Our Story

Pinnacle's legacy began in 1986 under Tokyo Plast International Limited, leading the way in the thermoware industry. Launched as an independent brand in 2007, Pinnacle, means "peak of success," stands for reliable, stylish and high-quality products that inspire exploration and simplify everyday life. Our brand stands as a symbol to provide the best value for our customers. With a commitment to excellence, we manufacture products with 100% virgingrade plastic and food-safe stainless steel, certified by FDA, LFGB; and upheld by ethical BSCI audits and technical audits by customers globally. Guided by a spirit of adventure and practicality, Pinnacle is your trusted companion for life's moments—big or small.

Our History

From Humble Beginnings To Leading The Way

Identifying a need for high-quality thermoware, we expanded our product portfolio to serve homes and outdoor enthusiasts alike. In 2007, Haresh Shah later renamed the brand to "Pinnacle" to pay homage to one of their most successful products and to the company's commitment to striving for perfection.
