## WWD DESIGN

# The Italian Design that Feeds Your Emotions

WWD DESIGN was born from a passion for Italian design and the desire to offer unique, high-quality products that are strictly Made in Italy.

We believe that the home reflects the personality of those who live there, a space where you can feel at ease and surrounded by objects that tell a story.

This is why we carefully develop each individual product, favouring essential lines, a refined design, attention to detail with a focus on materials.

## WHAT SETS US APART

- ★ **Italian excellence**  
We collaborate with the best Italian designers to guarantee you products of the highest quality, an expression of true Made in Italy.
- ★ **Unique design**  
We offer furnishing accessories with a refined and original design, capable of giving character and personality to any environment.
- ★ **Passion for details**  
Each piece is treated in the smallest details, the result of careful and precise workmanship.
- ★ **Precious materials**  
We select only the finest materials, durable over time and respectful of the environment.

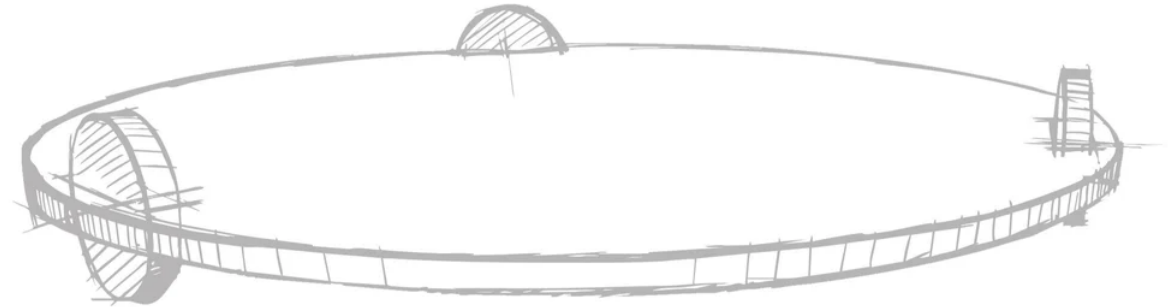

## SUSANNA FIGRA

An original  
Lazy Susan,  
100% Made in Italy.

## HISTORY

# Tradition and innovation merge.

A distant echo, diffused within the walls of ancient oriental residences, tells of a custom as practical as it is refined: a rotating tray placed in the middle of the table, created to promote harmony and sharing during meals.

This ingenious tool has traveled through centuries and cultures, assuming different forms and names. In Western countries, this object found a new identity and widespread use since the beginning of the 20th century, becoming known as “Lazy Susan.”

There are many legends surrounding the origin of this peculiar name, but its true source remains a mystery. “Lazy Susan,” however, has become a common term, evoking an image of comfort and conviviality with a subtle veil of irony.

Today, WWD DESIGN pays homage to this timeless icon with a new product that reinterprets its essence in a modern way: SUSANNA PIGRA.

With essential and harmonious lines, the designer Edoardo Pitton has infused this object with a contemporary spirit without betraying its history.

### **Edoardo Pitton**

Designer born in '76, graduated from the European Institute of Design in Turin in 1998 in Transportation Design. He works in the design of automobiles (Alfa Romeo, Lancia, Estrima Birò), motorcycles (Aprilia, Fantic, Moto Guzzi, Piag-

gio) and industrial design objects of all kinds: from tractors to sailboats, from almost handcrafted pianos to microchip programmers, from industrial cleaning machines to furnishing accessories. He believes in fact in the contamination

of ideas and technologies given by the variety of projects to which he approaches in a always curious and prone to paradigm shift, always giving priority to the functionality and ergonomics of the object to be designed.

SUSANNA PIGRA was born from its designer's desire to reinterpret a familiar object, giving a new distinctive and immediately recognizable form to a very common and essential object such as a lazy susan, typically formed by a disc mounted on a central bearing that allows its rotation.

To do this, the Transportation Designer imprint of its designer suggested the replacement of the classic central pivot with wheels, 3 for perfect balance, common elements in most of his inventor's projects.

This solution gives the rotating plate a modern and immediately recognizable style.

## WHAT IS SUSANNA PIGRA?

Susanna Pigra is not just a rotating tray: it is the meeting between the practicality of an object created for sharing and the essence of Italian design.

Attention to detail, precious materials, the mastery of Italian know-how: every element has been studied to guarantee not only an impeccable aesthetic, but also optimal functionality.

The fluid and silent rotation invites to conviviality, with the wheels that become characteristic element of an unmistakable style.

Susanna Pigra is not a simple object of furniture, it is an invitation to rediscover the pleasure of being together, of sharing a meal, a chat, a moment.

