Villa Collection Denmark.*

VILLA COLLECTION

D E N M A R K

The Scandinavian capacity for casual enjoyment, which we find in the modern design of everything from food and fashion to interiors and décor, continues to be a sought-after lifestyle that the whole world is watching. And it really only takes a few, well-chosen products to attain that particular sense of authenticity and honesty.

Villa Collection Denmark is passionate about this particular kind of atmosphere design – Nordic living with an international twist. Each season, we present an exquisite universe of our own designs and carefully selected products that together create a unique range for modern interior design. This season is no exception.

Another big trend right now is colour. Colours have a positive effect on our well-being as well as our mood. That's why we're enthusiastically introducing the Villa Styles concept – a universe of vibrant home décor that melds easily with the Nordic style to add a fresh touch of colour, hope and joy.

Villa Collection Denmark is the epitome of creativity and classic, Nordic DNA. Our mantra is that it should be simple and easy to follow current interior trends without compromising on the quality of the detail or materials. So we primarily work with home accessories where craftsmanship plays a major role, as things made by hand are created with a passion that comes straight from the heart – and that's clear when you see it in your home.

Naturally, consideration for our home, the Earth, remains in focus. The use of natural materials and wood with FSC™ certification that ensure responsible forestry, as well as long-life products, all play a role in helping our planet.

We've filled the next pages with decorative new ways to interpret and set the scene for the times we live in.

Furniture

They say
your home
reveals
who you are

We create furniture in clean-lined,
cosy designs and each piece tells its own story.

We love wood. It's part of our Nordic DNA.

It lends warmth and glow to any home,
in the city or in the countryside,
newly built or built decades ago.

European Oak

More and more
beautiful over time

Oak is a tree species that grows in most of the world and it is commonly found throughout Denmark. There are more than 200 different species of oak. Oak is among the most durable wood species in Scandinavia.

The oak tree made its first appearance in Denmark about 10,000 years ago. Historically, oak has been used for many different purposes such as building houses, ships, floors, tools and furniture. And thanks to its high tannin content, oak is also used for tanning hides and skins and for storing and ageing wines and spirits.

Oak is extremely hard, strong and heavy. This makes oak ideal for furniture, but even the hardest woods can become scratched and scuffed because wood is a natural material. If oak furniture is well taken care of, it will last for many years. The wood will become more beautiful as it develops a patina over time. Oak furniture is elegant and exclusive, and it blends in perfectly with modern Scandinavian home décor.

Villa Collection Denmark uses FSC™-certified oak (FSC-C166612). FSC™ is a certification system that provides accreditation for sustainable forestry. It is your assurance that wood and forest-based products bearing the FSC™ label are sourced from responsibly managed forests and other controlled sources.

The oak tree made its first appearance in Denmark about 10,000 years ago.

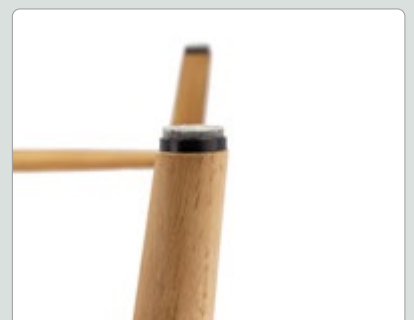

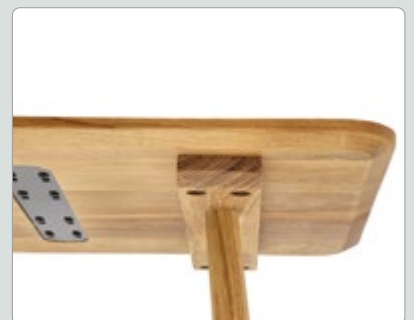

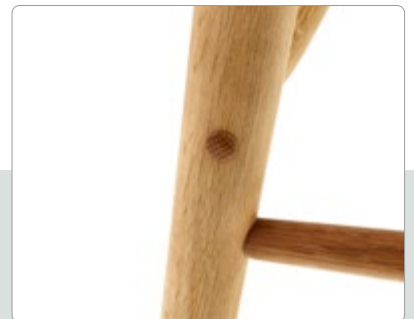

Bodo

European oak – *naturally oiled*

The BODO series includes a desk, a stool, a high stool, a coffee table and a bench crafted from oiled oak, featuring rounded contours and stylish details. Oak wood is a strong and long-lasting material that develops a patina over time. The warm glow melds beautifully with most home décors, adding cosiness and charm.

A coat of vegetable oil is applied to each BODO product that makes it more resistant to the negative effects of daily wear and tear. The oil penetrates the wood and forms a surface barrier that protects against liquid and abrasion, but do not allow water to sit on your BODO product. Wipe the surface dry with a hard-wrung cloth. The products are made from FSC™-certified oak (FSC-C166612).

- Knock down packed

Bodo

European oak – *naturally oiled*

This elegant oak wood series is ideal for anywhere in your home. The five products can be styled together as a group, or used individually where needed. The well-considered details create an aesthetic whole.

