

This collection features wooden products enhanced with pakkawood inlays, capturing the vividness which like a peacock's plumage. The designs emphasize geometric shape designs, showcasing the pakkawood inlays. Each piece perfectly combines the elegance of geometry with a riot of colors, inviting users into a fantastical world of color and form.

BLOSSOMING PAKKA WOOD SERIES

**PAKKAWOOD/
ACACIA WOOD/RUBBER WOOD**

Inspiration from the natural beauty around us, our kitchenware line artfully fuses the vivid hues of colored wood with the authentic textures of natural wood. This approach results in a collection that is not only visually appealing but also practical for everyday use. Our design idea is centered on simplicity and modern fashion, marrying the innate allure of wood with contemporary design elements to create a kitchen aesthetic that exudes understated elegance. The Blossoming Pakka Wood series caters to a variety of culinary requirements, offering consumers an array of kitchenware choices. This diversity enriches the cooking experience, making it more enjoyable and fulfilling.

SLOTTED PAKKA WOOD SERIES

BAMBOO+PAKKAWOOD/
RUBBER WOOD+PAKKAWOOD

This design scheme predominantly embraces fresh, elegant colors, with the primary hue being the natural wood tone. This creates a striking contrast between the rich depths of the wood and the vibrant hues of the exposed slotted Pakka wood style. Not only does it cater to the preferences of all family members, regardless of age, but it also maintains a distinguished and sophisticated appeal.

EXOTIC COMBINATION SERIES

PAKKAWOOD + ACACIA WOOD
PAKKAWOOD + BIRCH

With the unique dyeing technique, pakkawood brings a surprised look with its gorgeous colors. And acacia wood shows a regular mild wood color. This series has taken a bold idea to combine these two different material into one stylish design. And here comes the beautiful kitchenware with two opposite elements. Pakkawood also brings a benefits, such as no splitting, chipping, warping and often maintenance issues. In other words, jointing pakkawood pieces is helping acacia wood to be resilient and long-lasting products.

EXOTIC PAKKAWOOD SERIES

RAINBOW CAMOUFLAGE PAKKAWOOD/
LANDSCAPE GRAY PAKKAWOOD/
BLACK AND WHITE PAKKAWOOD

What home should be? Beautiful & Colorful!

This series is designed to give people a very strong color shock, with three different color combinations, including rainbow and camouflage appearance, and landscape gray, black and white. Beautify the kitchen with exotic pakkawood. Replace your boring solid-colored appliances with colorful, exotic pakkawood. Add elegance and style with a variety of colors that match your decor and bring uniqueness to your space. Spice up your space and bring new life to your kitchen. With stylish shapes, rich tones, and environmentally friendly wood materials, make our home a safer and healthier environment.

EUROPEAN WALLPAPER SERIES

ACACIA WOOD/OLIVE WOOD

The appearance of the whole series of products is European style. The biggest feature is that on the basis of using noble and elegant olive wood, European traditional patterns are added, which is classical and beautiful, and improves the grade of the product. This classic combination, olive wood is bright in color, clear and beautiful in texture, with brocade patterns and paisley patterns, the overall color of kitchenware is lively, exuding a fascinating sense of elegance.