With Susanna Pigra, WWD DESIGN does not limited to launching a new product: it offers an experience, a journey through cultures, to the rediscovery of conviviality.

## SUSANNA PIGRA LUXE

# Susanna Pigra Luxe: Elegance and Refinement

Susanna Pigra Luxe is an elegant and functional furnishing accessory, designed to add a touch of refinement to your table.

Made of **Hanex® Solid Surfaces**, an innovative material with high performance, it is durable, hygienic and easy to clean. 50cm diameter.

**Hanex®** is a solid surface composed of two-thirds rock mineral and one-third methyl methacrylate, it is a homogeneous material throughout its thickness and very resistant. **Smooth and non-porous**, even after time this material maintains its original appearance following a few **simple**

### **maintenance rules.**

Cleaning the surface of Solid Surfaces is in fact very simple: just a soft cloth, water and a common degreaser. Only in case of more resistant stains it is recommended to use diluted bleach with water.

## SUSANNA PIGRA SMART

# Susanna Pigra Smart: Functionality and Durability

Susanna Pigra Smart is a functional and durable design element, designed to enrich your table with a touch of style. Made of **HPL**, a resistant material, easy to clean and maintain, it is available in White, Marble and Volcano finishes. 50cm diameter.

**HPL** (High Pressure Laminate) is a new generation laminate obtained from the stratification of pressed fibers. The HPL stratified laminate is a surprising material that manages to combine a refined aesthetic performance with truly extraordinary performance. It is, in fact, a material **impermeable** to water, oil and

acidic foods.

HPL, in addition to being a **durable** product **over time**, is able to withstand shocks. It is easy to clean and **hygienic**, it is sufficient to use hot water or neutral liquid soap (which should then be rinsed) to keep the top perfectly disinfected.

WEGG

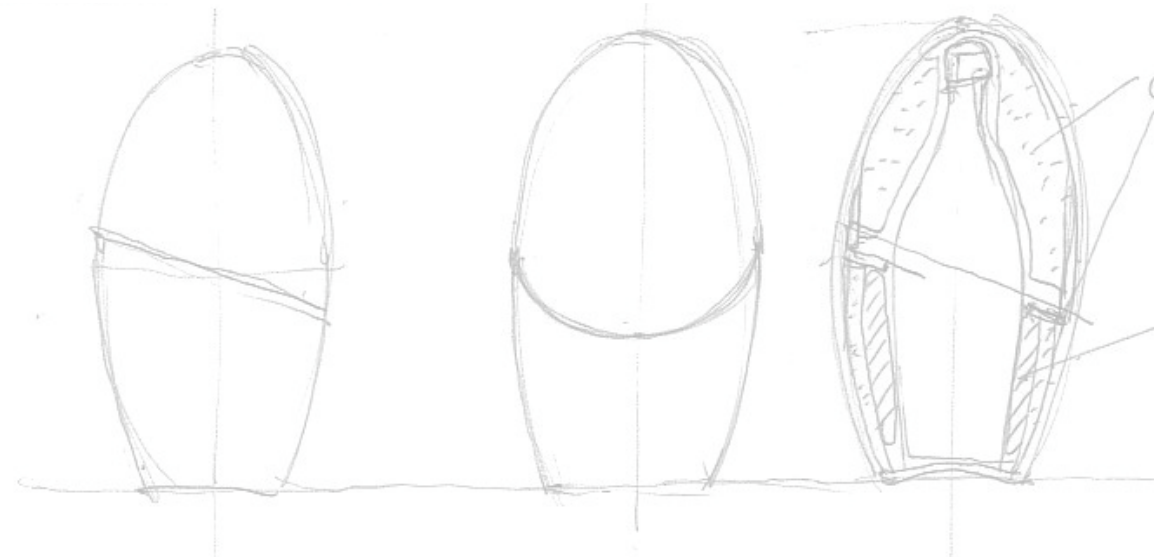

Simplicity  
is the highest form  
of sophistication

## HISTORY

# The story of WEGG: the birth of a design object.

In 2014, the three founding partners of WWD Design - a unit of Premek Hi-Tech dedicated to the development of design projects - began to think about an innovative product for the transport and refrigeration of wine and champagne bottles.

They shared the idea with ISIA, one of the most qualified institute of design in Italy, which took up the challenge and held a competition among students to realise the project.

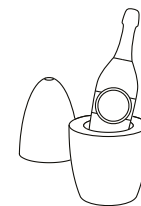

The challenge was won by Mattia Gobbo, Brian Diaz and Bruno Testa, who decided to build a wine cooler in the unusual and minimalist shape of an egg. From this idea came the first prototypes: WEGG was perfected more and more until it was ready to be launched on the market.

