ABOUT US

Hemera (Tianjin) Technology Development Limited, is a company specializing in the production of high borosilicate glass products with nearly ten years of experience in production, export and sales. The company's main products include glasses, teapots, jars, pitchers, coffee makers and others for table and kitchen. All of our products meet food grade standards, like FDA, LFGB, REACH, etc.

Hemera consists of different departments in production, sales, design and after-sales service. Our professional R&D team provides personalized design and customized service for vary customers, and have enough experience and ability to handle all details for customized products, like OEM and ODM.

Hemera's production department own 8 production lines, with 2000 pcs glasses of each, can achieve rapid production. QC responsible from the first step until the goods send out, good comments of our speed and quality from many customers. Besides, Hemera has strong logistics team to help the goods shipping, with more than 40 countries. We are always on time in both production and shipping.

With the concept of "creating a better life", the company uses the best product quality and the most sincere service to win the trust, support and understanding of every customer. Hope to establish a long-term win-win cooperation relationship with you!