CLASSIC BLUE BLOSSOMS SERIES

BAMBOO/ACACIA WOOD

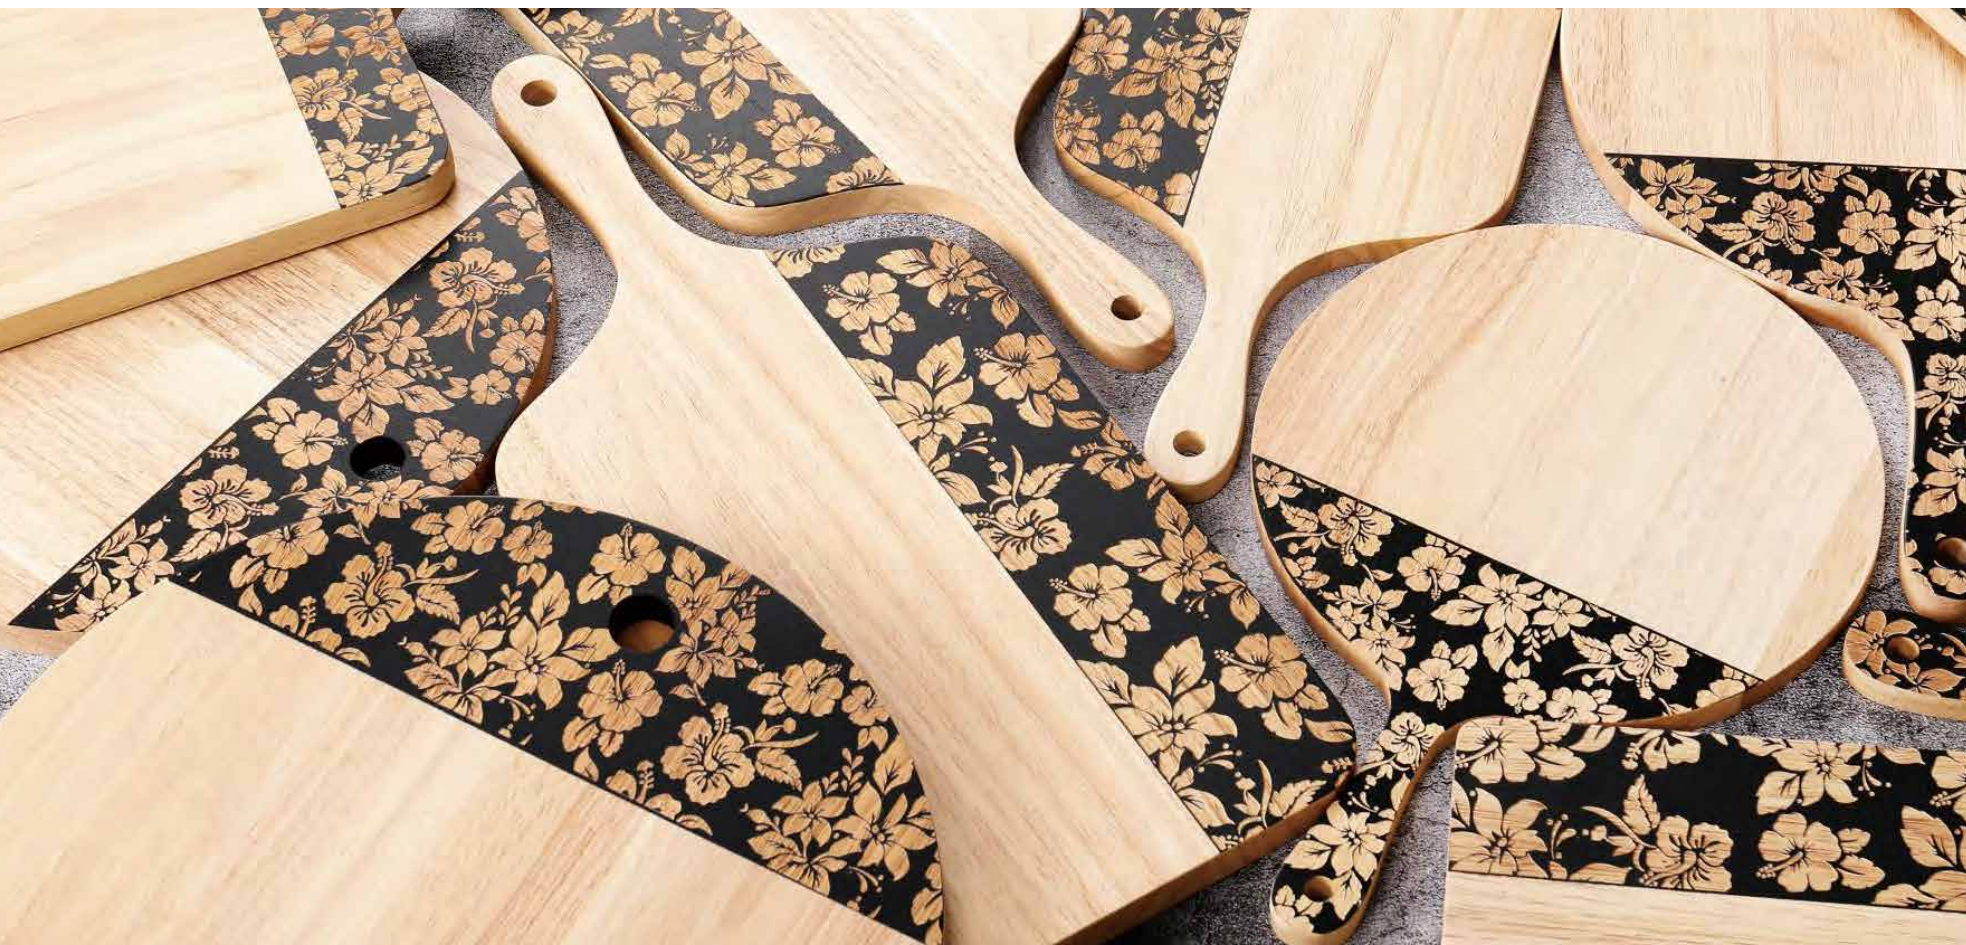

The appearance of the whole series of products adopts the classic blue flower pattern. The classic blue flower symbolizes permanence and self-confidence, bravery and blooming. The classic blue flower pattern is combined with bamboo material. In this combination, the natural bamboo color is its auxiliary color. The large area of blue pattern is vivid and lively, exuding a fascinating sense of elegance.

VINTAGE FLORAL SERIES

ASH WOOD/ACACIA WOOD

The biggest highlight of the vintage floral series is the decoration of classical floral patterns. The patterns are intersected by different green leaves. The diagonally echoing floral ornaments are not luxurious, but more retro and subtle; the combination of antique wood effect, black calm metal and European antique floral ornaments makes the whole series more like an elegant and antique oil painting.

BLOOMING SERIES

ACACIA WOOD/RUBBER WOOD

Enjoy the flower & beauty at home!