WEGG is positioned as an elegant and smart design object suitable for everyday use. Thanks to its aesthetic, quality and versatility given by the numerous finishes available, WEGG fits perfectly into very different contexts: at home as well as in hotels and restaurants.

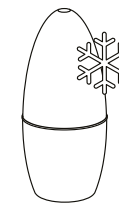

## WHAT WEGG IS

WEGG is a design container for wine bottles, conceived to be beautiful and always functional. Each of its components, even the less visible ones, has been designed to be attractive but useful at the same time.

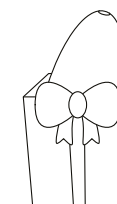

**WEGG CONTAINS**

**WEGG COOLS**

**WEGG LASTS**

**WEGG IS A GIFT IDEA**

## COMPONENTS

- ① Decorative WEGG silicone stopper
- ② ABS top cover
- ③ Decorative disc
- ④ Cooling gel elements
- ⑤ High-density expanded polypropylene insulation
- ⑥ ABS bottom shell

WEGG is suitable for 750 ml bottles with a maximum diameter of 104 mm.

WEGG can be customised on request with logo and graphic elements.

**PATENTED COOLING SYSTEM**

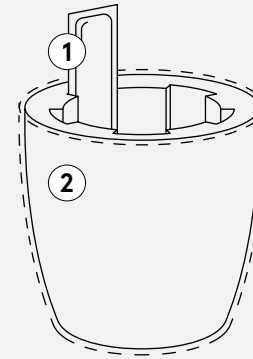

WEGG has a patented cooling system characterised by the synergy between its components.

WEGG is composed by

- > a polypropylene foam: a non-toxic, recyclable material with high thermal insulation performance;
- > a kit of 5 reusable cooling elements to be positioned inside the polypropylene shell.

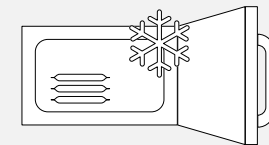

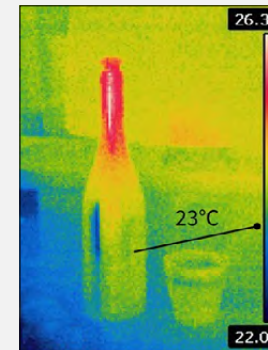

These elements, much smaller if compared to others used in similar products, have a double advantage: they are practical to store in the freezer and take much less time to cool down.

That's why WEGG is so cool!

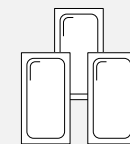

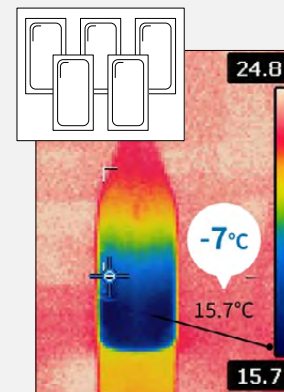

- ① Cooling gel elements
- ② High-density polypropylene insulation

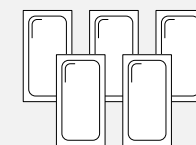

**How cooling gel elements work:**

**2h** in the freezer

**1÷3** elements: temperature **maintenance**

**4÷5** elements: temperature **reduction**

## WEGG BASIC

WEGG Basic:  
essential  
and timeless.

## WEGG BASIC

- ABS container
- High-density polypropylene insulation
- Decorative metal disc
- WEGG decorative stopper
- Kit of 5 cooling gel elements

