

## About Us

We've established ourselves as THE source of furniture and homeware in Indonesia and beyond. **Natuzz Ohme** is the inspirational wordplay that best describes us to be, wholly embracing Mother Nature, while seriously encompassing the design elements in our lives. Our designers dare to think out of the box, making each and every piece of our product unique in itself.

Visit us at our showroom in Cirebon, or our inspection offices around the country in Yogyakarta, Solo, Jepara and more.

With our products in your home, we guarantee you a seamless experience in the "art of living".

Sustainable forestry, ethical production and design for the generations are at the top of our minds as we await to serve you.
