MICHAEL

Michael Aram is an award-winning artist who has dedicated his career to craft-based design. Inspired by a trip to India at age 25, he established a second home and studio there, where he continues to draw creative inspiration today.

Trained as a painter, sculptor, and art historian, Michael has neatly applied his diverse background to the decorative arts. Lyrical and often witty, his work encompasses a wide range of media and reveals a rich and variant source of inspiration—nature, mythology, narrative storytelling, and purified form. Michael's work is also a celebration of craft and age-old hand working traditions. It is the enduring fusion of these ideals—originality, narrative, and craftsmanship — that has become the hallmark of this gifted artist.

“There is a tremendous reflection of our own humanity in handmade objects. When you make things by hand, somehow that energy, that tension, that passion, all gets absorbed into the object. Objects are powerful. The trace history, trace our passage through time, they capture memories for generations.” - M.

MAKING

A deep love for the handmade process is at the core of everything Michael makes. Fascinated with the richness of the living crafts tradition, which he discovered on his first trip to Delhi, Michael would seek out craftsmen in the old city by listening for the sound of metal being beaten and by searching for the aroma of baked molasses, a signal of the sand casting process. The artisans he encountered were making ordinary objects such as buckets, shovels, and scissors, but for Michael, their traditional techniques were extraordinary. Michael spent hours observing artisans as they made things the same way families had made them for centuries. Touched by the talent and humility of these gifted artisans, Michael set up a studio in India where he has created his work for over 35 years. Today, over 200 artisans work alongside him in his workshop, where the same creative interaction between artist and artisan remains the source of every object that Michael makes.

MOTIF

Michael is highly inspired by his surroundings and often makes sculptures of objects that might otherwise be overlooked, in the everyday. Nature is his biggest muse, as is the handmade process. His work combines the imperfections innate in the handmade process with the perfectly imperfect beauty of nature to create objects that reflect humanity. Many of his pieces are ingrained with a rich storyline, inherent symbolism, and deep-rooted meaning. Sometimes his work is simply an exploration and celebration of the handmade process.

LOVEBIRDS

The Lovebirds Collection celebrates love and the deeply engrained nature in us all to bond with one another. The branch that the birds perch upon symbolizes growth and evokes tree of life imagery. The white, four-petaled flowers represent wholeness, unity, and innocence.

"There is a certain vulnerability in opening your heart and letting your connection with someone blossom. I am fascinated by the way Lovebirds take care of each other in nature, courting each other, feeding each other, and creating lifelong connections in a way so parallel to the human experience." - M

WILDFLOWERS

The Wildflower Collection is a celebration of often overlooked, disregarded, and underappreciated flowers. The inspiration for Wildflower came from the discovery of a set of 19th century hand-tinted, botanical illustrations which, over time, had faded to muted, dusty tones. Touched by how beautifully each wildflower had been rendered in the antique drawings, Aram took great care to capture and recreate the naturalistic movement and gentle hues in hand-enameled and sculpted metal. Uncultivated by definition, wildflowers, as interpreted by Aram, reflect the ideal of "perfectly imperfect" and capture a sense of carefree innocence in the fleeting joyfulness of nature.

"I treasure the delicate colors and spontaneous, random shapes of wildflowers I discover while walking on untended and overgrown fields and pathways. The twists and turns in each petal and the joyful sense of their random color palette feels almost childlike. I hope this collection brings a smile to your face the same way it does to mine." - M.

BLACK ORCHID

The Orchid Collection celebrates the ethereal spirit of the orchid plant. Symbolic of purity and grace, this collection captures the delicate nature of orchids while also expressing a quality of mystery and sensuality.

"There is something so captivating about orchids. In black, orchids appear more seductive, like a woman wearing a black velvet gown in a glassy urban high-rise. The dark atmosphere of the black orchid is more sensual to me, like the afterglow of a beautiful evening. I am fascinated by this mystery behind a black orchid's origin, and the question of if they truly exist in nature." - M.