## Finishes

- White
- Dark Grey
- Black

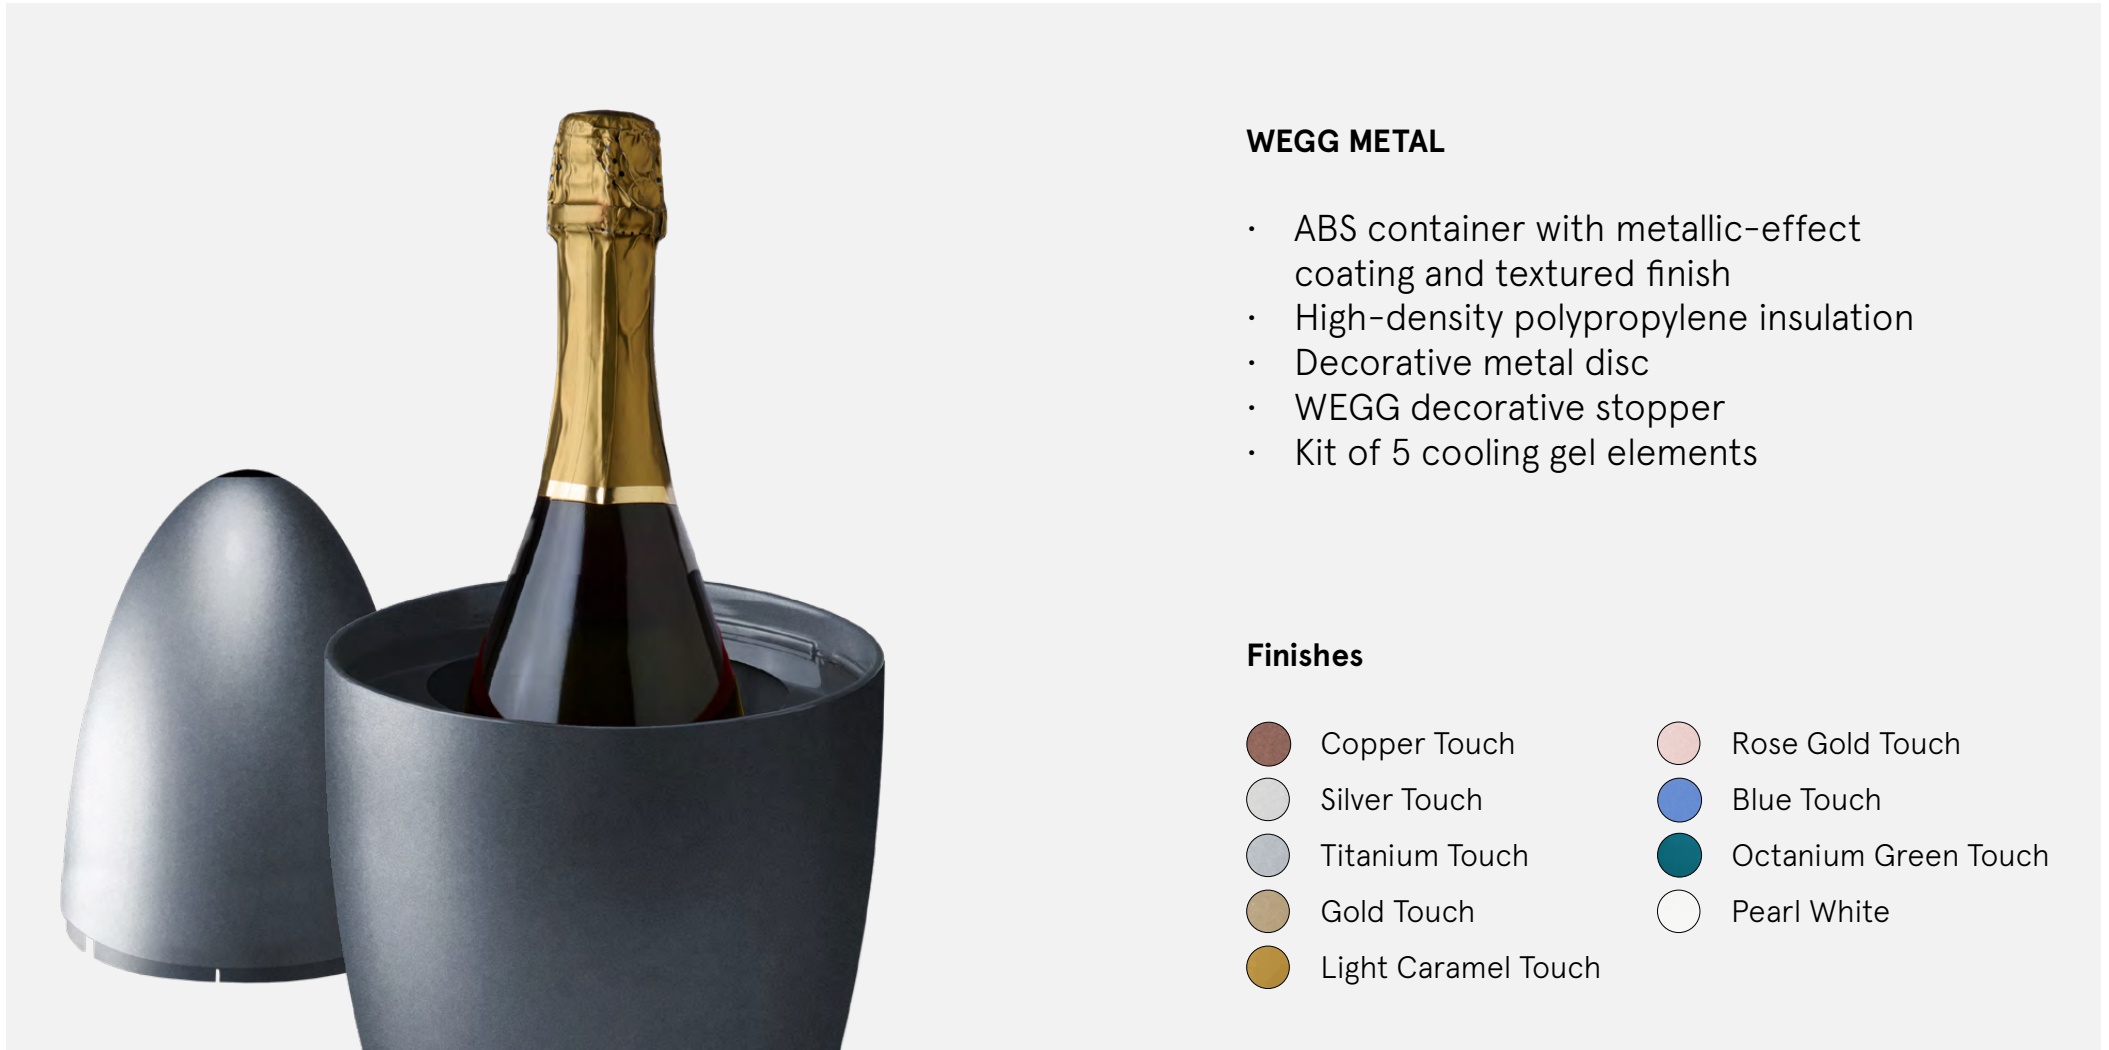

Elegant cardboard box included  
Box dimensions 170x170 H385 mm

## WEGG METAL

WEGG Metal:  
contemporary  
and elegant.

## WEGG METAL

- ABS container with metallic-effect coating and textured finish
- High-density polypropylene insulation
- Decorative metal disc
- WEGG decorative stopper
- Kit of 5 cooling gel elements

## Finishes

- |   |  |

|  Copper Touch          |  Rose Gold Touch        |
|  Silver Touch         |  Blue Touch            |
|  Titanium Touch      |  Octanium Green Touch |
|  Gold Touch          |  Pearl White          |
|  Light Caramel Touch |  |

Elegant cardboard box included  
Box dimensions 170x170 H385 mm

## WEGG MATT

WEGG Matt:  
fresh and stylish.

### WEGG MATT

- ABS container with matt-effect coating and textured finish
- High-density polypropylene insulation
- Decorative metal disc
- WEGG decorative stopper
- Kit of 5 cooling gel elements

### Finishes

-  Sage green
-  Venice blue
-  Dark cherry

Elegant cardboard box included  
Box dimensions 170x170 H385 mm

DEMI

When the half  
is whole.

## HISTORY

# DEMI: the evolution of a successful project

WWD Design continued to invest into development of new products to achieve new evolution of the project. Thus DEMI was born.