Design feature on all seats

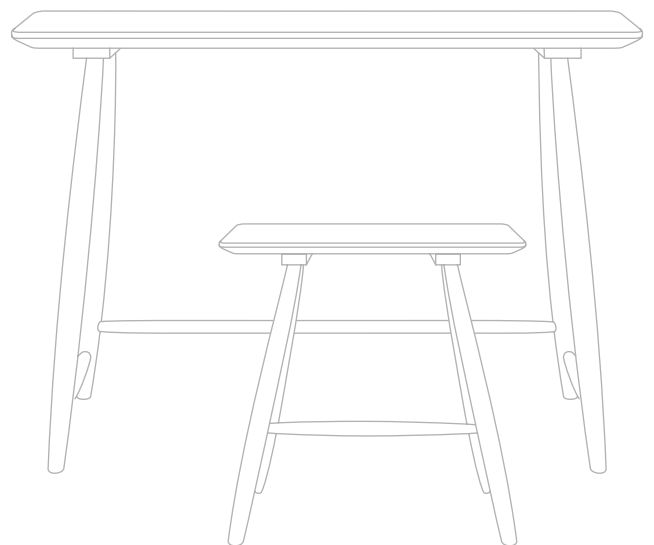

Bast

European oak – *black*

BAST consists of four decorative, small furniture pieces that make useful additions to any home, large or small. The oak furniture pieces are all delivered as knock down and are painted black. The products are made from FSC™-certified oak (FSC-C166612).

Bast

European oak – *black*

For the BAST series, we intentionally selected oak as it creates stunning natural grain patterns as well as solid, durable furniture. Soft, rounded contours and unique details unite to create an aesthetic expression.

Ebern

– *white-washed oak*

Simple and beautiful in oak

This beautiful oak range EBERN is produced from American oak from the village of Smyrna in New York State.

The furniture has a white-washed finish from treatment with white-pigmented soap. The beautiful minimalist furniture will bring a bright and inviting Nordic look to your home.

All EBERN products are knock down packed and made from FSC™-certified oak (FSC-C166612).

A beautiful interior statement

With its laid-back look, the lounge chair is the epitome of Nordic living with an international twist. The classic chair fits perfectly into a Scandinavian décor with a relaxed vibe but can also easily stand on its own – as a beautiful interior statement.

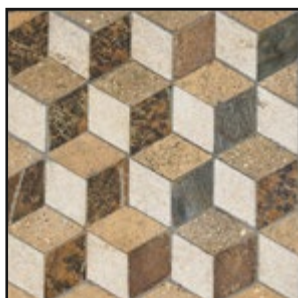

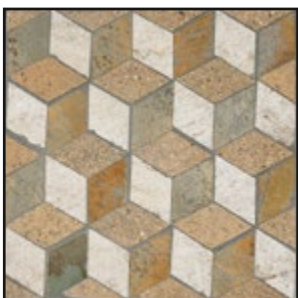

The FLEGT-licensed teak wood originates from Indonesia. The FLEGT licence is intended to prevent illegal logging and clearing of the world's forests and is your guarantee that the tree has been felled legally.

Svale

For the modern home

The SVALE series consists of two chairs and a stool in powder-coated black iron. Despite their minimalist, industrial look, the chairs offer excellent seating comfort. Create contrast and warmth by adding soft pillows or sheepskins. Delivered unassembled – legs are mounted using four included screws.

Small tables

Small tables add design flair anywhere in the home. They can be used in the living room as a complement to the coffee table, in the hallway or in the bedroom as a bedside table. Knock down packed.

Unique

limestone tabletop

WALDE is an elegant set of nesting tables with a limestone tabletop. Limestone is a sedimentary rock found in many parts of the world. It has a smooth surface that makes it ideal as a tabletop. We love the natural look in the home.

Lyst & Lyng

Organic and sculptural

The playful design of the sculptural candlestick takes its inspiration from tree branches as found in nature. It has four candle heights and comes in two colours, sand and black, allowing unlimited options for all the vibrant candles that are trending right now. The unique candlestick is stylish on its own on the dining table and will automatically draw attention.

We introduce two more products for the LYST and LYNG series: a beautiful vase with a sculptural, cubist shape and a candlestick for six taper candles in the colours sand and black. And of course we have candles for all of the candlesticks.

The BUBBLE, OTEA, HVILS and CUNEO series include vases featuring several layers of glass. They are designed by Villa Collection Denmark's design team and showcase all that is made possible when working with multiple layers of glass. The vases are handcrafted and hand-blown, so each one is unique.

Glass

Alluring like the sea

Glass is an amazing material that allows endless experimentation with shapes and colours. It is one of our favourite materials, which is why it features prominently in our range. Glass is made from melting sand into a liquid. Next, a variety of colours and other ingredients can be added to the mixture, depending on the desired result. Glass is alluring, just like the sea or a stunning blue sky.

Glassblowing is an ancient craft that is still practiced to this day. The glassblowing technique is what makes each glass product unique. A hollow iron tube is dipped into molten glass, and air is blown through the tube to create a form to be shaped.

We adore the artisanal look of the glass products made with this technique. Every glass product in our collection is made with love for this splendid material.

Otea

Nature-inspired glass vases

Three enchanting vases in hand-blown glass, with stunning natural colours and soft shapes that are pleasing to the eye. Inspiration for the vases has been drawn from the Nordic nature: The beautiful brown hues of amber. The colour of sand dancing in the wind. The encounter between a heat wave and an ocean wave.

