

SUSTAINABILITY

We are dedicated to a sustainable future, enhancing the social, economic and environmental well-being of our community.

ZEBRA is committed to building a sustainable future. We not only **reduce carbon emissions** and **using renewable energy**, but we also **develop eco-friendly products**. All **ZEBRA Eco pens** are made from **recycled materials** or from **biomass plastic**. We strive for sustainable packaging and waste reduction to contribute to a greener planet.

At ZEBRA, sustainability is a core principle of our business. We strive to **have a positive impact on the environment**. Businesses across all sectors are increasingly aware of their ecological footprint, and we are no different. Our sustainability efforts, whether large or small, are designed to lead to a significant positive impact on our planet and future.

with **HB LEAD**

Sarasa Clip

76% recycled plastic

Sarasa Clip is an eco-friendly, retractable gel pen with a strong alligator clip for easy attachment of the pen. The harmony between the body and the ink colors allows you to instantly identify the ink color. Available in more than 20 stunning colours and in 0,4 / 0,5 / 0,7 / 1,0 mm point sizes.

 **Refillable**
with **JF REFILL**

Mckie Care Extra Fine

71% recycled plastic

Mckie Care Extra Fine is available in four standard colors: Black, Blue, Red and Green. This pen is ready to write on foil, glass, plastic or any other surface. It's an alcohol-based, dual-ended marker with waterproof ink that dries quickly and lasts. On end has a fine needle tip and on the other has a round tip. The ink color matches the body color of the pen, with point sizes of 0,5 mm and 1,0 mm.

bLen

58% recycled plastic

BLen is an award-winning Japanese pen with a 0,7 mm Blue and Red ballpoint and a 0,5 mm mechanical pencil in one plastic body. Available in Black, Blue-Green, and Pink colors. It provides an innovative vibration-free writing experience to make the pen more stable and easier to control. It is designed with a gap-free internal system to reduce noise and a brass weight at the tip to lower the centre of gravity.
