A factory that designs, produces, and customizes
small home appliances

GuangDong WoodSun Housewares Co.,Ltd. was established in 2005 and specializes in vacuum stainless steel thermoses and tumblers, wooden and marble household products, silicon and plastic items, and small appliances. We operate seven factories covering over 300,000 square meters and employ more than 3,000 workers. Our main customers include renowned brands such as Starbucks, Lululemon, Philips, Xiaomi, Walmart, Costco, and Target etc.

Our daily production capacity includes 200,000 vacuum flasks and plastic cups, 100,000 wooden household items, 100,000 plastic and silicone products, and 20,000 small household appliances.

Innovation is at the heart of our business philosophy. Our design and R&D team comprises over 300 professionals who develop thousands of new products each year, bringing delightful product experiences to customers worldwide.

To promote sustainability and eco-friendliness, we have installed dust collection systems, robotic machinery, and a sewage treatment system. Our compliance with SA8000, ISO9001, ISO14001, RCS, GRS, FSC, EUTR, UL, and BSCI certification standards is a testament to our commitment to quality, social responsibility, and environmental protection. We actively cooperate with all factory audits and inspections. We at WoodSun are excited to partner with you.

WOODSUN | ELECTRIC THERMAL FLASK SERIES

MODEL: KE009-224SB
CAPACITY: 12oz(350ml)
SIZE: 78*78*200mm
RATED POWER: 350W
MATERIAL: 304 S/S

MODEL: KE009-224SA
CAPACITY: 19oz(550ml)
SIZE: 78*78*250mm
RATED POWER: 350W
MATERIAL: 304 S/S

MODEL: KE010-224S
CAPACITY: 34oz(1000ml)
SIZE: 110*78*293mm
RATED POWER: 800W
MATERIAL: 304 S/S

Discover the ultimate drinking need with perfect temperatures: 45°C, 65°C, 85°C, and 100°C!

This electric thermal flask serves as both an electric kettle and a thermos, quickly boiling water while keeping it warm for hours.

Available in compact 350ml and 550ml styles with hidden silicone handles and a generous 1000ml capacity version featuring a metal handle for effortless pouring and convenience.

Experience intelligent program control that ensures safety with dry-burn prevention and automatic shut-off when water runs low.

WOODSUN | ELECTRIC THERMAL FLASK

MODEL: HI294-324S
CAPACITY: 11oz(320ml)
SIZE: 72*72*230mm
RATED POWER: 300W
MATERIAL: 304 S/S

Experience ultimate flexibility with 4 temperature settings, adjustable from 45°C to 100°C, perfect for brewing all your favorite beverages or customizing warm water to your preference.

One cup, two functions! It's not just a compact kettle, but also your personal thermos for safe, hot water anytime, anywhere—even when you travel.

Equipped with a built-in temperature sensor, enjoy precise temperature control and a real-time digital display. With smart programming, it automatically shuts off after boiling.

Featuring double-layer vacuum insulation to prevent scalding, it keeps water hot for up to 6 hours. The lid can be closed to boil water. The lid doubles as a drinking cup, offering convenience at your fingertips. Experience intelligent program control that ensures safety with dry-burn prevention and automatic shut-off when water runs low.

WOODSUN | PORTABLE ELECTRIC KETTLE

MODEL: HI320-A04S
CAPACITY: 30oz(900ml)
SIZE: 125*125*308mm
RATED POWER: 600W
MATERIAL: 304 S/S

With just one touch, easily control 4 temperature settings—45°C, 65°C, 85°C, and 100°C—to perfectly match your drinking needs. A bottle 2-in-1 design, serving as both an electric kettle and thermos, with a lid that doubles as a drinking cup for added convenience. The hidden power cord design keeps it compact and organized, with bottom storage to prevent loss, and a pull-out handle for effortless use. Experience intelligent program control that ensures safety with dry-burn prevention and automatic shut-off when water runs low.

WOODSUN | PORTABLE LIGHT ELECTRIC CUP

MODEL: HI315-304S
CAPACITY: 10oz(300ml)
SIZE: 72*72*214mm
RATED POWER: 300W
MATERIAL: 304 S/S

Control your drink with one touch! The 4-stage temperature adjustment heats from 45°C to 100°C, perfect for brewing a wide range of beverages or customizing your warm water.