Bubble

Beautiful bubbles

The Bubble vases have a silhouette that's both playful and pleasing. The transparent glass version is reminiscent of soap bubbles carried aloft by the wind, and in the version with white glass enclosed in clear glass, the vase takes on a glossy, almost candy-like look.

Trio

Together or separately

Three atmospheric vases in different heights featuring sculptural shapes that meld into your décor with ease either with or without flowers, whether you use one, two or all three vases together.

Cuneo

White mouth-blown vases

Elegant hand-crafted vases in hand-blown glass. The unique appearance is achieved using a layer of white glass on the interior and a layer of clear glass on the exterior. The vases boast a stunning shape that is ideal for both fresh and dried flowers.

Elva

Create lovely floral arrangements with just a few flowers. Simply tuck flowers into the elegant top and give them the recognition they deserve. Find small, pretty flowers in the garden and in nature and let them shine in the vases.

Stoneware is made from clay and fired at a high temperature. Nature is the inspiration for our stoneware vases and planters, and this is made evident in decorations reminiscent of leaves, poppy seed pods, and other such motifs.

The vases are hand-crafted by skilled and experienced artisans. They are shaped on a turntable, and the decorations are made by hand and applied. A unique reactive glaze is then applied to the vases, which are fired in a kiln. The reactive glaze behaves differently from product to product, so the glaze and colour of each piece will vary.

Hand-crafted stoneware

Our vases have a unique look because they are hand-crafted by highly experienced people who are passionate about their craft.

Klast

Two in one

Beautiful handmade piece made of stoneware with a unique reactive glazing. The design is evocative of a beach filled with stones shaped by nature over thousands of years. KLAST can be used as a vase or as a flowerpot.

Stern

A work of art

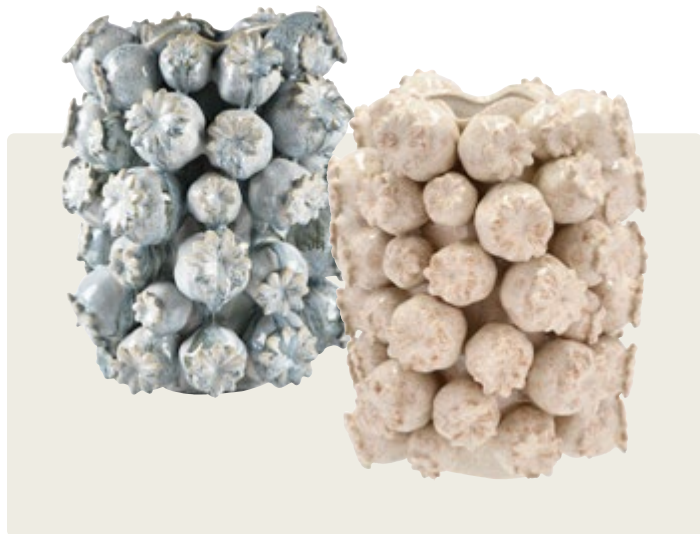

The inspiration for this vase came from the forest floor in the Nordic forests, where mushrooms are growing during the autumn. Each individual vase is hand-modelled and utterly unique.

Elha

Handmade and
one-of-a-kind

Gorgeous sculptural stoneware vases that look as impressive empty as they do filled with a large bouquet of flowers. The vases are covered with decorative shapes in the form of poppy seed pods, which are made and applied by hand.

Inspired by nature

Nature is a great source of inspiration for us, and we use it in many different ways in our designs. The vase decorations and colours are inspired by tree leaves, beach stones and other impressions found in nature.

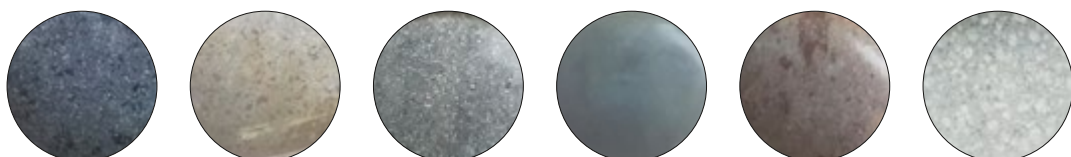

Bark

River stone

The BARK dishes are crafted from river stones, to create a very special look that is rustic, raw and unpolished. There is a beautiful contrast between the bowls' rough exterior and their smooth interior.

The natural stones found along rivers are smoothed so that they become flat on the bottom. The bowls are then hand-polished so the surface achieves a smooth mirror finish.

Examples of colour variations

Please note that the colours shown on this page might differ from the ones you receive when ordering. River stone is a natural material and colour variations will occur.

Pink simplicity

Beautiful handmade vase crafted from mouth-blown coloured glass. The vase features a simple and elegant design with a cone-shaped foot. Place it on the windowsill and enjoy its stunning colour.

Pink or brown

Sculptural handcrafted vases in mouth-blown coloured glass with an elegant cold-cut rim. The vases feature a decorative plump shape with a narrow neck and fabulous colours.

Hvils

Stunning, hand-blown vases in triple-layer glass: transparent, honey-coloured and white. The layers are combined in different ways in the two vases. Place an LED light in one of the vases, and it will provide an amazingly soft illumination via the combination of three glass colours.

Tana

Recycled paper mache

These beautiful decoration vases are crafted from paper mache and finished with hand-painted decoration. The vases are designed for dried flowers like the eternity bouquet - if you wish to use fresh flowers or plants, place a water-proof container inside the vase. Clean only with a dry cloth.

