COMPANY INSTRUCTION

It has been 15 years since Hangzhou OUGE Electrical Appliance CO. LTD was developed by a group which specialized in designing, producing and selling electrical appliance team which was formed in 2000. The reason of our success is to implement our aim of "Openness basing on sincerity, mutually-beneficial cooperation and mutual development" with customers. Meanwhile, we are devoted to making our quality policy "People- oriented, innovation and development, the quality of survival and customer comes the first" more perfection.

Today, our new factory located in Qingshanhu hi-tech industrial zone. It is a provincial economic development area in Zhejiang Province near Hangzhou and Linan, which has a convenient transportation and nice environment.

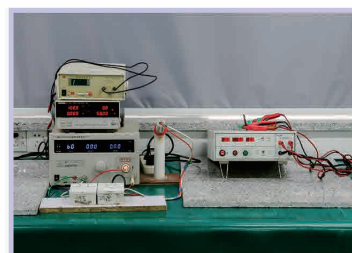

In this new place, our factory's floor space is reached by 20000 square meters, as well as workshop area is almost 25000 square meters which has five major departments as Die-casting, Painting, Hardware, Injection and Assembly. Total investment was over one hundred million in order to meet our target 5 hundred million output value in the future. Die-casting Dept. has eight die-casting machines from 280T to 800T with robotic hand, automatic feeding and conveyor line, besides Painting Dept. also has an automation spraying line. There are tens of advanced pneumatic punching machine, hydraulic press and heavy machines in Hardware. Injection Dept. also has more than ten plastic injection machines. In addition, Assembly Dept. has almost ten lines for production and thermostat.

OUGE has a specialized management team, and people who in the medium to high level position have more than twenty years of experience in technology and management. Therefore, our team has the ability to challenge higher level of demand. We had achieved various certifications including GS, JET, UL, ETL, and CCC for our productions which were sold in tens of countries and regions all over the world, as a consequence, we gained our reputation from costumers in Japan, Southeast Asia, U.S., Europe, Australia, South America.

With the mind of practicability, diligent, and dare, our team push our creation and designation in commodity in order to provide much better and satisfied service for world's companies.