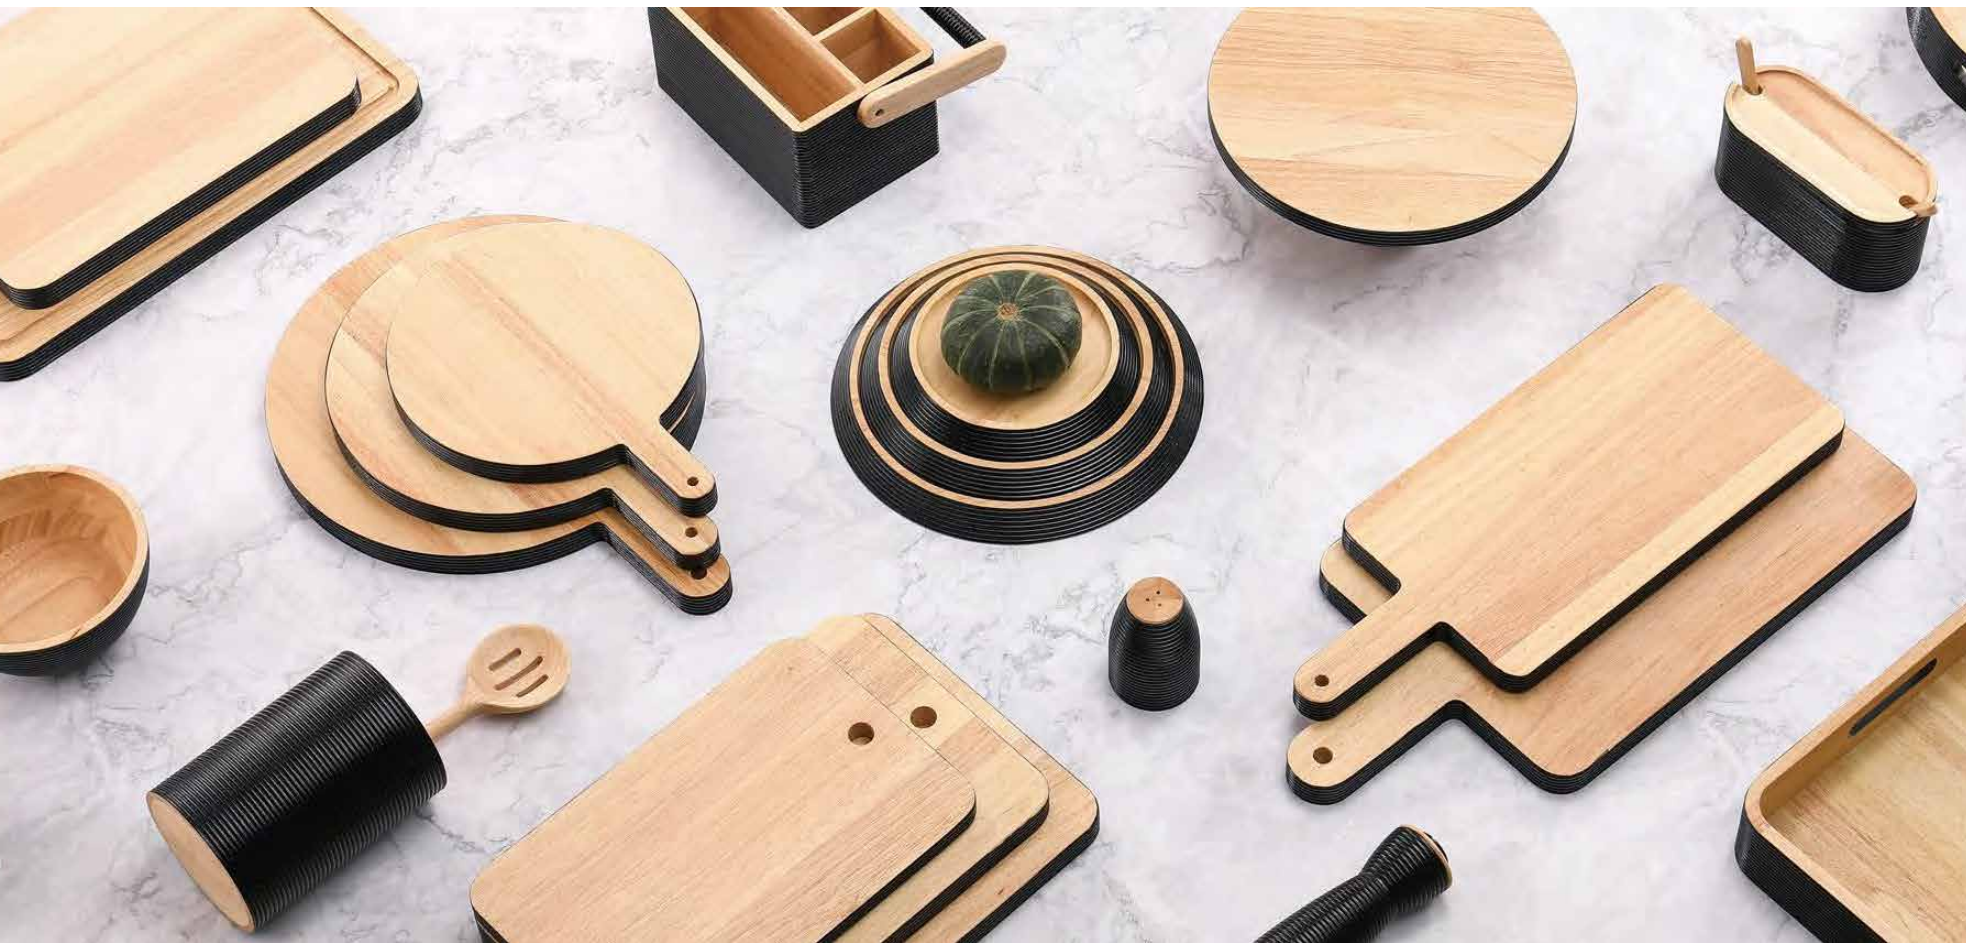

This series be carefully designed flowers and wood complement each other. When designing this series, we focus on showing the beauty of the product's shape, material, color, pattern, and craftsmanship. Combined with the technology of laser engraving, it finally presents a classical charm.

PATTERN SERIES

ACACIA WOOD + MARBLE / RUBBER WOOD + MARBLE

In this series, we explore collisions between materials. Natural marble is very hard, has a natural absolute stability with natural wood, showing a quiet and warm grain, with a very soft gorgeous pattern. After collision and fusion they are both tough and gentle, original and luxurious and refined.

BLACK GLOSSY GROOVE SERIES

RUBBER WOOD

This series offers a lineup of trendy items, each featuring sleek grooves and coated in glossy black paint. These pieces are all about unique style, merging contemporary flair with a polished finish to bring a chic vibe to your space. They're not just functional; they're fashion statements for your home, enhancing your décor with a touch of personal elegance and taste.

ELEGANT GROOVE SERIES

ACACIA WOOD/RUBBER WOOD

This collection features elegantly grooved high-quality wood, elegantly finished in either stark white or deep black spray paint. Each item brings a unique blend of texture and hue, infusing living spaces with a modern, artistic vibe. By celebrating the natural allure of wood in harmony with contemporary design, this series elevates home decor, offering a visually captivating and sophisticated touch to the environment.