BUTTERFLY GINKGO GOLD

Inspired by the captivating “Butterfly Ginkgo” tree, this collection celebrates the idea of metamorphosis with Aram crafting leaves and twigs in metal that seemingly take flight from the branches as butterflies. The solid brass sculpts, polished to a gold hue, exude a fresh vibrancy and energy. Cocoon-like vessels are hand polished to a mirror-like finish, reflecting radiant sculpts to create a sense of wonder and intrigue. White enamel butterflies add a refined touch of ethereal beauty. The Butterfly Ginkgo Gold Collection pays tribute to Michael’s original Butterfly Ginkgo Collection, which first debuted in 2011 and shortly thereafter became one of the most iconic motifs in Aram’s oeuvre. With the launch of this second generation interpretation of one of his favorite collections, Aram breathes new life into one of his most poetic motifs.

“I still remember making the first rendition of Butterfly Ginkgo and knowing in my heart that it would become an important motif for me. Inspired by a ginkgo leaf blowing through my bedroom window one day, I looked at the ginkgo tree outside with fresh eyes, imagining its leaves as butterflies ready to take flight.” - M

BUTTERFLY GINKGO

The Butterfly Ginkgo Collection celebrates the representation of flora as fauna. Michael's fascination with a particular type of ginkgo tree, the Ginkgo Biloba, or "Butterfly Ginkgo", which grows with a double leaf reminiscent of a butterfly's wings, gave rise to a fantasia image of the plant. Executed at the highest level of handcraftsmanship, each piece is rendered in solid brass with hand etched cocoon-shaped vessels. The pieces in the collection are a tour de force of the handcrafted process, capturing the poetic spirit that is so deeply indicative of Michael's work.

"The first time I saw this tree, it literally looked like it had been completely overtaken by butterflies... as if they would all take flight the moment I walked too close or made a noise. The idea that the leaves could evoke the beauty of butterflies was magical to me, like trees that can metamorphose from flora to fauna in the blink of an eye." - M.

GOLDEN GINKGO

The Golden Ginkgo Collection takes its inspiration from the intricacies of form and texture found in foliage from around the world. By interpreting plant forms in cast metal, Aram presents work which is evocative of a natural environment transformed and redefined.

"These pieces have wonderfully undulating leaves, which create an almost rococo surface of playful, delicate, and intricate forms. By combining the individually sculpted leaves, the natural forms join to create a complex patterning. I've tried to capture that sense of movement and fragility in metal." - M.

CALLA LILY

The Calla Lily Collection is inspired by the beauty of the calla lily flower. The architectural, curving shape of the flower is strong, yet suggests an intense sensuality. The flower is associated with weddings as is symbolic of purity and innocence.

"I was thinking of the romance of weddings and how bouquets often use flowers which carry symbolism. I remembered a picture of a woman I had seen holding her bouquet of calla lilies. She was classic, timeless, and modern all at once. There is something so alluring about the billowy flowers and arching stems which feel contemporary, yet still utterly romantic." ~ M.

CHERRY BLOSSOM

The Cherry Blossom Collection is inspired by the liveliness and vitality of the Japanese flower as it blossoms each Spring. Embodying the ideals of renewal, Michael is captivated by the intricate nature of the flower and the symbolism that it holds. Representing fragility and the beauty of life, the Cherry Blossom Collection combines soft, muted pink tones with golden brass and white marble to add a delicacy that exhibits the pure beauty of nature.

"I have always been fascinated with the Cherry Blossom and its symbolism with the cycle of life. I find the ephemeral beauty of the blossoms and their way they burst into bloom, however fleetingly, truly inspiring." - M.

DAHLIA

The Dahlia Collection captures a sense of romance, intricacy, and opulence. In the Victorian era, Dahlias were given as a symbol of love and devotion. In certain pieces, Michael has chosen to contrast the radiant golden blooms against black granite and enameled stainless steel, evoking a mysterious sensuality. When found in nature, the petals' perfect symmetry and spiraling pattern embody the Golden Ratio.

"When you hold a Dahlia in your hand, it is like seeing the whole universe. Each interconnected petal, perfectly imperfect and in harmony with the next, comes together to create something magnificent." - M.

DANDELION

The Dandelion Collection drifts on the wings of a wish. In many cultures, dandelions are a symbol of hope and healing and are thought to possess the power to turn dreams into reality. Whether closing your eyes to scatter their seeds, or clutching to shout your wish into the wind, the shape of the dandelion conjures optimism and magic.

