***about
us***

BACKGROUND

Manulena is a family business that started in 1968, when Manuel Pedro Custódio rode his bicycle to the Sanctuary of Fátima to sell homemade religious candles.

The Sanctuary of Fátima was our first customer and still remains a client. Our approach to business is one of full dedication and we remain faithful and proud of our origins and are committed to excellence and growth

OVER THE YEARS OUR COMPANY HAS EXPANDED AND PERFECTED ITS CRAFT AND IS NOW UNDER THE LEADERSHIP OF THE SECOND GENERATION OF ITS FOUNDERS.

The new generation of managers are dedicated and focused and rely on the help of the entire team to fulfil its commitment to expand and improve the family legacy and take Manulena further towards well-deserved national and international recognition.

aromatic components

trends

CANDLES AND DIFFUSERS ARE A GROWING GLOBAL TREND. IT IS A MARKET SEGMENT THAT BRANDS ARE INCREASINGLY INVESTING IN.

Comfort giving components can turn any space into a more welcoming environment and this is particularly true with fragrances. Nowadays, these supplements are a must that no one dispenses.

Whether used as a fragrance delivery system or as a decorative piece, scented candles or diffusers can be the perfect gift. Who doesn't like to receive a beautiful candle with a pleasant aroma?

MANULENA IS A COMPANY THAT IS READY TO PROVIDE ANSWERS TO THIS DEMANDING MARKET AND TO BE IN THE TOP LIST OF EXCELLENT MANUFACTURERS.

HOW

we do it

OUR PRODUCTS ARE OF THE HIGHEST QUALITY.

In addition to the sophisticated production techniques, we only use the best ingredients: the best waxes, fragrances, wicks, pigments and all the other raw materials involved.