PEACOCK FUSION SERIES

RUBBER WOOD/ASH WOOD

This collection features wooden products enhanced with pakkawood inlays, capturing the vividness which like a peacock's plumage. The designs emphasize geometric shape designs, showcasing the pakkawood inlays. Each piece perfectly combines the elegance of geometry with a riot of colors, inviting users into a fantastical world of color and form.

COLORED EDGE SERIES

ACACIA WOOD

Adding three bright and bold colors to the edges of the wood for having a visual surprise from its original monotonous tone. The introduction of these colors makes the product more interesting and brings a splash of vibrancy to life.

ACACIA WOOD

Acacia wood is always one of the most popular wood with a mild, warm tone color. We are taking a bold idea to do gorgeous colors in gloss paint spraying on acacia wood, which makes the wooden items more fun and fashionable. At the same time, the gloss painting surfaces helping the items to be easy to clean. With these colorful kitchenware, the kitchen will be vigorous and with full of vitality.

TRANSLUCENT WHITE SERIES

ACACIA WOOD

The translucent white color not only unveils the wood's intricate grain but also exudes a sense of purity. It uniquely combines a fully closed, flat presentation with an intriguing three-dimensional effect.

ANTIQUED JOINERY SERIES

RUBBER WOOD

Crafted with meticulous precision with joinery technique and using high-strength wood that resists deformation and environmentally friendly materials. The antique color tones evoke a tranquil, vintage, and elegant ambiance with the elegant and warm painting.

NEW BLACK STRIPE SERIES

ACACIA WOOD

Use soft wood tones with classic black stripes to embellish dull kitchenware to add a touch of life to the product. The initial industrial style texture is set against by black colors and decorated with fashionable kitchenware, forming a sharp texture contrast and giving the kitchen a poetic and aesthetic temperament.

BLACK STRIPED SERIES

ACACIA WOOD

Black and natural color is a classic that stripes can never go against. The designer uses black stripes and natural wood color to give different impact to the senses. The seemingly simple black stripes and natural wood color have been redesigned, and the attention to detail is used to make the whole series of kitchenwares full of retro exotic style and personality, full of cool flavor and full of charm.

MEMO SERIES

ACACIA WOOD

Simple kitchen utensils with a Chalkboard paint memo wall, seemingly casual, but it records the four seasons, festivals and moods, and the beauty of life is also produced inadvertently. The decorative effect will not be too ostentatious, but also has a warm and small literary atmosphere. In normal times, you can write and draw on it in the way you like, and sometimes you can write down the words in the way of conveying messages. Make life and home more interesting.

BLACK LASER SERIES

ACACIA WOOD/ASH WOOD

Black color collection to show the texture and charm of natural wood grain. The more heavier wood grain it has, the more beautiful it looks after black painted, such as ash wood. Black color has an unfathomable mysterious allure and is also an eternal classic color that will never fall behind. The trending color always. By using food safe classic black color painting and playful laser patterns to create different artistic kitchenware.

MODERN PARTNER SERIES

ACACIA WOOD

This series presents a selection of cutting board and knife block sets with a contemporary design ethos. Crafted with an eye for simplicity and elegance, each set strikes a perfect balance between practical use and aesthetic appeal. These sets not only fulfill everyday kitchen needs but also elevate the style and taste of your kitchen environment.

MOTHER'S DAY SERIES

RUBBER WOOD/OAK

Expressing love for the mother is the only theme. The simple shape expresses love in the most directly way, with a feminine pattern frame, and with the mother's handwritten font, the love is turned into the expression of love.

FATHER'S DAY SERIES

RUBBER WOOD

Expressing love for the father is the theme of this series. Father's love is as board and deep as the sea. With simple, steady design and laser pattern with thick lines, it becomes an expression of love for father. Father is our hero and superman. We wrote the praises to father on the kitchenware to make him feel the joy of the festival. As a sincere and thoughtful gift to convey your love to father.

CHRISTMAS SERIES

ASH WOOD/RUBBER WOOD

We newly debuted a Christmas kitchen set each of which is embarked with a Christmas tree. The Christmas set is tailored by thousands of attempts of artisans to create a perfect style and the material is rubber wood which is of high quality. So you could enjoy the happy Christmas moment any where in your home.

