THE ONE AND ONLY ALL-IN-ONE CORKSCREW

OMNIA

The pocket corkscrew for both standard and mushroom shape corks.

A single small pocket tool to open the various types of bottles and corks without the need for other types of corkscrews, pliers or other devices.

Italian design: elegant, ergonomic, essential.

Double lever system: easy uncorking, with crown cap lifter

Foil cutter blade: easy opening, curved shape, precise cut.

Standard shape corks: easy screwing spiral, perfect balancing.

Mushroom shape corks: retention toothing, clamp system.

MK OM-CF

WITH MAGNETIC CLOSURE

100% vegetable tanned leather, made in Tuscany, Italy, with unique certificate of guarantee. Thanks to the magnets placed on the back of the sheath and on the closure lace, you can comfortably carry your knives without clip in your pocket. Or you can use it as a standard belt sheath with the easiness of attaching it without taking off your belt.

Pouch length: 90 mm – 3.54 in

Closed length: 125 mm – 4.92 in

Pouch width: MAX 42 mm - 1.65 in
MIN 25 mm - 0.98 in

Weight: 35 g - 1.23 oz

Color: Black

Mushroom shape corks

For **standard corks**: double lever system which, unlike the single lever, is more precise and requires less force to remove the cork.

For **“sparkling” (mushroom) corks**: innovative retention system obtained by the arched teeth on the handle of the corkscrew, in correspondence with the joint of the double lever on the opposite side.

For **“crown” caps**: the special recess made on the back of the double lever allows you to open the crown caps of soft drinks, beers, etc.

Capsule cutter: curved knife blade that adheres to the circumference of the neck of the bottle, facilitating cutting and removal of the protective capsule.

Capsule cutter

MKM corkscrew OMNIA is unique in its style due to:

- **patent pending system** that allows opening both standard shape corks and mushroom shape corks (sparkling wine corks)
- **no need for other tools**, pliers or else when a sparkling wine cork is stuck in the neck of the bottle
- **no fatigued** or embarrassed waiter/barman trying to remove the cork with its apron
- **no waiter/barman leaving the customer waiting**, going to look around for a solution that is already in its own corkscrew

Standard shape corks

- **easy opening** foil cutter blade
- absolutely **no difficulty opening** the blade
- **no ruined/broken nails** to the many wine lovers with wonderful well-groomed hands
- well proven **double lever system**
- for a **safe and an easy cork extraction**
- lever embodies also the **cap lifter**

Leather sheath