Loev

Raw and decorative

The beautiful, raw pots in grey cement with rustic finish are ideal for decoration and for holding dried flowers. Please note that the pots are not waterproof. If you want to use them for live houseplants, we recommend using an insert inside the pot.

Torden

Dark and rustic

Vases and wall decorations in dark grey/black iron. The stunning tall vases with a narrow opening and a raw, rustic surface lend dynamism and personality to the décor. Hang the dishes on walls in every colour tone. They pair wonderfully with other types of materials, both soft and hard.

Daun

Mouth-blown silhouettes

Make your décor different and exciting by playing with shapes and colours. For example, style these stunning glass vases crafted from coloured mouth-blown glass together with other vases in a variety of heights, materials and colours.

Ist

Sigt

Like stones on the beach

SIGT is a collection of two hand-decorated vases in heavy hand-blown glass. Inspiration for these glass vases with their raw, matte surfaces comes from driftwood and the way that the sea wears down the stones on the beach over thousands of years. The vases are meant to be seen and touched. They stimulate the senses.

Amat

Clean and classic

AMAT is a classic candleholder in black or gold-tone metal. The minimalist style makes it ideal for using in table decorations and the like, where it won't steal focus from the main attraction.

Rost

One-two-three

Sculptural stoneware vases in three of the year's hottest colours: dark brown, green and dark blue. The glazing is reactive, which means that no two vases are alike. Differences are due to shape, firing temperature and location inside the kiln, and since a reactive glaze is more noticeable on edges, this effect is very important for these three vases. The vases are stunning individually as well as styled in a group.

Talvik

The decorative cement figurines add an interesting element to the décor, and make a unique companion to pieces such as vases and candleholders.

Vilde

Soft and stylish

Stoneware vases with matte soft coating glaze add style to the decor with their soft, sculptural shapes. The vases are decorative both with flowers and without.

Calvi

A big trend in 2023/2024 is home décor and fashion decorated with bodies and body parts, such as faces like these. CALVI can be used as a flowerpot but also as a decorative vase. Though a bit serious, the unique expression of the faces is guaranteed to put a smile on your lips.

Knast

Rustic finish

These flowerpots in grey cement with a rustic finish are shaped like tree stumps. For a look that is both raw and inviting, these plant pots are a perfect choice. Ideal for decoration and for holding dried flowers.

Please note that the pots are not waterproof, if you want to use them for live houseplants, we recommend using an insert inside the pot.

*Rattan / Storage /
Water Hyacinth / Bamboo*

Natural materials *suit* *indoor & outdoor* *spaces alike*

Rattan, water hyacinth and bamboo are quality materials that can be made into decorative planters, baskets and lanterns.

Amas & Asra

A harmonious silhouette

The lanterns feature a practical glass insert at the bottom to house a LED light or a stearin candle. The lanterns have a beautiful and harmonious silhouette, and a soft light is diffused through the fine bamboo to create a cosy, calm and warm atmosphere. The lanterns are not weatherproof and should only be used indoors, such as inside the home or in a greenhouse.

Ylm

Rattan indoors and out

Make nature a bigger part of the décor with charming planters crafted from durable rattan. Green house-plants and colourful flowers create more cosiness and life.

The planters are lined with a plastic bag and are therefore suitable for both indoor and outdoor use. If they are placed outside, you can make water drainage holes in the bag.

There are 300 different rattan plants in many different sizes. Rattan is a natural product and as such it is not water-repellent, so if the planters are placed outdoors they will develop patina and take on a grey finish over time, depending on the weather.

Toerv

Natural storage

The basket set in water hyacinth is a stylish and practical storage solution for towels, toilet rolls, throw blankets, knitting, toys and much more. The baskets feature woven patterns that contrast beautifully with each other.

Water hyacinth is a plant that grows in tropical waters such as ponds, lakes, and ditches. It is harvested at regular intervals to ensure that it does not take over the waterways, which require sunlight to maintain their biodiversity.

Vida &Vilda

Robust and decorative planters in two sizes. They are heavy, sturdy and solid which makes them suitable for large plants. Make nature a bigger part of the décor with charming plant baskets in rattan.

Suitable for both indoor and outdoor use. The planters are lined with a plastic bag. If they are placed outside, you can make water drainage holes in the bag.

Textiles & sheepskins

Textiles & *sheepskins*

Textiles consist of natural fibres like cotton and synthetic fibres like polyester, which are combined using methods including weaving, knitting, knotting, crocheting and more.

We primarily use natural materials such as cotton and linen for the textiles in our range.

Lovely textiles

High-quality natural materials

Decorate the home with cosy textiles in beautiful colours and exciting patterns. In Villa Collection Denmark's collection, you'll find a wide range of textiles in quality materials such as cotton and linen to create a beautiful transformation in your décor.

The Faroese climate is predominantly mild with cool summers and mild winters. The weather is fickle and can quickly change from mild to stormy – which is part of its charm.

The Faroe Islands

Raw and breathtaking nature

The Faroe Islands is a country that is located in the middle of the immense, thunderous Atlantic Ocean. The archipelago comprises 18 principal islands connected by tunnels and ferries.

