.PILLIVUYT. CAROLINE HAAS

Caroline Haas, 29-year-old French designer and illustrator, collaborates with Pillivuyt for the creation of the decorated collections “Romance” and “Je t’aime à ...”

A multidisciplinary artist with a free spirit and free line, her illustrations rub shoulders with textiles, tableware and jewelry.

It was in Paris after studying textile design that she developed a strong attraction for the creation of patterns. Her first illustrations were spotted and chosen by a New York brand and were

presented during Fashion Week 2014. After the euphoria of Paris, it was in the hills of Nice that she set up her workshop with her spouse and partner, product designer Guillaume Raffy. Together, they design a collection of silk scarves made in France, borrowing fragments of colors and lights from the Mediterranean landscape.

Today, her original and poetic illustrations rub shoulders with the expertise of the Pillivuyt porcelain factory, thus creating a true encounter between French tradition and modernity.
