### Product Description

The NORDIC-DESIGN table lamp models BOT09-2-SL and BOT09-3-SL emit depending on the model either warm or cold white light. The lamp is battery operated with standard AA Alkaline or rechargeable NiMH batteries. The illumination time per battery set for models BOT09-2-SL is 45 hours @45 lm and for models BOT09-3-SL is 120 hours @15 lm. On/Off-switching of the lamp is done by turning the rod against the bottom stand.

The NORDIC-DESIGN table lamp models BOT09-4-SL emit depending on the model either warm or cold white light with a light intensity of 15 – 40 Lumen which is dimmable in two steps. On/off-switching of the lamp is done by turning the rod against the bottom stand, and if the rod is turned a bit more in on-state a second intensity level occurs. The lamp is operated with standard AA Alkaline or rechargeable NiMH batteries. The illumination time per battery set is 100-120 hours @ 15 Lumen, and 45 hours @ 40 Lumen.
