

SAVU GLASS

SAVU WHISKY GLASS

MORE SCENT. MORE TASTE. MORE ENJOYMENT!

The sophisticated option with a true difference

We developed SAVU whisky tasting glass in collaboration with the Universities of Turku and Helsinki. Our glass adds a whole new dimension to traditional whisky tasting by eliminating the disturbing alcohol fumes and offering the fullest aroma experience. SAVU is the only scientifically proven functional tasting glass.

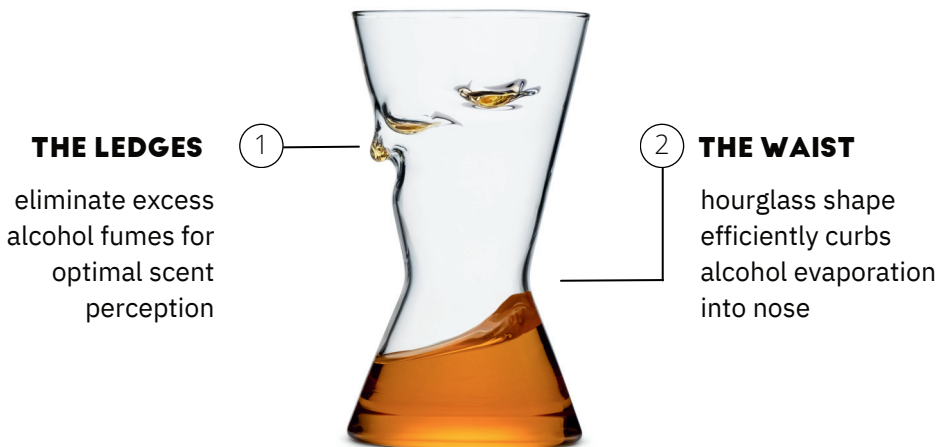

SAVU is a luxurious handmade Nordic design product manufactured from the purest borosilicate glass, which makes it extremely durable and machine wash safe.