The raw, harsh and unspoiled nature is entirely unique. The air is fresh and clean, and a very special calm reigns here. Green mountains, roaring sea and dramatic cliffs are some of the hallmarks of the enchanting landscape.

The Nordic style is at the core of Villa Collection Denmark's design philosophy, with nature's materials, colours and expressions as the focal point. Our collection includes gorgeous Faroese sheepskins that are selected for a very special reason.

Faroese sheep are very robust and live out in the wild all year round, largely fending for themselves in the harsh, changeable weather. The wool of Faroese sheep has two layers – an inner layer, which is short and soft, and an outer layer, which is coarser and longer. The Faroese sheepskins are health-certified and meet EU veterinary requirements.

Faroese sheep have never been subject to industrialisation, which means that the colour of the skins varies greatly, and each one is unique. We've deliberately not opted out of any colour combinations, as the differences are just what is so amazing about the skins of the almost wild Faroese sheep.

Faroese sheepskin

Useful tips on maintaining and caring for your sheepskin:

- Shake it regularly
- Vacuum it regularly
- Air it – ideally in frosty weather. It can also be put in the freezer overnight
- If you spill something on it, wipe it with a damp cloth
- Brush it through to keep it looking nice

Mirrors

Functional & decorative *element*

A mirror can be used as a functional and decorative element of the décor. It helps to open up the space and make it seem bigger and brighter.

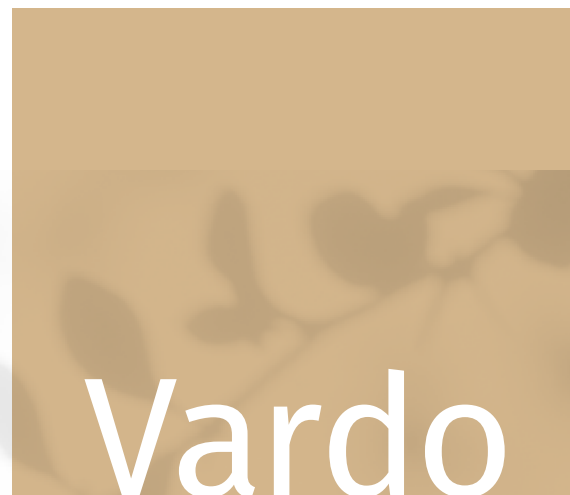

Vasto

The VASTO series has been expanded with a new oval mirror with a rounded top and straight base. It is wider and stands stable on the floor. It also looks gorgeous when hung on the wall. The mirror has a black frame and is perfect for the bedroom or hallway.

Vasto

Mirror, mirror ...

The large oval VASTO mirror with a black iron frame is suitable for free-standing or hanging on a wall. At the back of the mirror is a stand that supports the mirror when positioned on the floor. The stand can be folded up and removed if the mirror is hung on the wall instead. It has four mounting holes, two at the top and two at the bottom, so it hangs securely.

The round VARDO mirror comes in four different sizes, with a black or brass-tone frame to bring flair to the home décor. A new addition is the 60 cm mirror now available with an off-white frame. The mirror has more than a practical function in the hallway or bathroom. It is also beautiful and decorative in the living room or bedroom, for example.

What's your combination?

The mirror in two different sizes can hang in 4 different fantastic ways, and if you combine the two sizes, you have a wealth of possibilities for beautiful combinations.

Lighting

Creating a special atmosphere

Lighting is a must in every room of the home, and that includes outdoor spaces. The right lighting creates a special atmosphere and gives the home character.

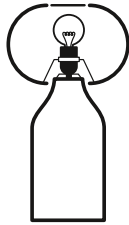

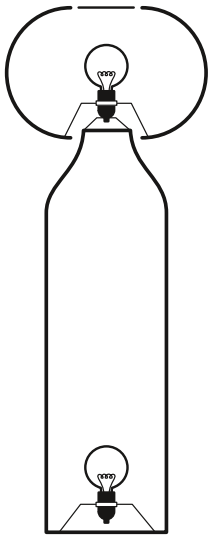

Rattan

Villa Collection Denmark uses only Indonesian natural rattan, which is renowned as a durable but lightweight material. Rattan is one of the world's fastest-growing natural materials for making furniture and interiors and is surpassed only by bamboo. And this makes it an ideal material. Rattan is easy to work with and can be steamed and bent in a wide variety of ways.

The age of the rattan plant is what creates the different appearances of the products. The stalks

from young trees are lighter and thinner, while the material becomes darker and thicker the older the rattan plant is.

VINKA and WERNA are sculptural table lamps and floor lamps in natural and black rattan. They are designed to be beautiful even without use of the light source. A perfect match for any cool, Scandinavian décor with their beautiful, soft and warm light.

A beautiful statement

These gorgeous rattan lamps are the perfect match for any cool, Scandinavian decor with their beautiful, soft and warm light. The large floor model even features a dual light source with light bulbs situated at both the top and bottom of the base – a beautiful, sculptural element for the Nordic home.

Vinka

Vilna

Luminous design

Lamps in natural materials enhance their surroundings with the gentlest, softest light. The VILNA pendant lamps in natural rattan are a completely new design in three different sizes. Place them singly or together, they make stylish additions to any space.