With a built-in temperature sensor, enjoy precise control and real-time digital display. The waterproof, breathable membrane ensures safe boiling even with the lid closed.

Featuring double-layer vacuum insulation for anti-scalding protection and 6-hour heat retention, plus smart program control for automatic shut-off after boiling.

WOODSUN | ELECTRIC HEATED COFFEE MUG

MODEL: HI319-303S
CAPACITY: 10oz(300ml)
SIZE: 86*86*185mm
RATED POWER: 300W
MATERIAL: 304 S/S

Meet all your drink-making needs with 4 temperature settings—45°C, 65°C, 85°C, and 100°C.

Boil hot water in just 7 minutes!

Designed with a waterproof, breathable membrane, it ensures safe boiling even with the lid closed, and features intelligent program control with automatic shut-off.

The double-layer vacuum insulation offers anti-scalding protection and keeps your water hot for up to 6 hours.

Enjoy automatic shut-off to prevent dry burning, ensuring your peace of mind every time.

WOODSUN | CONSTANT TEMPERATURE OFFICE CUP

MODEL: KE012-364S
CAPACITY: 14oz(410ml)
SIZE: 102*135*126mm
RATED POWER: 50W
BATTERY: 5200mAh
MATERIAL: 304 S/S

Featuring four adjustable temperature settings—35°C, 45°C, 55°C and 65°C.

Featuring a robust 5200mAh built-in battery, enjoy 10 hours of reliable power and constant temperature for your beverages.

The easy-open lid and wide mouth design make cleaning a breeze, while the double-layer vacuum cup ensures anti-scalding protection and long-lasting heat preservation.

Enjoy effortless charging with our wireless base—charge anytime with simple, user-friendly operation.

Plus, with an IPX5 waterproof design, rinsing the cup body is a snap!

WOODSUN | CONSTANT TEMPERATURE COFFEE CUP

MODEL: KE011-364S
CAPACITY: 12oz(350ml)
SIZE: 86*95*180mm
RATED POWER: 50W
BATTERY: 6000mAh
MATERIAL: 304 S/S

Featuring four adjustable temperature settings—35°C, 45°C, 55°C and 65°C.

Featuring a robust 6000mAh built-in battery, enjoy 8 hours of reliable power and constant temperature for your beverages.

The easy-open lid and wide mouth design make cleaning a breeze, while the double-layer vacuum cup ensures anti-scalding protection and long-lasting heat preservation.

Enjoy effortless charging with our wireless base—charge anytime with simple, user-friendly operation.

Plus, with an IPX5 waterproof design, rinsing the cup body is a snap!

WOODSUN | PORTABLE MILK WARMER

MODEL: KE013-364S
CAPACITY: 13oz(380ml)
SIZE: 86*86*209mm
RATED POWER: 100W
BATTERY: 12400mAh
MATERIAL: 316/304 S/S

Enjoy infinite gear adjustment from 37°C to 55°C for precise 1°C control.

With a powerful 12400mAh battery, make milk on-the-go with long-lasting performance.

Boasting 100W power, heat 380ml of water from 37°C to 55°C in just 7 minutes!

Experience lightning-fast Type-C charging—fully powered in just 50 minutes.

Our double-layer vacuum design ensures safety with anti-scalding and automatic shut-off features.

The IPX5 waterproof design lets you rinse it with ease. Elevate your milk-making experience today!

