

Grate On Your Palm

irogami piece of grater

A grater shaped like a piece of paper
with a curled corner.
The curled corner fits the edge of your palm.

You can grate cheese, zest lemon,
or anything you like with a new feeling
as if you grate directly with your palm.

You can grate garlic, ginger,
chocolate and etc.,
and sprinkle over the dish at the table.

It's an easy and fun experience!