"I'm drawn to the overlooked beauty of the dandelion. While generally considered undesirable in the garden, the sight of their fluffy seeds floating and suspended in the air is one of life's simple pleasures. Here I've tried to interpret that weightless grace." - M.

FORGET ME NOT

The Forget-me-not Collection is symbolic of faith and renewal. As the name suggests, the flowers are traditional tokens of memory, conjuring eternal promises of love and fidelity. The forget-me-not is personally special for Michael, as it is closely associated with his Armenian culture as the symbol of remembering those we've lost in the past. The flower expresses a theme of undying love, while also meant to evoke the past, present, and future.

"There is something inspiring and sublime about forget-me-nots. The flower's hues combine the stability of true blue with the passion of deep red. I see them as an emblem of faith and devotion, and as a symbol for those you love today, as well as those who will always live in your heart." - M

HEART

The Heart Collection is built around the simple but universal symbol of love, hope, friendship and caring. The shape of the heart creates instant responses in us all and carries a world of meaning that changes according to the intent of both the giver and the recipient. In Aram's version, the classic motif is interpreted through ancient techniques of handcraftsmanship.

"These heart pieces are all unique as they are hand forged and cut. There is an individuality to each object, just as our hearts and expressions of love are different from person to person, from moment to moment. I imagine that as we use these simple objects, they serve as nostalgic mementos of love." - M.

LOVE KNOT

The Love Knot Collection is an everyday reminder of the strength of togetherness. Beautiful and timeless, knots have been used since antiquity to symbolize love and unity. Whether gifted to someone special or chosen for oneself, Love Knot celebrates the idea of connectedness to a greater whole.

"I am drawn to the idea of knots. With no beginning or no end, their twisted, figure-eight like shapes speaks to an eternal bond. The braided ropes show the merging of two elements, coming together into something larger and greater than themselves - as all our loves should be." - M.

MUSHROOM

The Mushroom Collection is inspired by the whimsical magic of fairy tales. Humbly emerging from the earth, these fungi have been known for thousands of years to contain mystical powers. They have been used by shamans from cultures all over the world to procure enlightenment and celebrate the deep interconnectedness of life. Michael's iconic Butterfly Ginkgo is perched upon each piece, further tying in the notion of metamorphosis and transcendent experiences.

"Mushrooms sprout from nothing yet capture a sense of fantasy. Like in classic fairy tales with gnomes and fairies, I imagine mushrooms carpeting an enchanted forest floor in a way that is utterly phantasmagorical." - M.

MOLTEN

The Molten Collection takes its inspiration from the lore of ancient artisans and the application of these time-honored techniques to modern shapes and environments. It is about the transformation of the industrial to beautiful, the technical to lyrical. The collection echoes the clean lines and minimal atmosphere associated with aesthetic ideals of contemporary life and progressive design. Intricate, hand welded edges make each individual piece a unique work of art.

"The Molten Collection represents a way of living, which I really love - streamlined, timeless shapes ... objects which reverberate with the skill of their maker and yet do not fit into a traditional interpretation of craft. For me, the pieces possess a soulful, organic energy only possible through the handmade process. Each molten bead is heated and dropped onto the edge of the candleholders... if it's too hot the bead will flow like water. If it's too cool, the bead will not adhere to the edge. Each bead is like a unique drop of falling rain, rhythmically frozen in time." - M.

The Orchid Collection celebrates the ethereal spirit of the orchid plant. Symbolic of purity and grace, this collection captures the delicate nature of orchids while also expressing a quality of mystery and sensuality.

"There is something so captivating about orchids. Rendered with white enamel over golden brass, each bloom glistens with quiet vibrance. The elegant composition of finishes creates a perfect balance, evoking a feeling of subtle luxury. Each stem feels so delicate and weightless, belying the fact that the pieces are forged in metal and anchored in marble, crafted to last an eternity." - M.

OCEAN REEF

The Ocean Reef Collection is inspired by the bounty and beauty found on the ocean floor. The ocean is symbolic of freedom and limitlessness, and coral represents renewal and strength. Coral reefs are also associated with healing, transformation, and refuge in the face of change.