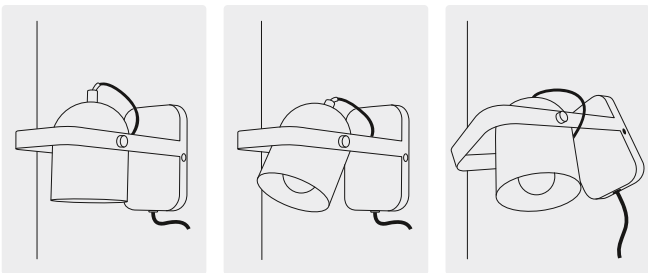

Nesvik

Industrial design for a minimalist décor. Simple and functional.

Nesvik

New wall lamp
with smart features

The popular NESVIK lamp series has been expanded to include a wall lamp in sand-coloured or black iron with a lampshade that can be tilted and turned to the desired position. Perfect for task lighting in the kitchen or as a night table lamp in the bedroom, where the swivel function is useful when reading in bed.

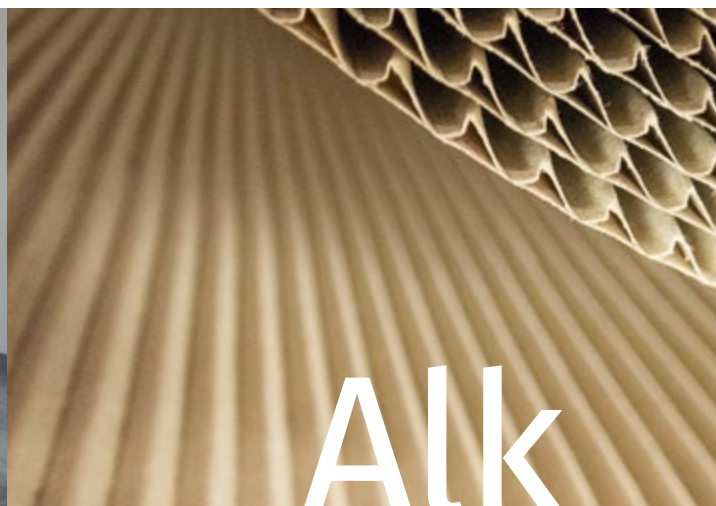

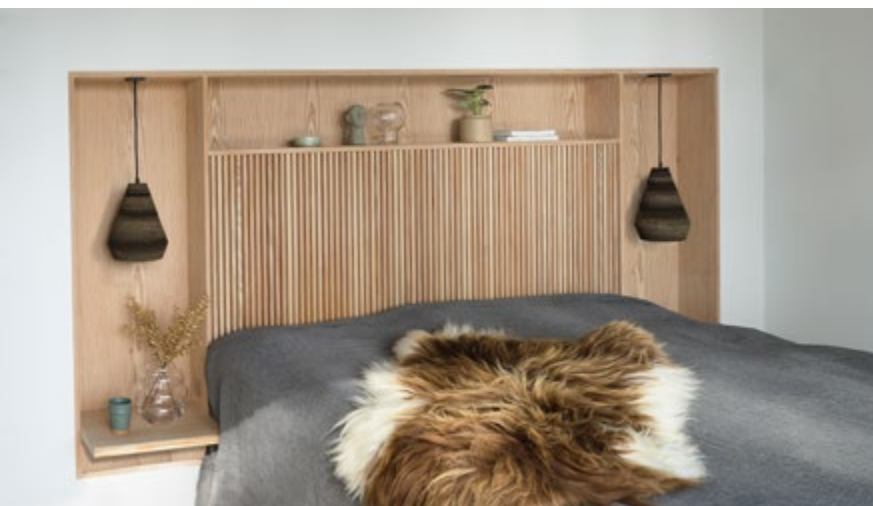

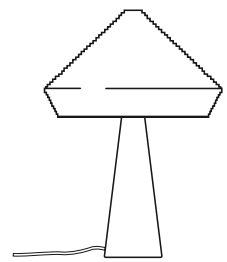

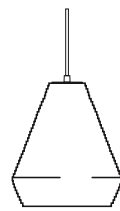

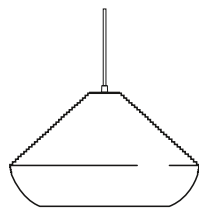

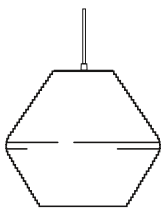

Play of light cardboard design

Lamps of cardboard

These three beautiful lamps are all hand-made from cardboard, and in addition to giving a perfect light under the lamps they also provide a fantastic play of light through the lamp shade. The lamps will last for many years, but obviously do not tolerate water. The lamps can be cleaned easily with a soft duster.

LED lamps

Late summer evenings ought to be enjoyed with wonderful music or a good audiobook.

LED lamps with speakers from the HAV series are perfect for that purpose.

Hav

Perfect for parties and cosy nights

HAV is a cosy Scandinavian-designed lantern speaker for outdoor and indoor use, easy to move around and bring along. The HAV lantern speaker creates the perfect atmosphere for a garden party or a cosy BBQ evening, and contributes to a beautiful lounge atmosphere inside. Simply connect the speaker to your smartphone to start the music.

IP44 approved and suitable for outdoor use.

HAV is designed in cooperation with Design Studio Swift Creative, Aarhus.

Maane

These three lovely solar LED lamps will light up your garden or balcony on dark evenings. The lamps turn on automatically when darkness falls, providing approx. 6 hours of illumination after 8 hours of full charging in daylight.