DEMI, the half of WEGG, it's the ideal container for serving wine, bringing it to the desired temperature and keeping it cool throughout the meal.

Unlike a normal *glacette*, DEMI does not require the use of ice because it uses the same technology as WEGG: the use of reusable cooling gel elements. It does not get wet for condensation because the gels are protected by expanded polypropylene insulation and maintains the clean, aesthetically pleasing lines of WEGG.

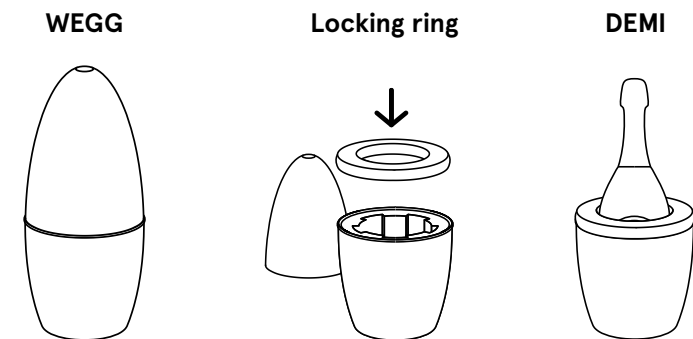

Practical, compact and elegant, DEMI is also suitable for serving in clubs, restaurants and hotels.

## WHAT DEMI IS

DEMI is therefore an evolution of WEGG, obtained by applying a closing ring to the lower shell, which makes it a finished product.

The locking ring has the same WEGG locking system and is therefore a compatible and interchangeable accessory with any WEGG.

## COMPONENTS

- ① ABS locking ring
- ② Cooling gel elements\*
- ③ High-density polypropylene insulation
- ④ ABS bottom shell

DEMI is suitable for bottles 750 ml with a maximum diameter of 104 mm.

DEMI can be customised on request with logo and graphic elements.

By purchasing a locking ring, it is possible to transform any WEGG into a DEMI.

**\* Read more about the cooling patented system**

## DEMI BASIC

DEMI Basic:  
practical and linear.

