distinctive and elegant  
options

COMPANY  
PROFILE

## **MISION**

Our mission is to provide decorative products that inspire and transform every space, bringing forth the best of our creativity and talent to create unique and exclusive decorative pieces crafted using artisanal techniques.

## **VISION**

Our vision is to establish ourselves as a globally prestigious brand, admired for our products with exclusive and cutting-edge designs.

## ABOUT THE COMPANY

Tahua Pottery SAC was founded in 2004 by the spouses Juan Marquina and Fabiola Tahua, both with previous experience in design and development of handcrafted products.

We design and manufacture exceptional decorative products in ceramics and other materials, combining precision craftsmanship with high-quality industrial production.

Our extensive range of items is organized into collections, showcasing a variety of styles and trends to meet diverse preferences.

From our origins in Peru, we extend our passion and creativity globally, distributing our refined and distinctive products to select stores around the world

# OUR SERVICES

01.

Design and development of our own offers, which appear in our anual catalogue.

02.

Design and development of special pieces or collections according to the client's requests and requirements for a production by volume.

# **PRODUCTION CAPACITY**

All our processes are fully developed at our plant in Villa El Salvador, Peru. We have a production capacity of 20,000 pieces per month, encompassing all our production lines.

Delivery time:  
Between 60 and 90  
days approximately,  
depending on the  
production volume.

**Production lines:**

1. Manufacture of  
decorative ceramic  
products.

2. Production of com-  
plementary acces-  
sories for ceramics  
through metal  
casting.

3. Metal carpentry.

4. Upholstery.

**> PROCESS <**

The pieces are individually packed in boxes and then placed into master boxes.

Each piece is wrapped in bubble wrap for protection, and in some cases, secured with tecnopor bases for added stability.

A 40-foot High Cube container can hold approximately 700 to 1,000 large pieces, each with a volume of 226 cubic inches.

## **PRODUCT TYPES**

We develop a great quantity of decorative products, combining ceramics, wood and metal. The types of products we develop are lamps, vases, candle holders, sculptures, platters, planter holders, side tables, trays, wall art and different accessories for decor.
