performance

Modular design allows flexible buffet displays by mixing stoneware and cork pieces.

Use pieces vertically or horizontally for varied dimensions and creative presentations.

Stoneware pieces can also be used independently.

Can stand alone as a statement piece or coexist with other collections that share the same aesthetic.

Designed by Carsten Gollnick for hosts who want to offer their guests a distinctive aesthetic experience during buffets, going beyond gastronomic quality. A cork staircase serves as the collection's core, enabling flexible stacking of stoneware elements for innovative presentations. Tilting and positioning these elements vertically allows for the creation of striking backgrounds and visual depth. ESCADA is designed to offer multiple presentation solutions in terms of height and depth. The various flat and staircase-shaped stoneware pieces can be stacked and positioned freely.

«ESCADA is a versatile buffet collection for hotels, inspired by the architectural building traditions of the cities and the wide horizons of the Portuguese countryside. Regional materials that reflect the history of Portuguese artisan culture and nature are an integral part of the concept.»
