## PRESS RELEASE

Schmalkalden, 07.02.2025

### **Maximum flexibility for the hotel industry and commercial sector: dietschCONTRACT presents the premium sofa bed 'SLEEP'**

**Thuringia** – Maximising room occupancy without compromising on comfort is one of the key challenges in the modern hospitality sector. With its new **'SLEEP'** model, Dietsch Polstermöbel GmbH now offers a tailor-made solution under its **dietschCONTRACT** label. This functional furniture, specially developed for the contract sector, combines the aesthetics of a stylish lounge sofa with the sleeping comfort of a full-size bed.

#### **A symbiosis of design and functionality**

Developed to meet the high demands of hotels and holiday resorts or for use as extra beds in medical facilities, **'SLEEP'** impresses with its clear, timeless lines when closed. Compact dimensions ensure that the furniture fits seamlessly into modern room concepts.

The decisive advantage for daily use lies in its handling: a robust one-hand folding mechanism enables intuitive and safe operation – both by housekeeping staff and by guests themselves. In a matter of seconds, the elegant seat is transformed into a comfortable place to sleep.

#### **Genuine relaxation instead of a temporary solution**

Unlike conventional pull-out sofas, guests do not sleep on the seat surface with this model. **'SLEEP'** has a separate, full-size mattress on an ergonomic base. This guarantees excellent sleeping comfort while also protecting the sofa's upholstery fabric, ensuring long-lasting aesthetics even with intensive use.

**Geschäftsführer** Christian Maurer, Christoph Minow

## Variable sizes for any space

To accommodate different space requirements, dietschCONTRACT offers the model in three different lying surface widths:

- **85 cm:** As a space-saving armchair sleeper for individuals.
- **145 cm:** The classic solution for two people.
- **165 cm:** Generous comfort for discerning guests and suites.

## Quality and investment security

As part of the dietschCONTRACT line, the 'SLEEP' model also stands for the proven values of the Thuringian company: regional manufacturing, solid construction and strict quality controls. By using robust mechanisms and high-quality materials, Dietsch offers commercial customers investment security and durable products that can withstand even the toughest everyday use.

## About Dietsch Polstermöbel GmbH

Dietsch Polstermöbel is a traditional manufacturer from Thuringia that stands for excellent craftsmanship, ergonomic comfort and tested quality. As a responsible company, Dietsch combines regional production with sustainable processes to create high-quality furniture for residential and commercial use.
