

Throughout our 85-year track record, at BETIK, we have always been faithful to a premise: that function and design must work together. Our wide range makes it hard to define us, but one thing we are sure of is that we want to create and market quality, versatile and functional products for a better gastronomic experience for all our customers, however simple that is.

---

## BOLD BY DESIGN

---

There are more and more exclusive and proprietary design products in our catalogue. This year there are more than 200. Plates, glasses, pitchers, cutlery, accessories... ideal for new tastes, new formats and new ways of experiencing every moment; an endless source of inspiration so our team can keep creating new ideas, designs and solutions.

KUBE collection

---

# A COLLECTION

---

# FOR EVERY OCCASION

---

If there is one thing we want to highlight in this catalogue, it is the new exclusive collections in reusable materials for HOSPITALITY. Meticulous, elegant, visually attractive collections and that are ahead of all the trends on high-end tables and terraces.

KEA collection

---

# A WHOLE LOT MORE THAN JUST TABLEWARE

---

At BETIK, we are defined not only by what do we do, but also by how do we do it: constantly seeking new solutions, prioritising care for design and incorporating more and more sustainable materials. And all with best team, so we are always able to provide the best service.

---

**KOSKA**

---

The most sustainable collection, made entirely from recycled and recyclable material.

---

**KALA**

---

Glasses, wine glasses and pitchers in acrylic with an exclusive design, ideal for outdoor use as they are highly resistant.

---

**KUBE**

---

The most original and entertaining pitcher and glasses set. Without doubt, a refreshing touch for your terrace.

---

**KEA**

---

A twist on stainless steel, with mystery, elegance and originality in tones of silver and copper.

---

**KADOS**

---

Cutlery made for the most demanding. Because yes, our knives really cut!

---

**KAROLA**

---

The first of our collections, still as alive as ever, and growing with new sizes and formats.

## INNOVATION

---

- **In constant search of new functionalities and materials**
- We have incorporated 4 collections and 200 new products in this catalogue with respect to 2025
- We are pioneers in the design of sugarcane plates, melamine tableware and tableware in recyclable and reusable materials such as rPET

## VERSATILITY

---

- **A “one-stop shop”** thanks to our:
- **Over 1000 products** in stock
- +14 product families
- Diverse materials available
- Ability to customise products for our customers
- Option to supply unbranded or private label products

## SERVICE

---

- **Always adapting to the needs of our customers and the market**
- Each customer is assigned a dedicated Betik key account manager
- A team of 20 agents in Spain and Southern Europe
- 48-96 hour delivery within mainland Spain
- Shipments throughout the EU
- **Three warehouses in Europe** with a total storage capacity of 15,000 pallets

## SUSTAINABILITY

---

- **Incorporating recyclable and compostable product alternatives to reduce environmental impact**
- Our compostable range stands out in particular
- Materials: sugarcane, palm leaf, wood, bamboo and paper

KALA collection

## AHEAD OF THE EUDR REGULATIONS

Well ahead of the demand of the market and of the planet, at BETIK we have just successfully completed our adaptation to the EUDR regulation (regulation on deforestation linked to products imported into the EU), which enables us to obtain full traceability of our products from the start. One more step in our commitment to sustainability, transparency and environmental responsibility.

KAROLA collection

### COMMITTED TO GASTRONOMY

We are partners with the Basque Culinary Center, a pioneering academic institution with an international reputation. Thanks to this alliance over the last three years, Betik has become a leader in the professional gastronomy sector, warmly welcomed and recognised by chefs, restaurants, bars and other in the hotel and restaurant sector.

---

# MATERIALS

---

Serve with purpose, innovation and responsibility.

---

Biodegradability is the ability that substances and organic materials have to decompose into simpler substances through the (enzymatic) activity of microorganisms. Compostability is an organic matter's ability to become compost through the process of composting. Composting is an aerobic biological process (which takes place in the presence of oxygen), controlled by people. It results in the production of a mixture of organic matter. Recycling is a process that aims to convert waste into new products or starting materials for subsequent use.

|   |  COMPOST |  |  |  |  |  |

# REUSABLE

We are continuing our commitment to our reusable range, where we have incorporated new collections in materials as varied as Tritan, stainless steel and recycled PET.

Elegant collections with very current designs that also offer high versatility, durability and resistance as they can be used time and time again.

# COMPOSTABLE

With our wide range of compostable products, we would like to show that comfort, function and sustainability are not incompatible.

Manufactured in biodegradable materials such as sugar cane, palm leaf and bamboo, our compostable tableware collection is a great option for your events due to their attractive shapes and textures, in addition to being ecofriendly, as they degrade in the ground naturally and safely.

# RECYCLABLE

We remain firm in our commitment to plastic- and PFAS-free products. Therefore, our range of recyclable products in cardboard, paper and wood are an excellent alternative to single-use plastics, as these materials can enjoy a second life when they are reused.

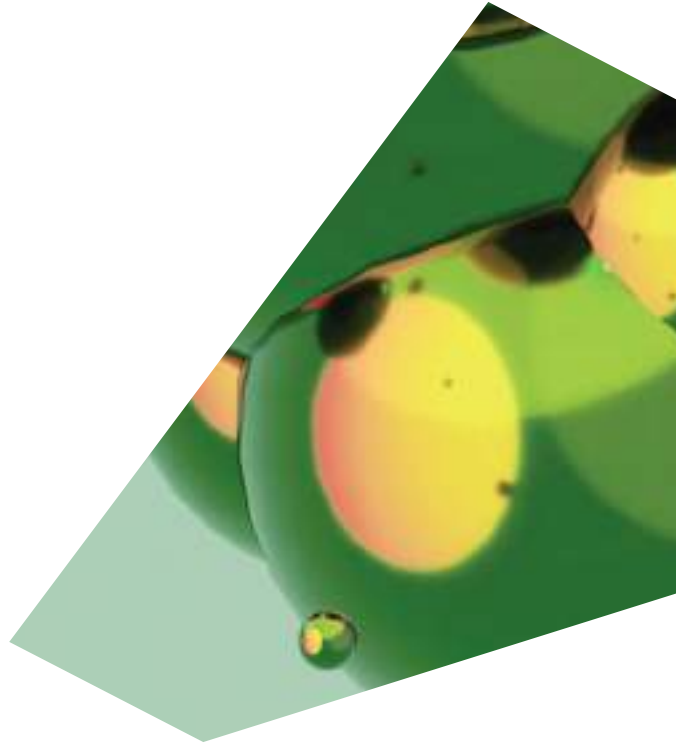

In addition, due to the application of the EUDR regulation, we have full traceability of the origin of the raw materials used in our containers, glasses and accessories, thus helping to prevent deforestation and guaranteeing their recyclability, in compliance with the strict European regulations.