"I was inspired by the resilient beauty and the tranquility of the undersea world. I remember picking up shells and bits of coral as a child and imagining the quiet strength of the undersea universe from which they came." - M.

OLIVE BRANCH

The Olive Branch Collection is one of the best known and most loved of Michael's motifs. The simple forms create objects that serve wonderfully as stunning individual gifts or an exuberant table setting that decorates an entire moment of your life. The theme itself captures all the most distinctive aspects of Michael's work - narrative strength, deep symbolism and extraordinary sculptural expression.

"The olive branch has always held a powerful meaning for me representing both peace and victory. In designing functional objects with natural forms, there is a mingled sense of fragility and intensity. For me, it is like nature spreading through my interior spaces - like a magical olive grove sweetly willing its way into my home." - M.

PALM

The Palm Collection is inspired by the beauty of a windswept palm tree and the perfectly imperfect shapes of woven palm leaves and fallen fronds. The warm antique gold finish and the intricate sculpted textures exude comfortable luxury and graciousness.

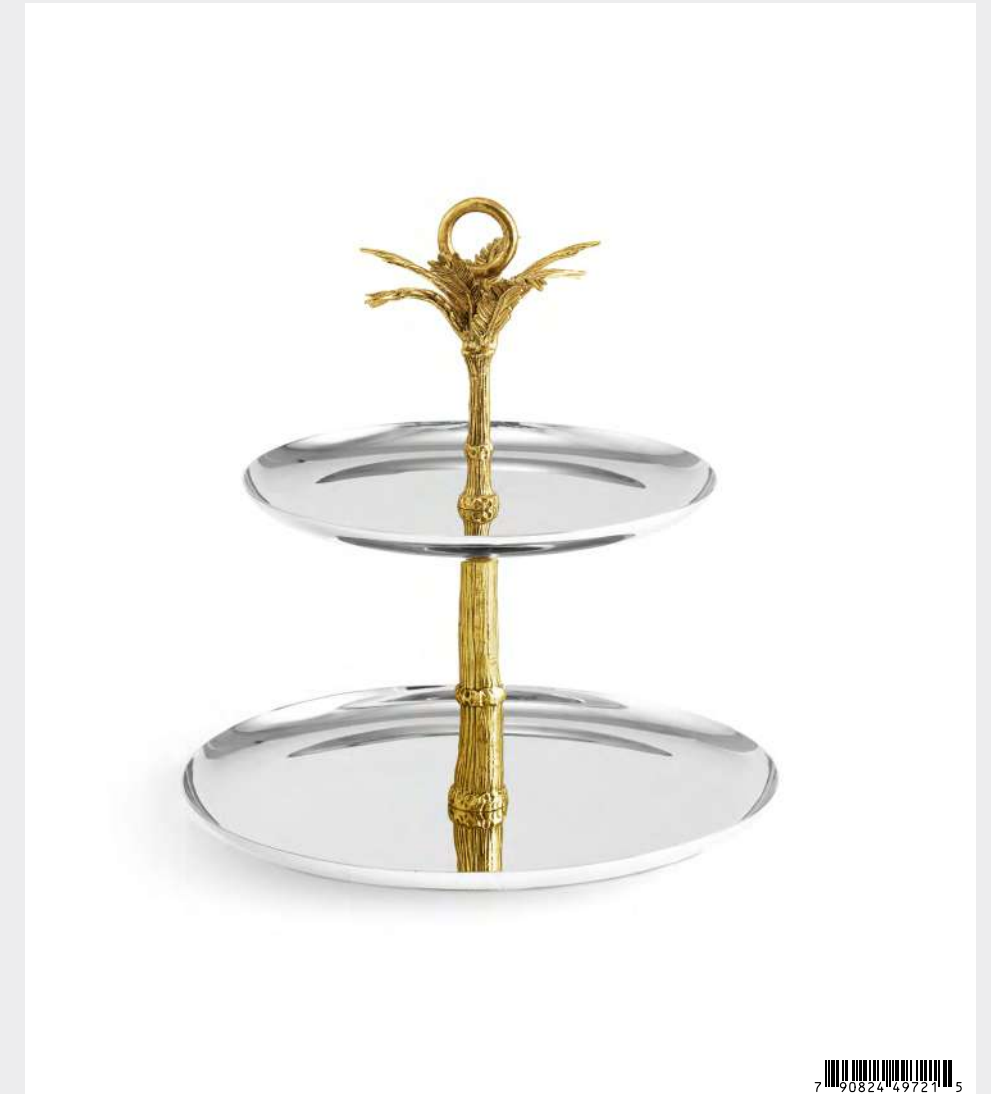

"I was having lunch with friends on a veranda overlooking the sea when I looked down to the lawn and saw a fallen palm frond. The leaves were all twisted and curled, yet it stood out magnificently against the otherwise perfect landscape. It made me think of the passage of time, and the bountiful gifts of the Palm tree, which provides everything from food to shelter." - M.

PINE CONE

The Pine cone collection, with its antique gold and darkened bronze patinas, celebrates the glow and warmth of the holiday season. Inspired by a fallen pinecone kept on his desk, Aram has always been intrigued by pinecones and their ancient symbolism. The Greeks and Romans, as well as other cultures throughout history, have incorporated pinecones in their art, religious beliefs and mythology with common themes of regeneration, wisdom, and renewal.

"There is something about the structure of pinecones and the fragrance of conifers that I find so compelling. I always bring cut evergreen boughs into my home during the winter season since there is nothing like the festive way they look and smell. For me, they embody the magic and joy of the holidays." - M.

POMEGRANATE SILVER & GOLD

The Michael Aram Pomegranate Collection takes its inspiration from one of the most universal and ancient symbols in the world. The fruit has been prized across the globe, across cultures and across time as a representation of life, rebirth, and renewal as well as fertility and union.

