BOROSILICATE GLASS

## KITCHEN GLASSWARE COLLECTION 2024

#### Achievment

 **21** YEARS OF EXPERIENCE

 SHIPPED TO **100+** COUNTRIES

 WORK WITH **1800+** BUYERS

 MORE THAN **2,94** BILLION PCS PRODUCED

#### Team

 OVER **1400** EMPLOYEES

 **46** R&D MATERIAL & TECHNOLOGY

 **15+** DESIGNERS

 **60+** QA, QC STAFF

#### Facilities

 **5** PRODUCTION BASE

 **9** GLASS FURNACES

 **8** CORE PRODUCT LINES

 **26800+** DESIGNS  
**2200+** MOULDS

#### Factory Audits

#### Cooperative Partners

#### High Borosilicate Glass

SHULOPAL high borosilicate glass is a type of glass that made primarily of silica (SiO<sub>2</sub>) and boron trioxide (B<sub>2</sub>O<sub>3</sub>). One of the key features is its high resistance to thermal shock, it can withstand rapid temperature changes without breaking or cracking. As it has a low coefficient of thermal expansion, it can maintain its shape and size even when subjected to significant temperature changes. These thermal properties make SHULOPAL high borosilicate glass products safe to handle oven temperature up to 565°C/1050°F and freezer temperature as low as -40°C.

It is also highly resistant to chemical corrosion and can withstand exposure to many types of acids, bases, and other corrosive substances. It does not contain any harmful chemicals that leach into food, completely non-porous and won't absorb odors or flavors, this make it very safe for storing, reheating or cooking food.

## Benefits

Oven Safe

SHULOPAL borosilicate glassware labeled with 'oven safe' is a durable and reliable option for cooking and baking, provide a safe and convenient way to prepare your favorite dishes in oven.

Microwave Safe

Suitable for use in microwave ovens, no migration of support materials to food at all. Very good performance in both long-term and short-term tests from the professional lab.

Thermal Shock Resistant

SHULOPAL high borosilicate glass products can handle immediate temperature changes up to 120°C, without cracking or breaking from cook to chill.

Dishwasher Safe

Excellent resistance of the surface and decoration after 2000 professional washes.

Perfectly Non-porous

100% high quality borosilicate glass, 0% porosity, 0% Bacteria.

SHULOPAL high borosilicate products can go from freezer straight to microwave to oven without any risk of breaking.

# PP Lid Jars

High quality materials, BPA-free

PP Lids are made of high quality polypropylene material, which is BPA-free and safe for food storage. They are available in various sizes and capacities, ranging from 450ml to 2000ml. The lids are designed to fit snugly on the jars, ensuring airtight storage and preventing moisture and odors from entering. They are also easy to open and close, making them convenient for everyday use.