CANDLES

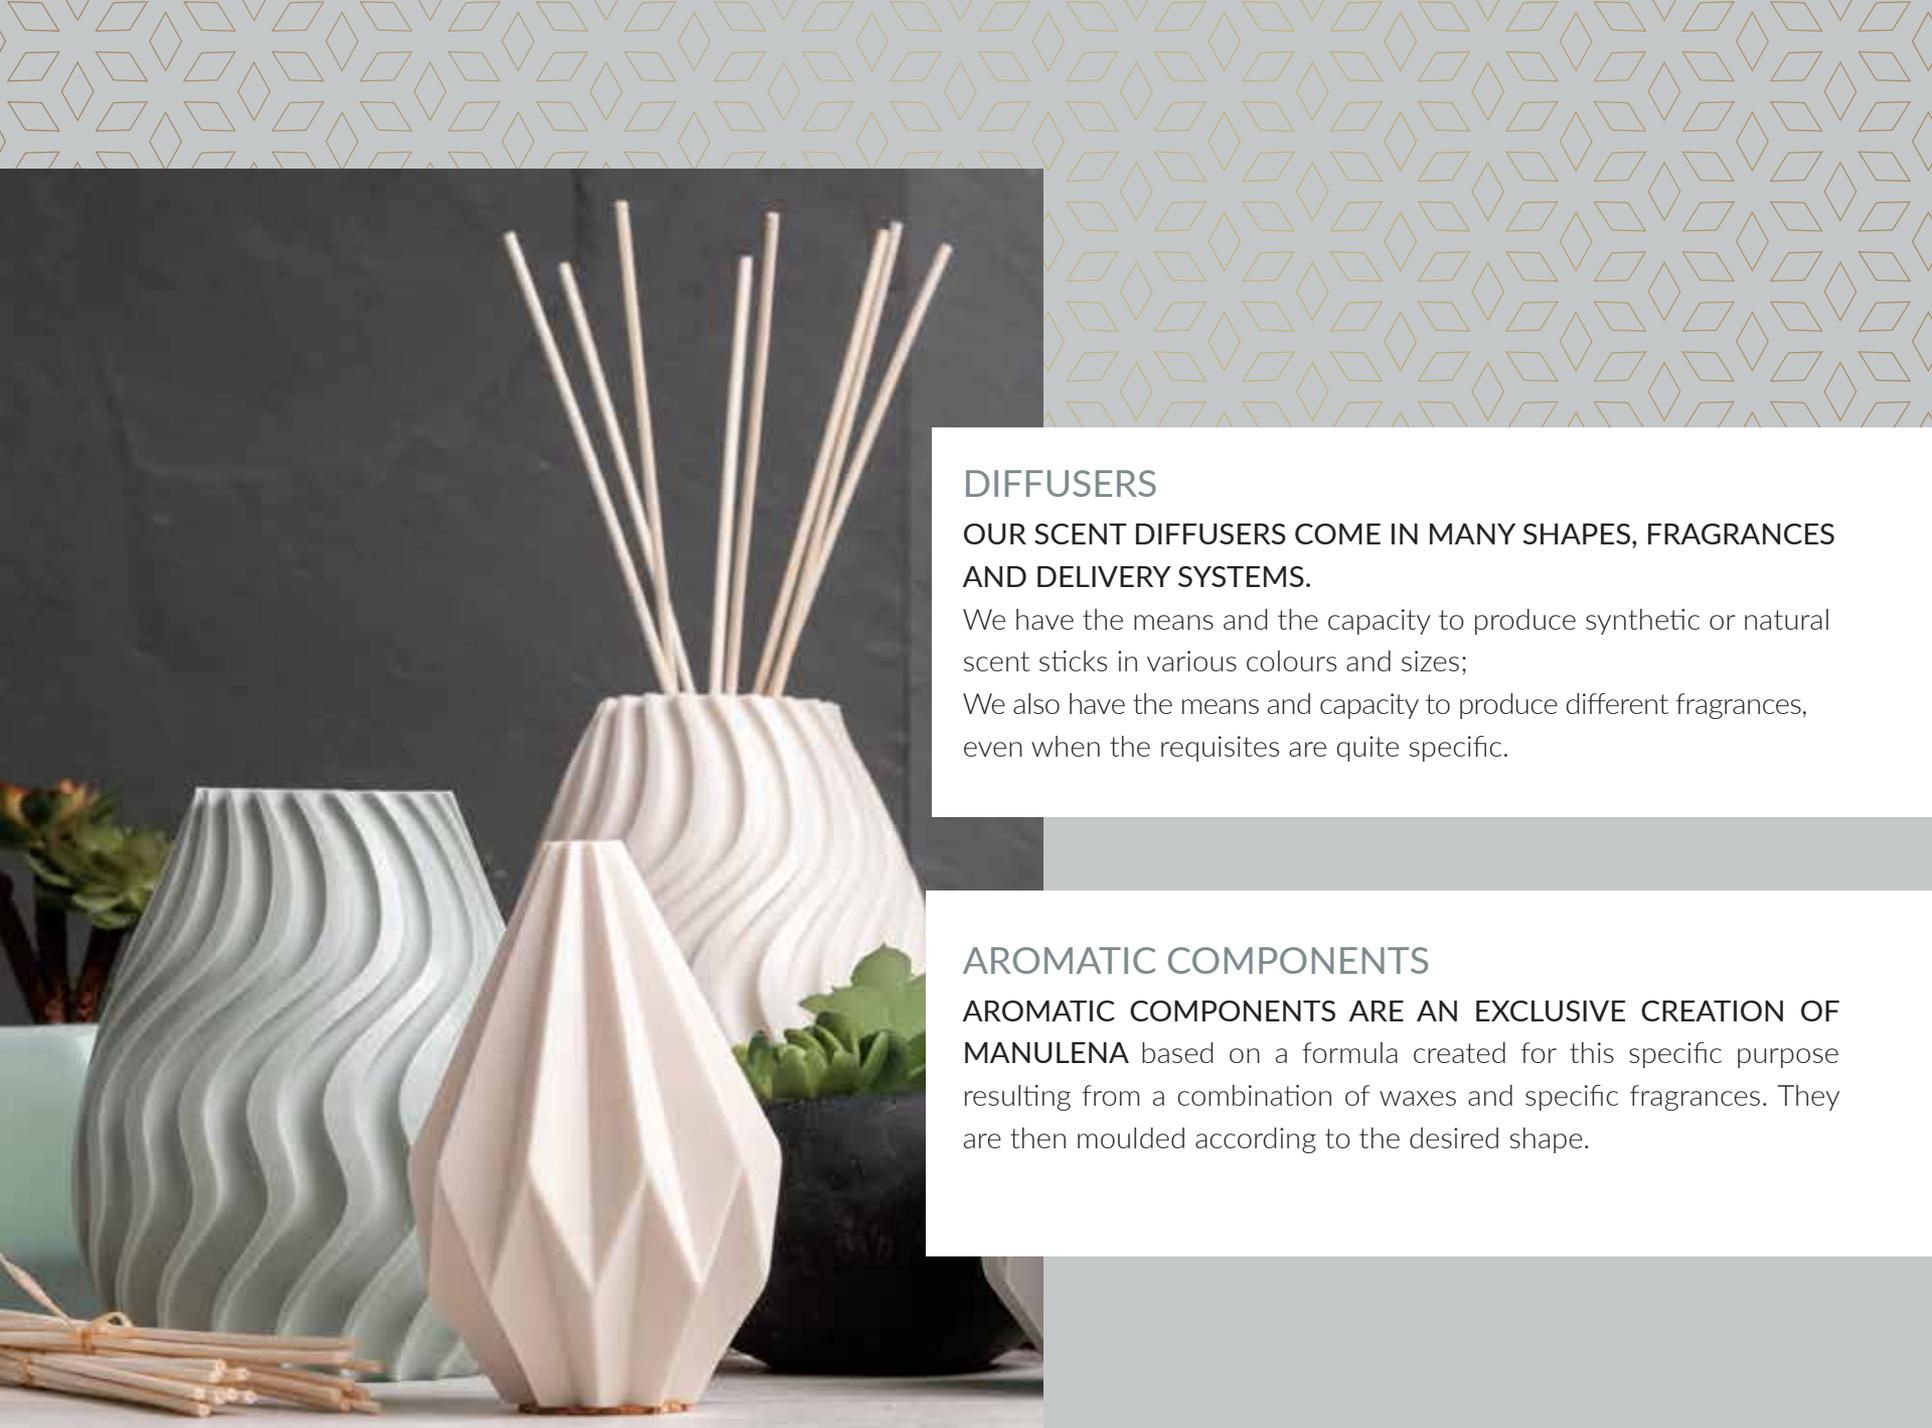

Being the first product manufactured and marketed by Manulena, we never stopped searching for perfection including the use of varied materials, colours, moulds and sizes.

It has been a long journey but we have achieved the level of quality that makes us stand out and recognised by the best brands throughout the world.

OUR INGREDIENTS:

- 100% MINERAL WAX – PARAFFIN
- MIXED
- 100% VEGETAL:
 - COLZA
 - SOY
 - COCONUT
- BEESWAX

In addition, we carry our own formulas created by mixing different raw materials in order to obtain exactly the results needed for each product. These formulas are used in filling candles, moulds, pressed, as well as in our own scented products.

DIFFUSERS

OUR SCENT DIFFUSERS COME IN MANY SHAPES, FRAGRANCES AND DELIVERY SYSTEMS.

We have the means and the capacity to produce synthetic or natural scent sticks in various colours and sizes;

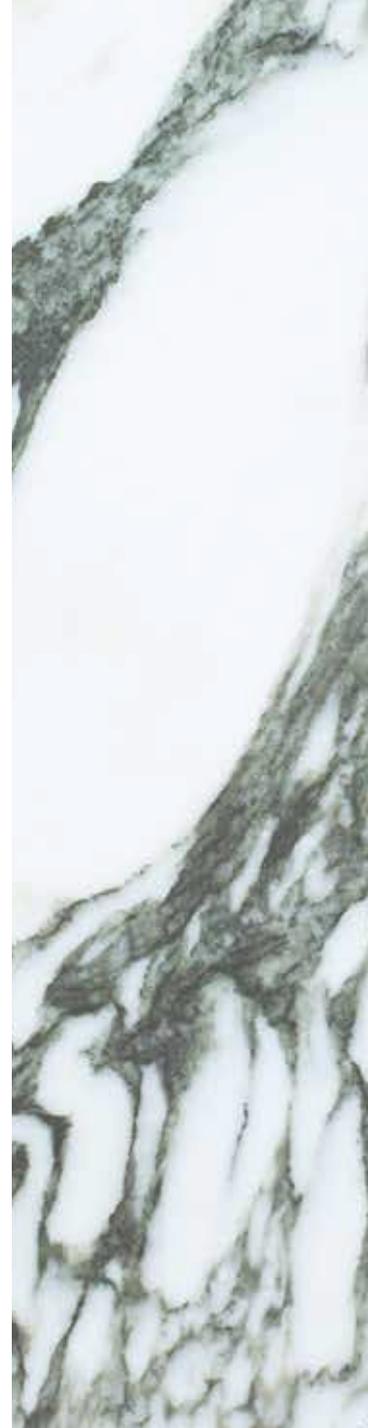

We also have the means and capacity to produce different fragrances, even when the requisites are quite specific.

AROMATIC COMPONENTS

AROMATIC COMPONENTS ARE AN EXCLUSIVE CREATION OF MANULENA based on a formula created for this specific purpose resulting from a combination of waxes and specific fragrances. They are then moulded according to the desired shape.

In addition to the excellent ingredients available to our customers – different types of wax, fragrances and wicks, containers, labels and packaging – **WE OFFER ALL OF OUR KNOWLEDGE AND A FOLLOW-UP SERVICE FROM THE BEGINNING TO THE END OF THE ENTIRE PROCESS.**

***one
stop
shop***

Currently, Manulena is sought by the best international brands to produce their candles.

BRANDS WITH THE HIGHEST STANDARDS OF QUALITY OF RAW MATERIALS AND PERFORMANCE SEEK OUT MANULENA AS THEIR IDEAL PARTNER as our services go far beyond supplying raw materials. We start by understanding the customer's concept and needs, design and develop the product, and can choose, and purchase all required materials that includes the fragrances, containers (Glass, Ceramic, Tin for instance), as well as all required labels, and packaging. This is our one stop shop offer to you.

If the client does not have a clear idea about the desired product, our team has the expertise and skills to accompany you in the decision process, the choice of raw materials and throughout the entire manufacturing process at our state of the art equipped laboratory. You will benefit from a personalized service throughout the entire process. From the brief to the delivery of your product we are in constant search for the solution which meets your objectives.