"I grew up around pomegranates - from their use as natural dyes on the antique rugs I used to crawl on as a baby to an integral ingredient in the food that I love. When I'm at my home in New Delhi, I wake each morning to the taste of fresh squeezed pomegranate juice. The color, the smell, the delicate flavor all make it feel like a magical elixir to me." - M.

The Shagreen Collection interprets the subtle shimmer and pebbled texture of natural stingray leather. Capturing a refined visual vocabulary, the glistening surface of these pieces will elevate each of your everyday moments.

"This collection makes me happy. The contrast of glinting metals and matte surfaces create iridescent tones that connote a sense of celebration. Each piece is hand-forged after casting which allows the surface to glimmer and sparkle in a radiant way. I hope their lustrous quality makes any event meaningful, and any normal day feel special." - M.

TULIP

The Tulip Collection celebrates rebirth as the ground begins to thaw and new life flourishes. Inspired by the feathery petals of the Parrot Tulip, each petal ripples as if the flower is about to take flight. Symbolic of perfect love, these expressive blooms tell a story of life, passion, grace, and new beginnings. The Tulip Collection features elaborate sculpts in a modern, lyrical way. The white enamel and gold finish reflect light and shadow that caress each flower as the world begins to wake.

"I've grown up with tulips in my garden since I was a child, and still enjoy the surprise of them as a first sign of spring. The image of their stems forcing through the dirt and eventually bowing under the weight of their heavyheaded blooms is something I find so precious and beautiful." ~ M.

VINTAGE BLOOM

The Vintage Bloom Collection evokes a sentimental interpretation of nature as inspired by Michael's love of old botanical prints. The mixed metals and delicate enamel finishes capture a sense of nostalgia for the eclectic glamour of the 1940's.

"I found a forgotten piece of textile with fabulous watercolor flowers on linen that had faded ever-so-beautifully, over the years. The fabric and floral pattern reminded me of the dresses my grandmother often wore around the house. The designs in this collection bring back those feelings of nostalgia and effortless style." - M.

ZEN GARDEN

The Zen Garden Collection draws inspiration from the profound significance of Zen Gardens, which have been an integral part of Japanese culture for centuries. These thoughtfully designed landscapes serve as visual representations of the harmony that exists between nature and the human spirit, providing a sanctuary for meditation, contemplation, and soulful reflection. Interpreted by Aram in brass and hand-textured, patinated steel with organically inspired shapes, he hopes this collection brings the same sense of peacefulness and beauty associated with these gardens into your home.

