

M® MIQUELRIUS

EXPRESSING EMOTIONS
SINCE 1839

25/26

GIFT

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be recorded to ensure the integrity of the financial data. This includes not only sales and purchases but also expenses and income. The document provides a detailed list of items that should be tracked, such as inventory levels, accounts payable, and accounts receivable. It also outlines the procedures for recording these transactions, including the use of double-entry bookkeeping to ensure that the books balance.

The second part of the document focuses on the analysis of the financial data. It explains how to calculate key financial ratios and metrics, such as the gross profit margin, operating profit margin, and return on investment. These metrics are used to evaluate the company's performance and identify areas for improvement. The document also discusses the importance of comparing the company's performance to industry benchmarks and competitors.

The third part of the document addresses the preparation of financial statements. It provides a step-by-step guide to creating the income statement, balance sheet, and cash flow statement. It also explains how to interpret these statements and what they tell you about the company's financial health. The document includes sample financial statements and explains how to use them to make informed business decisions.

Finally, the document discusses the importance of financial planning and budgeting. It explains how to create a budget that reflects the company's goals and objectives, and how to use it to track progress and adjust as needed. It also discusses the importance of monitoring the company's financial performance over time and making adjustments to the budget as necessary.

BUSINESS COLLECTIONS

Practical designs for everyday professional life

At Miquelrius, we design for the new generation of professionals: active, urban, and versatile people who balance office work, external meetings, remote tasks, and frequent travel. Professionals who value functionality but also care about their style and look for products that adapt to a changing, dynamic, and flexible work environment.

Our business-focused collections are designed to accompany them during the day, offering practical solutions, durable materials, and sober designs that express personality without being flashy.

Bag to Work is a line created for those who prefer a discreet style, with resistant finishes and functional and elegant designs for everyday work life.

Urban Soft, on the other hand, appeals to those seeking a more modern and relaxed approach: padded fabrics, soft colors, and a contemporary design that fits into creative or informal environment, without compromising on practicality.

ECOALF

Ecoalf was founded in 2009 with the vision of no longer using the planet's natural resources indiscriminately, along with the mission of creating a new generation of recycled products with the same quality and design as the best non-recycled ones.

With a longstanding dedication to paper, Miquelrius has over 180 years of experience in creating iconic notebooks.

Together, we offer this collection made with recycled and recyclable materials.
