CANCAN®

• SINCE 1958 •

Horeca Equipment For Professionals

Horeca Equipments for Professionals Since 1958...

CANCAN was founded in 1958 by the late Salih Özüüğürlü in its production center in Ankara, in order to serve the food sector.

As the second generation, Tunç ÖZÜÜĞÜRLÜ who took over the management and continues to manage the company, saw that the foodservice industry would develop more and more in Turkey.

In 1994, the company received the trademark registration. The company located in Ankara, İvedik Organized Industrial Zone, started its production in Sakarya since the year 2000.

Today, our company, which operates in its 6500 square meter production facility in Sakarya with the production of manual and automatic orange, pomegranate, grapefruit, lemon juicing machines, washing equipment, can openers, cutting and peeling machines, has a 50 thousand annual production capacity.

CANCAN manufactures all products under one roof and exports 50 percent of its production, worldwide.