HALLOWEEN SERIES

RUBBER WOOD

HALLOWEEN MISCHIEF SEIRES

To celebrate the advent of Halloween, our new Mischief series, combined with a variety of cute ghost, uses high-quality wood as materials to produce a variety of kitchenware with a happy vibe to accompany everyone to spend a happy Halloween.

HALLOWEEN SPOOKY SEIRES

The Spooky series is mainly cheerful and lively, with various classic Halloween elements taking turns: ghosts, monsters, pumpkins, vampires, bats, etc. With black spray paint and wood grain, the scarier vibe is fully integrated into the details of the series.

ANIMAL AND PLANT PLATE SERIES

ACACIA WOOD

This series of wooden plate works is based on the theme of cute animals and blooming flowers and plants. Through carving by wood, the scenes of animals playing in nature are staged, full of childlike innocence. On these wooden small plates, the designer always makes ordinary kitchenwares full of emotion and soul under the embellishment of hand-painted patterns, as if carrying a warm story.

ORNAMENTS SERIES

MULTIPLE WOOD

In this series of animal ornaments, designer use a variety of woods to show one after another very vivid and lifelike animals. The craftsmanship of handicrafts is very delicate and the images of small animals are very cute. Soft and cute animal ornaments are used as home artworks which can be used for viewing, playing, or as collectibles.

VINTAGE SERIES

ACACIA WOOD+SLATE

Designed to be a beautiful kitchen appliance in natural wood and smooth slate, they bring a touch of vintage elegance to your dining table and become a focal point under the light. A collision of natural wood and slate, it reflects superior taste and brings elegance to any kitchen. A classic design, showing retro aristocratic style.

TEAK WOOD+METAL+
GREEK WHITE MARBLE

Greek white marble and teak wood are both high class material for having a sense of luxury. The natural grains of marble and wood matched together harmoniously. It brings the freehand beauty of modern minimalism, simple but elegant. The warm tone from Teak wood and cool white color from Greek white marble, the two opposite colors gives the items a atmosphere of refreshing and fusion. Customized laser etched words could be great ideas to express best wishes and feeling.

LIGHT COFFEE SERIES

LIGHT COFFEE MARBLE+
CARBONIZED ASH

The designer chose light coffee marble with intricate textures and partially spliced wood to make the kitchenware look more stylish and versatile. The intricate interplay of light coffee, dark brown, and silky light white alternately presents a distinctive mesh effect with a strong texture. The combination of composure and elegance seems natural, like a cup of coffee, mellow and luxury silk.

RED ROSE SERIES

RED ROSE MARBLE+ASH WOOD

The imported red rose marble is like an exotic beauty, which brings a sense of nature and elegant at the same time. With the combination with partially spliced ash wood, which looks more fashionable and versatile. The whole series reveals a low-key and luxury beauty in a modern and simple style.

The design concept of this series is a combination of acacia wood, china white marble and brass. Acacia wood is warm and delicate, relatively, marble is cool and tough. The combination brings collision and fusion at the same time with these two completely different material. Also with the luxury look of brass components, the design brings higher class than normal combination of wood/marble. One of them is retro and exquisite, while the other is noble and cold. The collision of three material not only renders an irresistible artistic tension, but also derives a full and elegant flavor. These items are presenting the modern sense and outstanding style of your kitchen.

ELEGANT BLACK SERIES

CHINA BLACK MARBLE

China black marble is a material with main black marble stone and light white grain. The black marble stone is with a style of quiet, elegant and low profile, like an elegant gentleman. And the white grain is exquisite and agile, like an refined lady. The collision of black and white gives a sense of harmony. And with metallic gold colors, it brings also a sense of luxury. In the entire design, the designer chose the simple black, white and gold colors make kitchen utensils being with a slow living attitude that is casual, calm, and free.

ACACIA WOOD+CHINA GRAY MARBLE/
ASH WOOD+CHINA GRAY MARBLE

Grainy grey marble brings a lively and vivid style to kitchenware, especially when it becomes a combination with Acacia/Ash wood. Both the warmed tone of wood and richness of marble grain provide a feeling of comfort, relax and free. With delicate texture and grain, this design embellishing the kitchen with dynamic vitality. Acacia/ash wood is warm and delicate, relatively, marble is cool and tough. This series brings collision and fusion at the same time with these two completely different material.