### DEMI BASIC

- ABS container
- ABS locking ring
- High-density polypropylene insulation
- Kit of 5 cooling gel elements

### Locking ring finishes

- White
- Black

### Bottom shell finishes

- White
- Black

Elegant cardboard box included  
Box dimensions 170x170 H210 mm

## DEMI COLOR MIX

DEMI Color Mix:  
multifaceted  
and original.

### DEMI COLOR MIX

- ABS container
- ABS locking ring with metallic-effect coating and textured finish
- High-density polypropylene insulation
- Kit of 5 cooling gel elements

### Locking ring finishes

- |  |  |

Box dimensions 170x170 H210 mm

## DEMI METAL

DEMI Metal:  
precious and elegant.

### DEMI METAL

- ABS container with metallic-effect coating and textured finish
- ABS locking ring with metallic-effect coating and textured finish
- High-density polypropylene insulation
- Kit of 5 cooling gel elements

### Locking ring and bottom shell finishes

- |   |  |
|---|--|
|  Copper Touch          |  Rose Gold Touch        |
|  Silver Touch          |  Blue Touch             |
|  Titanium Touch      |  Octanium Green Touch |
|  Gold Touch          |  Pearl White          |
|  Light Caramel Touch |  Burgundy Metal Touch |

Elegant cardboard box included  
Box dimensions 170x170 H210 mm

## DEMI MATT

DEMI Matt:  
precious and elegant.

### DEMI MATT

- ABS container with matt-effect coating and textured finish
- High-density polypropylene insulation
- Decorative metal disc
- WEGG decorative stopper
- Kit of 5 cooling gel elements

### Finishes

-  Sage green
-  Venice blue
-  Dark cherry

Elegant cardboard box included  
Box dimensions 170x170 H385 mm

## ACCESSORIES

Perfection  
lies in the details.

### LOCKING RING BASIC

- Ring in ABS
- Compatible with both WEGG and DEMI

### Finishes

- White
- Black

Accessory sold in cardboard box  
Packaging dimensions 175x175 H25 mm

## LOCKING RING METAL

- Ring in ABS with metallic-effect coating and textured finish
- Compatible with both WEGG and DEMI

### Finishes

 Copper Touch	 Rose Gold Touch
 Silver Touch	 Blue Touch
 Titanium Touch	 Octanium Green Touch
 Gold Touch	 Pearl White
 Light Caramel Touch	 Burgundy Metal Touch

Packaging dimensions 175x175 H25 mm

### LOCKING RING MATT

- Ring in ABS with metallic-effect coating and textured finish
- Compatible with both WEGG and DEMI

