Cooperative Partners

Opal Glass

Safe

- No migration of support materials to food
- Cadmium lead free, heavy metal free
- 0% porosity, no bacteria

Functional

- Produced by electric furnace, 0 emission
- Easy to clean, less detergent used
- 23% solar power supply
- 100% recyclable

Economic

- Treble stronger than porcelain, less breakage
- Function 30-50% of replacement
- Incredible long service life
- Less cost

Eco-friendly

- Microwave safe, dishwasher safe, fridge safe
- High performance of impact and breakage
- Light weight, stackable and space-saving
- High performance of thermal shock

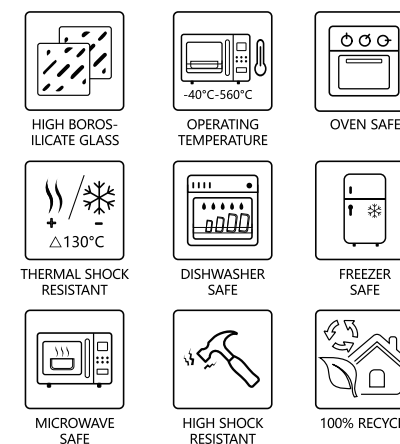

Borosilicate Glass

SHULOPAL borosilicate glassware labeled with 'oven safe' is a durable and reliable option for cooking and baking, provide a safe and convenient way to prepare your favourite dishes in oven.

SHULOPAL high borosilicate glass products can handle immediate temperature changes up to 110°C, without cracking or break in from cook to chill.

Suitable for use in microwave ovens, no migration of support materials to food at all. Very good performance in both long-term and short-term from the professional lab.

Excellent resistance of the surface and decoration after 2000 professional washes. 100% high quality borosilicate glass, 0% porosity, 0% Bacteria.

Glass Cooking Pots

BORAX
GLASS

Made of high borosilicate glass material that can withstand high temperatures and is resistant to thermal shock, highly heat-resistant, can be used for a variety of cooking methods.