MIDNIGHT are stylish and functional cordless LED lamps that can be placed anywhere – in the children's room, bathroom, a small hallway or as an appealing lounge lamp wherever you take it. The lamps are IP44-certified which means that they can be placed outdoors, even in wet weather.

Dining

Stylish dinnerware *makes the dining experience even better*

Eating is about more than just the flavour of the food. We also “eat with our eyes”, so visual presentation plays a big role in our enjoyment.

Fjord

This series of porcelain has an amazing look and has a unique surface, as the reactive glaze is made by hand on each and every one of them.

The charm is that not two are alike, as both colour and surface may vary. The series consists of 4 wonderful colours and surfaces in the form of a dinner plate, a lunch plate, 2 bowls, a mug and an espresso cup.

Tempting *tableware*

Endless possibilities

Mix & match

FJORD allows you to create a personalised look using your favourite colours: blue, green, black metallic and cream.

Mix and contrast different dinnerware pieces and colours. Or select one single colour if you prefer a clean look.

*Well-Being /
Scented Candles & Oils*

Lovely spa atmosphere *at home*

Using home décor in luxurious materials
can create a lovely spa atmosphere
in the bathroom. Our products are created with
self-indulgence and everyday luxury in mind.

Multifunctional bowl

This beautiful oak bowl is fabulous multi-purpose storage option. It can be used as a closed pot, or as two bowls one on top of the other.

The lid can be turned over so that it can also be used as a bowl. Beautiful to look at and ideal storage options for your bath-room or livingroom.

Natural recycling

The elegant, flat storage bowls in two sizes with beautiful structures are made using natural residual materials such as wheat straw, nut shells and coffee bean husks.

Soft *and gentle*

The lovely bath brush is made of Schima wood, which is an evergreen tree akin to the tea family, and nature hair, which means that they give a gentle scrub.

Live candles & wonderful scents

Villa Collection Denmark has a wide and varied range of scented candles and fragrance oils for “hygge”, atmosphere and a cosy mood in your room. There are fabulous fragrances to please everyone, and we’re constantly adding wonderful new combinations.

Our range includes gorgeous, high-quality luxury candles in both glass and ceramic jars, with and without lids.

Our scented candles made with coconut wax and rapeseed wax have become very popular over the last few years. They contain natural, biodegradable

coconut wax and rapeseed wax, and they burn for longer and are cleaner compared with the certified palm oil wax traditionally used in our scented candles. We’re working on replacing palm oil with rapeseed wax in our entire range of scented candles.

The fragrance oil is solvent-free and contains pure extracts and essential oils. All fragrance oils are supplied with eight scented sticks that will keep your home smelling beautiful for up to eight months.

Look forward to brighter times ahead!

Good advice on live candles

- Cut the wick down to 1 cm before you light the candle and keep it at a length of 1 cm while the candle is lit thereby avoiding smoke.
- Never leave a burning candle unattended or in the company of children or pets.
- Always cut off the high edges thus preventing a flickering flame that can result in soot.
- Always place groups of candles with a minimum of 10 cm between the wicks to avoid overheating which leads to melting or running candles.
- Never place your candles where they will be exposed to draught or on a radiator as this can result in soot and a running candle.
- Always place your candle on a fireproof base and away from inflammable items keep the top of the candle free from used matches, as these may act as a wick.
- Always make sure that the candle is put out before leaving it and put the candle out with an extinguisher to avoid soot.

VILLA STYLES

DENMARK

A wave of happy colours

We're now launching Villa Styles – a new concept within the Villa Collection Denmark brand. Styles' interiors universe allows you to add amazing, exclusive and life-affirming colours to your existing décor – without painting an entire wall green.

Colours in the home are a trend we're seeing alongside the natural Nordic look – and the new Styles products have been adapted to this particular universe. So you get the best of both worlds: life-affirming colours and warm, calm nature – a great match!

VILLA STYLES WAS CONCEIVED FROM A VISION TO CREATE A COLLECTION OF COLOURFUL INTERIOR DÉCOR THAT HAS A POSITIVE EFFECT ON YOU AND MAKES A DIFFERENCE IN YOUR HOME. STYLES IS INTENDED TO COMPLEMENT YOUR EXISTING DÉCOR. WE WANT TO MAKE IT EASY FOR YOU TO ADD FLAIR TO YOUR HOME WITH TODAY'S CHEERY, VIBRANT COLOURS.

THE COLOURS ARE CAREFULLY SELECTED TO MATCH THE COLOURS AND MATERIALS THAT CHARACTERISE THE SCANDINAVIAN STYLE: NATURAL COLOURS, WOOD, RATTAN, ETC. WHEN YOU DECORATE WITH VILLA STYLES YOU ARE CREATING A COLOUR-COORDINATED OASIS IN YOUR HOME IN WHICH ALL PRODUCTS COMPLIMENT ONE ANOTHER BEAUTIFULLY.

TREND:

The colours of the RAINBOW

Colour began trending in the fashion world some years ago, and now it has found its way into our homes. The colours of the rainbow are a symbol of hope and a better future. They feel retro, bold and amusing all at once. They tell stories about the past.

