A Company 100% Made in Italy

59 years of Italian history

Stefanplast rooted in the Vicenza area, is among the leading companies in Italy in the production of plastic items for the household, garden and pet sectors.

A company with an organized managerial structure, owned by Walter Stefani in the role of president.

In over 58 years of history, we have gained experience and a deep knowledge in the production of quality, functional and durable products, accompanying the evolution of every product to taste and lifestyles. Highly recognized in the Italian market, we export the "100% Made in Italy"

Stefanplast quality in over 70 countries worldwide.

production area

3.500 ton
max clamping force of
injection molding machines

15.500 ton
finished products

More than **44**
state-of-the-art
moulding machines

Design

Innovative and functional design solutions

Innovative and functional design solutions, attention to detail and forms. These are the goals that Stefanplast designers study daily to give rise to products that improve the quality of life.

3 Areas

Home

A cozy home, with a proper mix of personality and ease of use, functionality and Mediterranean warmth: this is Stefanplast home. A world of constant research and care of the current needs, which results in laundry baskets and accessories for the bathroom, bins, table and kitchen accessories, storage containers and much more: everything characterized by an extreme care of details and tones which give you the everyday enjoyment of life.

Garden

Every garden needs care, attention and choices that are first of all an expression of style. Stefanplast gives shape to these choices, with a wide range of items for floriculture, hobby and professional nursery. A complete assortment of products developed with an Italian taste, to offer a real "universe" for the life in & outdoor.

Pet

When spending time together indoor or outdoor, at the park or on holiday, any Stefanplast item will be a cuddle for your loyal friend: pet carriers, bowls, sleepers and much more, developed to give them the affection and the cares they need.

50 mil.
Items per year

5 warehouses

1st fully automated and compactable plant in Europe

22.000 sqm storage area

30.000 pallet places

Export

We export the “100% Made in Italy” Stefanplast quality in over **70 countries** worldwide

We export over 50% of our production and the Stefanplast brand is well known. It is in fact distributed by the largest wholesalers, distribution chains, DIY, large-scale retailers and other sales channels around the world.

Sustainability

Plastic recycling

Stefanplast obtains the new productions by precise and intelligent use of recycled materials. We recover more than 30% of the waste production materials (POST-INDUSTRIAL) and of the sorted refuse collection (POST-CONSUMPTION). Nowadays customers can see the difference between an ecological product and other ones by its uneven colouring.

plastic generation

Sustainability

Recycled and 100% recyclable products

Stefanplast planning and production chain is increasingly focused on an eco-friendly role to respect the environment by using durable materials which can be totally disposed at the end of their lifecycle. Our growth path continues, creating product lines made of 100% recycled plastic.

Sustainability

Energy saving and reduced CO2

We have implemented energy saving plans by reorganising the various factory departments to obtain the maximum intake of natural light till the most important decision to install a largescale photovoltaic plant and energy saving injection machinery.

Green commitment

Each product feature from production to the final delivery to customer is specifically analyzed and developed. Great focus is placed on packaging, no matter what form is used, carton, film, recycled or recyclable materials.

Quality and certification

Quality of our ideas, in a continuous and widespread development that involves every aspect of company life.

Every day we are committed to improving our production standards and our efficiency, and to making long-lasting and superior quality items. But what is distinguishing is the quality of our ideas, in a continuous and widespread development that involves every aspect of company life: from design to production, from service to after sales care, from logistics to marketing, from dealer support to deliveries, every day and to all regions of the world. For Stefanplast quality is an attitude.

June 2010: Stefanplast obtains the **ISO 9001** Certification, an international standard that guarantees a product development according to the guidelines defined by the Quality Management System;

- **January 2014:** Stefanplast introduced a logistics reorganization system by using a **gravity storage system**, where the loading and unloading are from one side only. The result is an ergonomic improvement in the removal of single packs.

- **June 2014:** the achievement of **OHSAS 18001** Certification, an international Standard for Occupational Health and Safety Management.

- **September 2015:** Stefanplast obtains the **ISO 14001** Certification for the environmental protection and pollution prevention, achieved through a policy of restriction and control on the impact of our production activities for the environmental safeguard.

Research and development

New ethical and environmental prospects

Specialization, innovation and quality of our production standards constantly guide Stefanplast processes and services. We support the idea of changing, moving towards research and we believe in experimentation, promoting with strength and determination a knowledge level which leads to the achievement of new ethical and environmental prospects. This is Stefanplast vision of today and tomorrow.
