BERROCAL

TAKING PERU EVERYWHERE

BERROCAL: a familiar tradition

- *We are a company, dedicated to the export of handmade decorative products, for the Decoration, Gifting and Hospitality Industries.*
- *40 years ago, the company started making embossed leather furniture. Today we manage many of the Peruvian Handcraft Product Lines, specially the Reverse Painted Glass pieces.*
- *We export to more than 16 countries: Argentina, USA, United Arab Emirates, Canada, Italy, England, Turkey, Hong Kong, Puerto Rico, Jordan, Morocco, among others.*
- *Each object of BERROCAL is a manifestation of the hands of its craftsmen, its cultural heritage and the expression of designs that tell part of the history of Peru.*

PERUVIAN CARVED MIRRORS

2019 collection

BERROCAL

TAKING PERU EVERYWHERE

- *When the Spaniards arrived in Peru, they brought with them innumerable objects for everyday use, as well as ornamental and religious artifacts, among which of course were mirrors of all sizes.*
- *The selected mirrors belong to The Cuzquenian Style. These mirrors have a carved wooden frame completely covered in gold or silver leaf. This makes the frame look as if it had been made of gold or silver, and not of wood. What is special about this style is that small mirror pieces are inserted into the wood carvings over the gold or silver frame.*
- *Also, instead of mirror, artisans also use small reverse painted glass pieces. This combination of techniques is called The Cuzcaja Style. Any mirror can be made with mirror pieces or painted glass pieces.*

REVERSE PAINTED GLASS & MIRROR

2019 collection

BERROCAL

TAKING PERU EVERYWHERE

- *Painted Glass, is a technique that came to Peru in the 16th century and was made part of the cultural syncretism of the Colonial times.*
- *We have innovated the technique by making use of mirrors instead of glass, thus creating pieces with a better texture and sophistication in the design.*
- *Is ART behind the glass.*

- *Blocks of glass are hand painted on the back side, and then, all the blocks are assembled on a wooden structure.*
- *Our latest innovation, is to work this technique on mirror instead of glass. To make it, we need to take out from the back side the silver nitrate in the design we want, and then, the clear areas are hand painted.*
- *Pieces made with Reverse Painted Mirror technique, have a more sophisticated appearance.*
- *Also, with the Reverse Painted Mirror technique, we can make aged mirror textures, in different tonalities.*
- *Mirror, as raw material, is a little bit more expensive, than glass.*

CODING SYSTEM

We have a structured coding system for our products in Painted Glass. Each code consists of 3 numbers, which provide certain information, and which also helps to make combinations of designs, shapes and color of edge (color of wood):

Example: 0976.004.0854

- 0976: MALACHITE TEAL COLOR
- 004: BLACK EDGE
- 0854: FRAMING MIRROR, SIMPLE TRADITIONAL 111.5X111.5X8 CM. (43.9X43.9X3.1IN)

XXXX.YYY.ZZZZ

- These 4 numbers mean the code of the design and colors, painted behind glass or mirror.
- These 3 numbers mean the color of the trim or edge.
- These 4 numbers mean the shape and dimensions.