WOODSUN | PORTABLE MILK WARMER

MODEL: KE005-364SB
CAPACITY: 12oz(360ml)
SIZE: 78*78*233mm
RATED POWER: 80W
BATTERY: 12000mAh
MATERIAL: 304 S/S

MODEL: KE005-364SA
CAPACITY: 18.5oz(550ml)
SIZE: 86*86*266mm
RATED POWER: 80W
BATTERY: 16000mAh
MATERIAL: 304 S/S

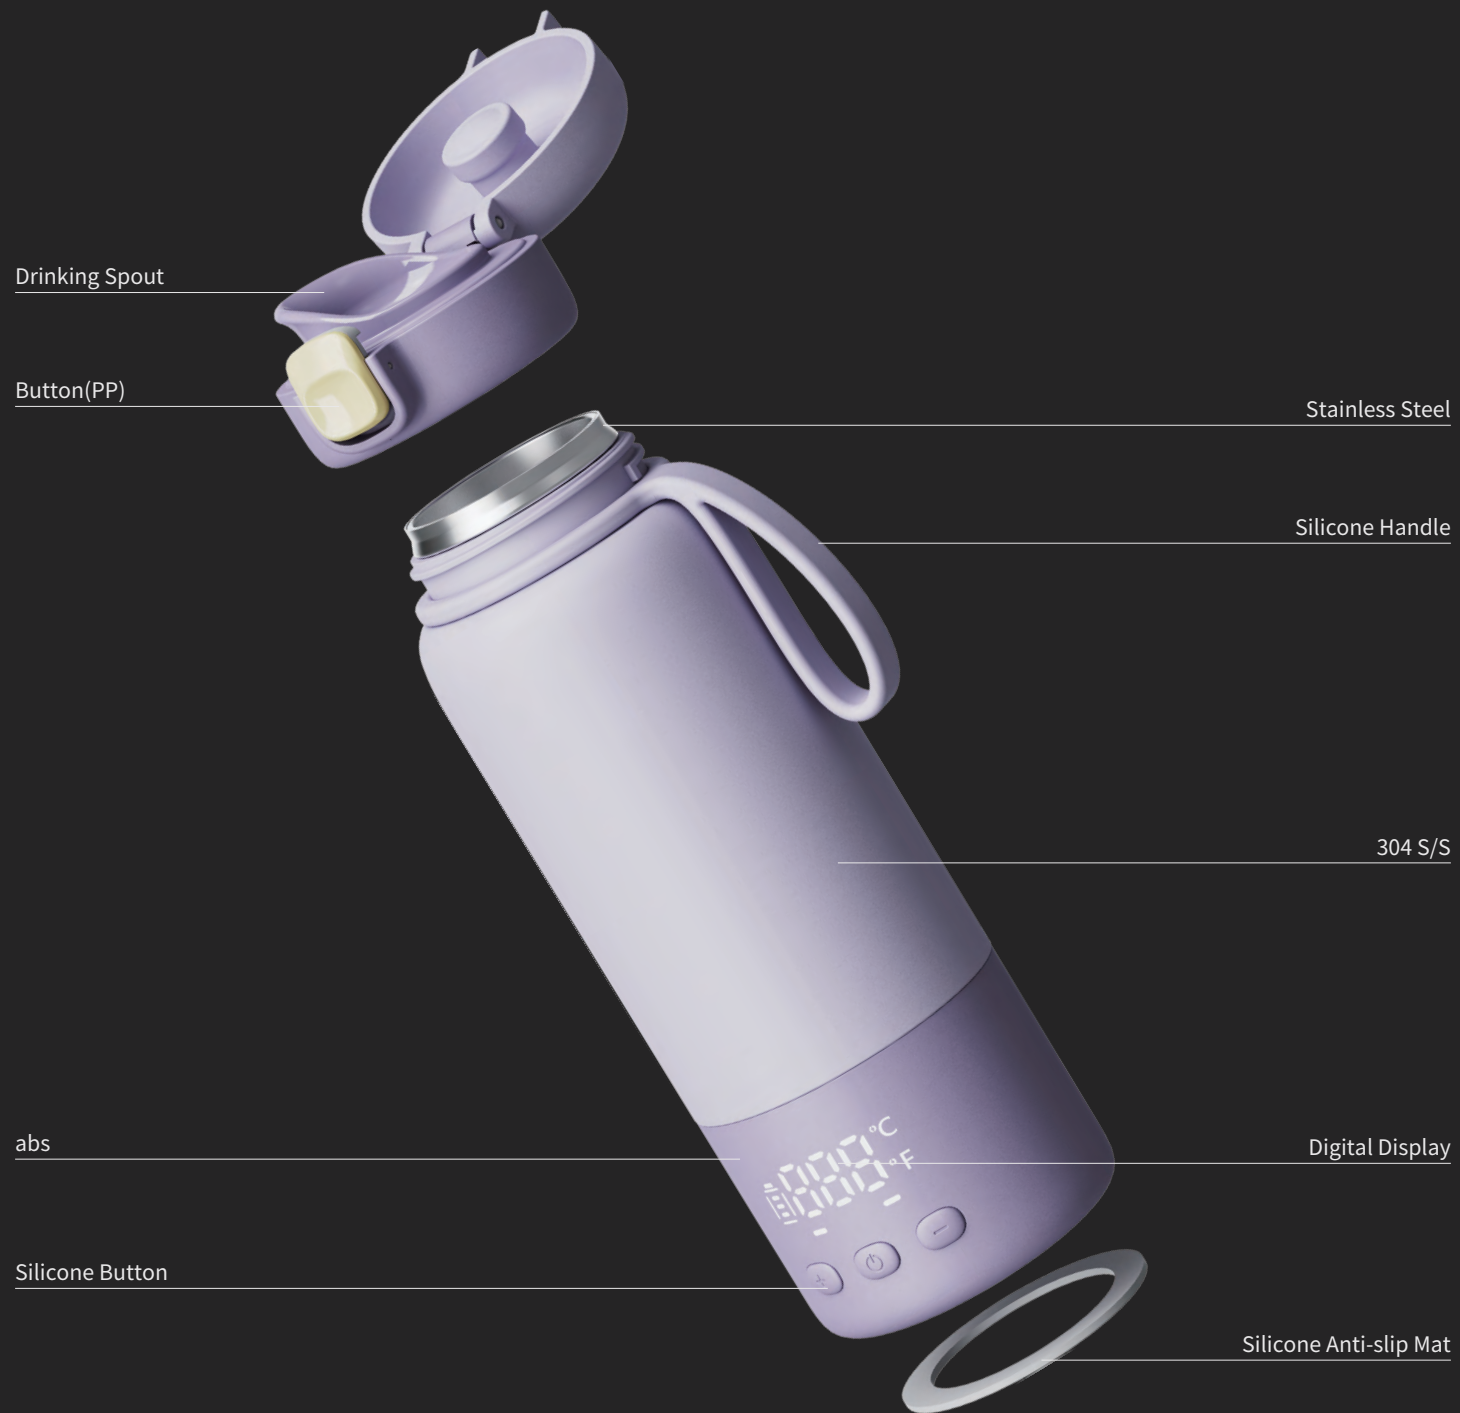

Choose from 5-speed temperature adjustments (35°C, 40°C, 45°C, 50°C, 55°C) for your perfect beverage.

Enjoy the convenience of TYPE-C fast charging, compatible with various chargers.

With features like safe anti-dry burning protection, automatic shut-off, double-layer vacuum insulation, and long-term heat preservation.

Plus, the IPX5 waterproof design makes rinsing a breeze.

WOODSUN | SMART WATER BOTTLE

Device
Connect via Bluetooth

MODEL: SWB01
CAPACITY: 24oz(710ml)
SIZE: 105*76*295mm

MODEL: SWB02
CAPACITY: 32oz(946ml)
SIZE: 110*83*310mm

This is a smart sports water bottle that can intelligently measure the user's water intake needs, monitor their water consumption, and remind them to hydrate regularly. It will set reasonable water intake goals based on the user's gender, age, height, weight, as well as their environment, climate, and daily exercise levels. The bottle will remind the user to drink water in a timely manner, based on their actual water consumption. The app will send reminders to the user's phone, displaying a notification and causing the bottle to vibrate and flash. The bottle has multiple sensors that can measure the temperature of the liquid and track the user's water consumption over time. The data is displayed on the cup's screen and sent back to the app via Bluetooth. The app will generate a series of water consumption records for users to review. This exclusive custom app will be available on the Android and Apple app stores (in North America, the EU, and Australia), and can be integrated with other popular apps (such as Apple Watch, FitbitGarmin, Apple Health, GoogleFit, Withings Health Mate, and Under ArmourMap My Fitness) to track progress towards water intake goals. Users can form a group with different cups by using mobile phone numbers, OR codes, or email addresses. Members within the same group can view each other's drinking water status and give each other likes or reminders to drink water. If a member likes or reminds themselves or another member to drink water, the cup display will show a corresponding pattern and the lights will flash. Users can customize the color of the light, reminder cycle and intensity, and OLED screen that can be flipped, as well as receive reminders for expired water, water temperature, and low battery.

This app can be downloaded from the iOS and Android app stores