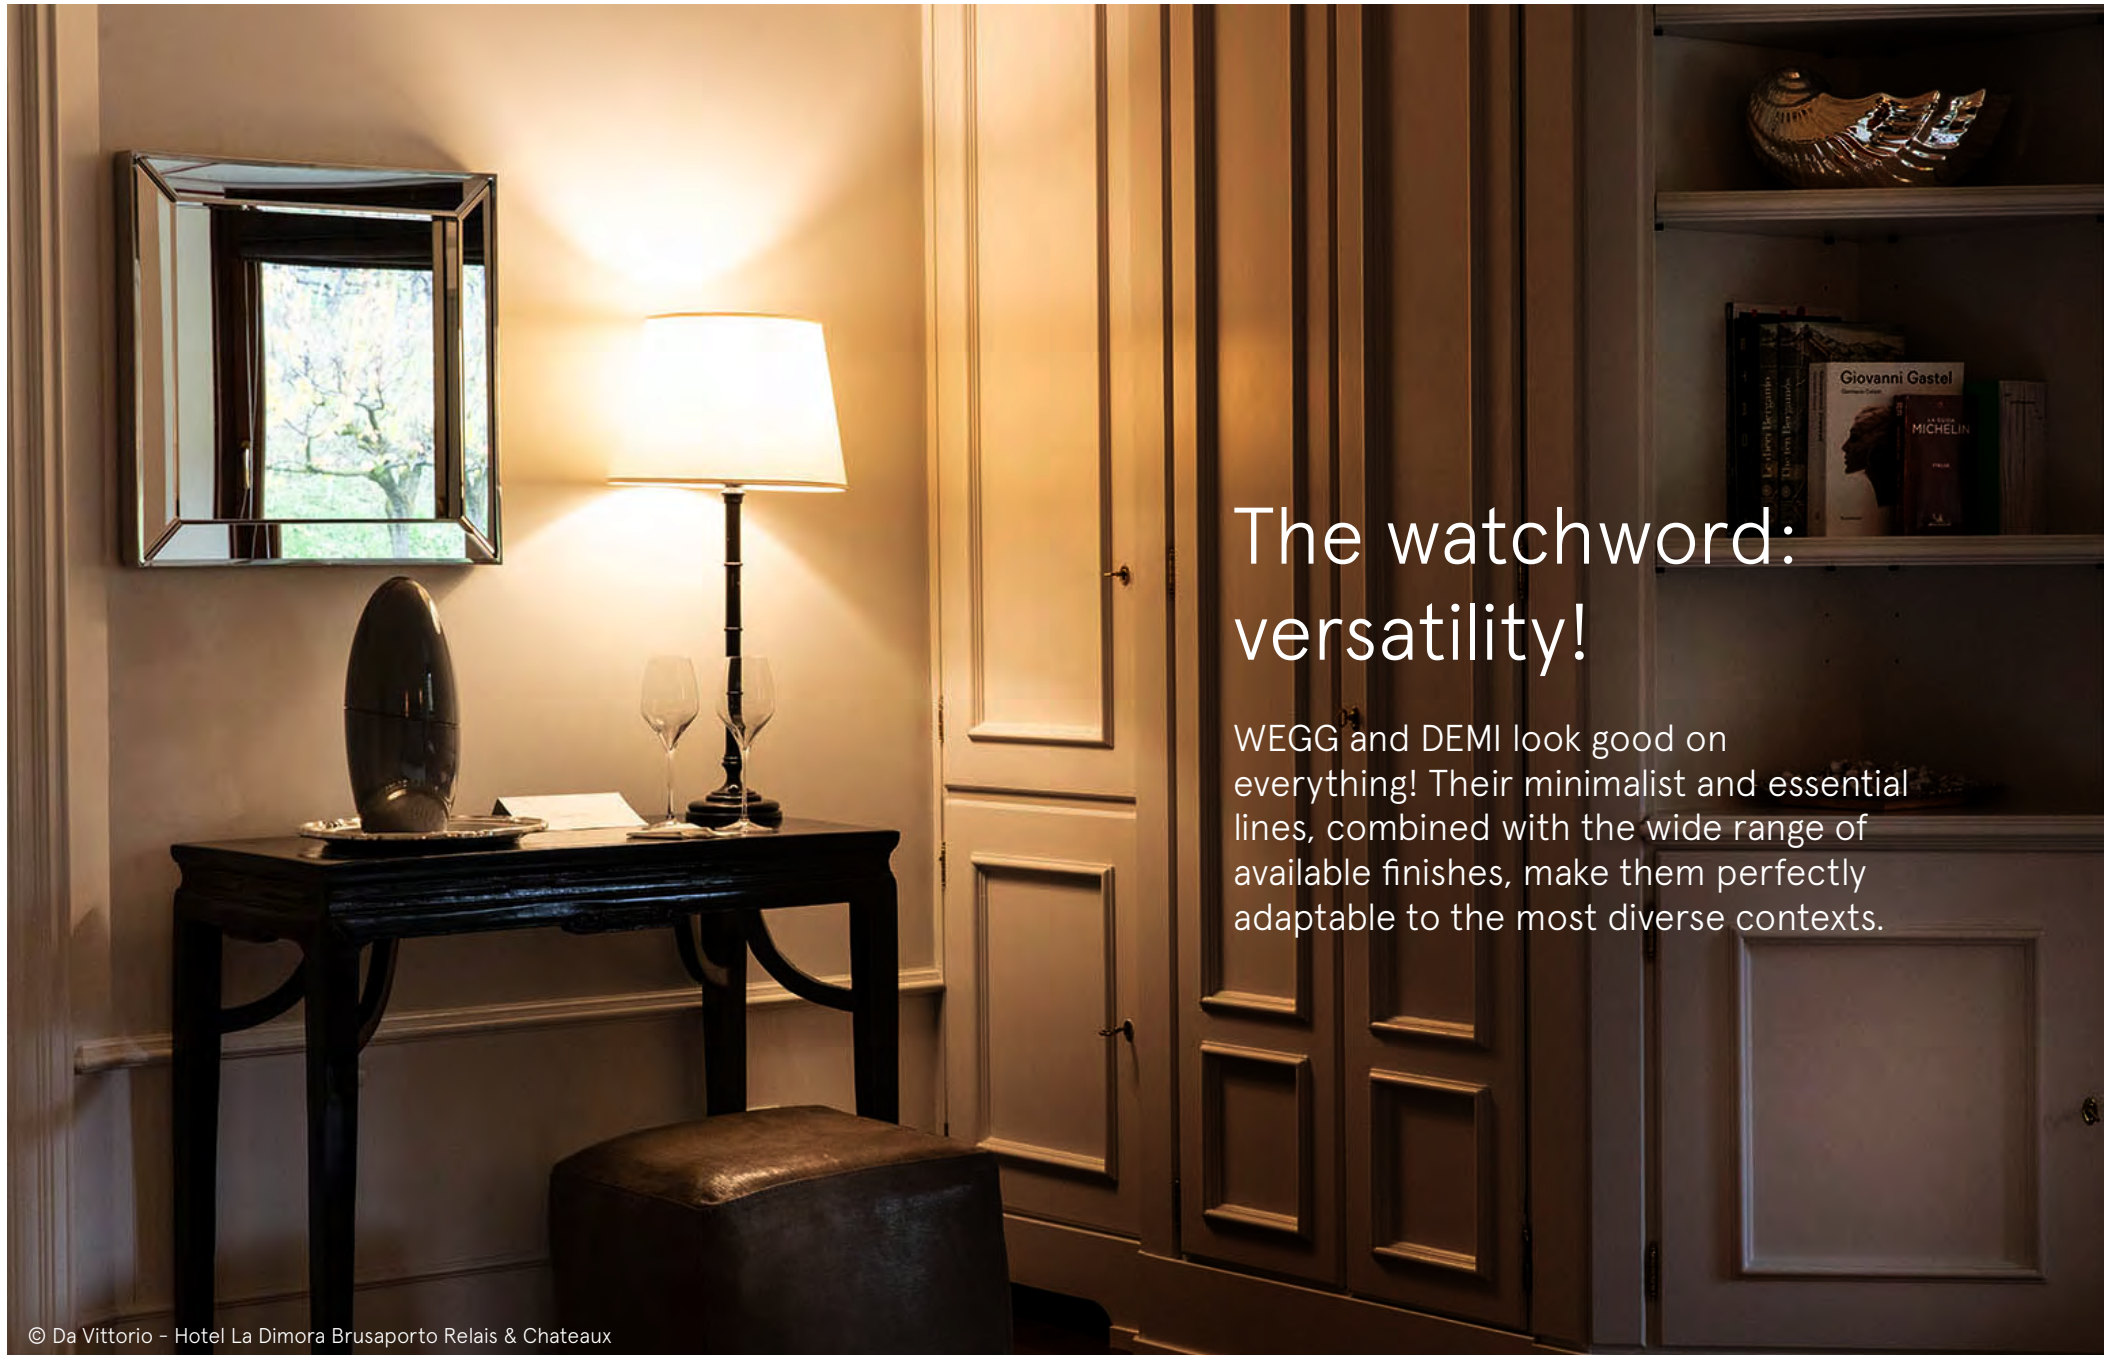

### Finishes

-  Sage green
-  Venice blue
-  Dark cherry

Accessory sold in cardboard box  
Packaging dimensions 175x175 H25 mm

**B2B**

WEGG e DEMI:  
design and quality  
at your service.

## The watchword: versatility!

WEGG and DEMI look good on everything! Their minimalist and essential lines, combined with the wide range of available finishes, make them perfectly adaptable to the most diverse contexts.

© Da Vittorio - Hotel La Dimora Brusaporto Relais & Chateaux

## HO.RE.CA.

WEGG and DEMI fit perfectly into hotel suites and rooms as design objects that convey the sophistication and attention to detail of the establishment.

## CORPORATE GIFT

The innovative technology of WEGG and DEMI makes them particularly suitable as corporate gifts.

For those looking for sophisticated objects that sum up their company's vocation for innovation and design, WEGG and DEMI are an ideal and original answer.

In addition, because they feature a patented cooling system that uses reusable cooling elements instead of ice, WEGG and DEMI avoid wasting water, thus supporting the value of environmental sustainability.

WEGG and DEMI can be customised with logos and graphic elements. Above a certain quantity, colour customization can also be requested.

WEGG customised with the colours and coat of arms of the Principality of Monaco and presented to Prince Albert of Monaco at the Munich Yacht Show 2020

Colour customisation for Astoria

## BREWERS & WINE PRODUCERS

WEGG and DEMI are particularly well suited to become prestigious gifts of wine and beer companies, capable of conveying sophistication and value.

Pad printing logo application for Contarini

## WEDDING

WEGG and DEMI, in *Pearl White* finish, are the perfect, discreet and elegant guests for a wedding reception. They fit perfectly into any type of setup, from the most traditional to the more contemporary, bringing a touch of sophistication to the table. The extra touch? The printing of the bride and groom's initials on the metal disc.

## PACKAGING

WEGG and DEMI packaging is designed to enhance them and make them a perfect gift. Made of sturdy cardboard with matt lamination, which protects them from scratches and wear, they are printed in high quality and finished with UV screen-printed details.

Inside each package, a fold-out leaflet shows the product range and a handy multilingual manual describes the functionality, how to use it and how to clean it.
