PLANET FRIENDLY CANDLES

handmade from
plant-based

wax

AW25/26

SHARE YOUR LIGHT WITH THE WORLD!

PLANT-BASED CANDLES

environmentally
friendly produced

The Fairtrade certified candles are made from certified plant-based wax and hand poured in a small factory in Java, Indonesia. The factory offers the rural women from East Java employment opportunities, training and fair wages to empower them to support their families. Design and colour scheme by originalhome.

- ☐ MADE FROM CERTIFIED PLANT-BASED WAX
- ☐ CLEAN BURN
- ☐ FAIRTRADE CERTIFIED (WFTO)
- ☐ HANDMADE
- ☐ SUPPORTS SMALL COMMUNITIES
- ☐ ONE CANDLE PLANTS ONE TREE

Giving back

ONE CANDLE, ONE TREE

Trees can change lives. Originalhome plants one tree for every candle sold via Trees for the Future. This non-profit organisation works with thousands of farming families in Africa to restore land and break the cycle of hunger, poverty and environmental degradation. Together, we can green up the planet and improve the lives of many farming families. With trees, tools, and training programs, TREES teaches farmers how to sustainably farm their land, so both the people and the planet can thrive long-term. One candle, one tree is part of originalhome's giving back program.

BENEFITS

To reduce poverty among farmers and improve their family nutrition, Trees for the Future helps farmers plant a variety of trees on their land. This has many benefits.

For the people:

- Improves food security
- Family access to diverse nutrition
- Increased and more reliable income

For the planet:

- Improves landscape
- Repairs soil
- Supports biodiversity
- Storing of CO2

Let's start planting!

Makers

THE CANDLE POURERS FROM EAST JAVA, INDONESIA

The founders of the candle factory started their business for a specific reason: giving back to their community in East-Java, Indonesia. Their starting point was to empower the community by creating more job opportunities. The founders could have easily operated their business with machines; however, this would not have been in line with their goals. They set up a workshop that produces vegan candles entirely by hand. More hands means more job opportunities for rural communities because these areas suffer from high unemployment rates. The majority of their workforce consists of rural women. They receive a special candle pouring training program, English classes and other life skill lessons to increase their family income.

The WFTO certified workshop provides these women with a safe working environment, fair wages and free medical insurance for themselves and their families. This way of working empowers these rural women to become more independent and increase the respect they receive from their community.

CANDLE MAKING CRAFT

All candles in the originalhome collection are poured by hand. The process is simple but requires a lot of patience and concentration. The vegan wax is melted in big kettles and then poured into jars. The jar is used to pour the liquid wax into an iron mold that contains a cotton wick. Candle pouring is actually a very precise skill. The wax should be poured into the mold in one fluid motion to create a consistent candle. This requires control and concentration. It is said that women are the best candle pourers.

SUPPORTING HUMAN RIGHTS

In a time of rising global conflicts, human rights are under increasing pressure everywhere. At Originalhome, we stand for unity, dignity and equality, and we advocate justice. To support human rights, we are introducing the Symbolic Flag Candle Collection. With every candle you buy from this collection, 100% of the profit will be donated to Amnesty International, the global movement that defends human rights. From protecting LGBTQIA+ communities to helping victims of war and violence, their work delivers hope, justice and real impact where it is needed most. Join the movement and speak out for justice, too. Your support matters.

Make a real impact:

Every sale donates directly to Amnesty International to fund their human rights advocacy work.

Celebrate inclusion:

The collection celebrates diversity and brings people of all backgrounds together.

Stand for human rights:

Every candle becomes a symbol of solidarity, raising your voice for equality, dignity, and human rights.

ZEN FOREST LUXURIOUS SCENTED CANDLES

These fair trade candles are hand-poured in a small workshop in Bali, Indonesia, using a new coconut wax blend. The luxurious scent of the Zen Forest candles takes you on a sensory journey through a dewy forest, restoring your well-being. Inspired by Shinrin-yoku, the Japanese art of forest bathing, these candles calm the senses, increase inner peace and leave you feeling refreshed.

- ☐ VEGAN CANDLE FROM COCONUT WAX BLEND
- ☐ 100% NATURAL COLOURINGS AND FRAGRANCES
- ☐ PHTALATE AND PETROLEUM FREE
- ☐ HAND-POURED ON BALI, INDONESIA
- ☐ SUPPORTS WOMEN ENTREPRENEURSHIP
- ☐ ONE CANDLE PLANTS ONE TREE

CARE INSTRUCTIONS

To improve the lifetime of your quality candle please read the instructions below.

CARE INSTRUCTIONS

- Clean the candle with a soft, dry cloth to remove the candle dust. Candle dust is a thin layer that occurs when candles are exposed to large temperature differences.
- Trim the wick regularly to 1 cm in length to prevent the candle from burning too quickly.
- Place it on a flat, heat resistant surface and keep it away from draft.
- Do not place the candle close to a heat source or sunlight to avoid melting or colour fading.

SAFETY INSTRUCTIONS

- Never leave a burning candle unattended.
- Keep away from children and pets.
- Place candles at a distance of 10 cm from each other to prevent candles from dripping.
- Keep candles away from draft and flammable materials (before lighting the candle), this also includes other (paraffin) candles.
- Place the candle on a flat heat-resistant surface. Please make sure that the candle is fixed and cannot fall over.
- Do not place a burnt match or other materials in the candle grease (do not light the candle with another candle).
- Use a snuffer to extinguish a candle or blow carefully while holding your hand behind the candle.
- Do not add water or any other fluid to the candle.
- Do not move a burning candle.
- Place the candle straight up to prevent the candle from dripping and smoking.
- Do not mix paraffin wax or any other burning material with plant-based wax.

Please check our safety instructions at originalhome.nl/care-instructions/candles-from-plant-based-wax