Villa Styles

40 new arrivals

Contemporary colours

Multicoloured new arrivals to transform your home

Even if you've chosen a Nordic look for your interior design, you can easily follow the major colour trend we'll be seeing over the next few years. Villa Styles has been developed to complement the Nordic look, and you'll of course encounter contemporary colours, which bring us all hope, smiles and joy in our everyday life.

The key colours in the Villa Styles collection are green, brown, pink, yellow, red and blue. We have chosen these tones because they are on-trend and complement each

other. Even when you decorate your home with multiple new and colourful Styles products, you are creating harmony and cohesion across products and colours.

The collection includes rugs, throws, pillows, vases, candlesticks, candles, chairs and glass fruits that match each other beautifully. The optimistic colours invite creativity and play and bring the home to life.

GIVES VILLA STYLES A SPECIAL ABILITY
TO AWAKEN SOMETHING IN YOU.

Mix & match con cept

- Beautiful and unique products
- A colour concept where everything can be mixed and matched
- Vases and baskets in FSC™-certified paper (FSC-C166612)
- OEKO-TEX® standard 100 certified pillows, throws and rugs
- Candles with the Nordic Swan Ecolabel

Have a seat

Comfortable and colourful chair with metal frame. A delight for the eye, the chair ensures many hours of excellent seating comfort at a dining table or desk. The chair can also be used to hold clothes in the bedroom. The product's wood component is FSC™-certified oak (FSC-C166612).

THE CHAIRS COME WITH A BLUE FRAME AND BROWN COVER OR GREEN FRAME AND PINK COVER.

THE VASES SPREADS CHEER
WITH ITS AMUSING LOOK AND
VIBRANT COLOURS.

Humorous vases

with beaks
and eyelashes

Stylish vase in stoneware with beak and eyelashes. The bright vase comes in two sizes and is decorated with hand-painted stripes in green, yellow, brown or blue.

Light up

FUN AND WHIMSICAL CANDLESTICKS IN
COMPLEMENTARY COLOURS THAT BRING HOPE,
SMILES AND JOY.

For chilly

SOFT THROWS IN WOOL, ACRYLIC AND POLYESTER, IDEAL FOR CHILLY DAYS. THEY ADD WARMTH AND GLOW TO EVERY ROOM IN THE HOME. THE THROWS CARRY THE OEKO-TEX® STANDARD 100 CERTIFICATION.

VILLA STYLES IS A TOUCH OF FRESH
COLOUR FOR SCANDINAVIAN DÉCOR.

INSPIRED BY THE
BRANCHES OF A TREE
EXTENDING UP TOWARDS
THE SKY

stoneware organic

Reminiscent of hand-crafted ceramics

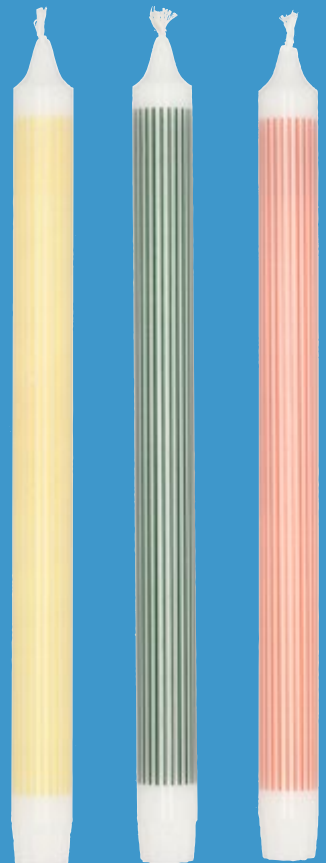

We love the imperfections and organic shapes of nature, and we've channelled it into this beautiful stoneware candlestick. It was inspired by trees with branches extending up towards the sky. The rustic look of the candlestick is reminiscent of hand-crafted ceramics. The yellow or blue colour of the base brings hope and joy while remaining classic and Nordic.

100% stearin

The crowntop candles are made of 100% stearin and feature a graphic look with narrow, coloured stripes in red, blue, green or yellow. They add colour to the home in a discreet way. The candles carry the Nordic Swan Ecolabel.

Paper vases

For fresh and dried flowers

Water and paper aren't usually a good combination, but we have designed an absolutely amazing vase in hand-woven paper. Four vases come with a glass insert for water, and the two large models are for dried flowers. Accompanied by a lovely basket you can use to store whatever you like. The products are made from FSC™-certified paper (FSC-C166612).

Colourful days

WE REMEMBER THE COLOURFUL DAYS WHEN GLASS FRUITS WERE USED AS DECORATIONS IN THE HOME. NOW IT'S TIME TO INVITE THEM BACK IN. NATURE BECKONS IN PINK, AMBER AND GREEN.

Natural materials and good craftsmanship

Villa Collection Denmark is the epitome of creativity and classic, Nordic DNA. Our mantra is that it should be simple and easy to follow current interior trends without compromising on the quality of the detail or materials. So we primarily work with home accessories where craftsmanship plays a major role, as things made by hand are created with a passion that comes straight from the heart – and that's clear when you see it in your home.

Simple yet beautiful packaging

Villa Collection Denmark is representative of the modern Scandinavian mood with a cool international look, and our products are a stylish and simple addition to any modern interior.

All Villa Collection Denmark products come in a brown box with a white label.

The Villa Styles label comes in four different colours that match the product.