"I am greatly inspired by the Japanese design philosophy of Wabi-Sabi and have dedicated my work to the creation of handmade objects that reflect our own humanity, celebrating the perfectly imperfect aspects of nature. The connection of incorporating metal objects into Zen Gardens fascinates me as, according to the principles of Wabi-Sabi, patinated metal expresses the passage of time and the transient, ephemeral beauty of nature itself." - M.

SCULPTURES

Michael Aram's sculptures are handmade artistic explorations inspired by objects and ideas which capture Michael's imagination. The sculptures are individually crafted so that no two pieces are ever exactly alike.

Ginkgo Fairy

Indulge in a fantasy world where woodland fairies dance gracefully, embodying the free-spirited connectedness of humankind and the natural world. Dreams and reality intertwine as the Ginkgo Fairy metamorphoses from flora to fauna and seemingly takes flight from earth to air with her arms raised victoriously towards the sky while delicate ginkgo leaves flutter diaphanously below. The Ginkgo Fairy sculpture is hand-patinated with a finish that will age even more beautifully over time.

"I love the idea of the ginkgo fairy as a symbol of the blissful connection of man and nature and wanted this fairy to capture a sense of effortless, ethereal beauty. I wanted her to exude a sense of the pure joy in being one with nature." - M

MOON GATES

The Moon Gates are inspired by traditional round passageways found in Chinese landscape architecture which act as entry and exit points to the garden. The circular elements are symbolic of the idea of completion, representing and celebrating the cohesiveness of the family, as members pass through the gate to return home. Another interpretation is that, as the moon, the opening is symbolic of the cycle of life, and renewal as the full moon marks wholeness and is suggestive of new beginnings.

"I love thinking of these sculptures as a portal into nature. By looking at the moon gate, I am reminded of the delicate balance between man and nature, and my need for connection between my home life and the beauty and abundance of nature." - M.

PALACE TEA SET

The Michael Aram Palace Collection explores, through Michael's eyes, the richness of detail and ornament in palaces throughout the world. As a part-time resident of India since 1989, palace architecture has been a steady source of inspiration and this collection pays tribute to the geometry and complexity of Moghul design. The classically elegant shapes and materials in this collection reflect the arches, finials, carved panels, and ornamentation prevalent in palace's throughout the east.

"I like the old saying that every man's home is his palace. This is a collection that brings the grandness and intricacy of palace architecture into your home, in an elegant yet everyday way. The collection is a journey of sorts into the sophisticated world of regal architecture, yet what I love about it is that there is a surprising simplicity to the geometric forms as well as restraint in the tone-on-tone interplay with light and shadow of the surfaces." - M.

AUTUMN

The Autumnal Collection captures the excitement of the changing seasons and the anticipation of holiday celebrations. These pieces promise to brighten and warm your home as the nights grow colder and the days grow shorter. Age-old handicraft techniques ensure that each piece is unique and captures the perfectly imperfect gestures inherent in objects made by hand. Each falling leaf, speckled pumpkin, and twisted stem becomes a metaphor for life itself and acts as a reminder of the passage of time and the ephemeral beauty of life.

"I get so much satisfaction knowing my pieces enhance family gatherings, particularly around important holidays when we are most likely to connect with loved ones. I hope my work brings joy to your home both in quiet times and at times of great celebration." ~M.

CHRISTMAS

The Michael Aram Ornament Collection portrays a series of unique objects that celebrate symbols of the holiday season. Whether seen individually or as a group, they evoke a sense of charm and fantasy with the undeniable signature of Michael's style. Drawing profoundly from Michael's background as a sculptor, each piece emerges from hand-sculpted clay and offers a child-like quality with an inherent depth of meaning.

"Christmas ornaments hold a special meaning for me, along with millions of people across the world. Each one is like a little jewel, with its own story and its own connections. Every year, they make their highly anticipated appearance and it feels like they bring a particular magic with them. The whole process is like a profound family ritual that sweetly symbolizes everything the holidays are about." -M.
