Based in Kolkata, Sankh Overseas offer eco-friendly bags to meet your every needs. We believe in the idea “Reusable reaches everyone.” We manufacture and export jute, cotton, and canvas bags all across the globe.

We offer endless bespoke offerings for businesses looking to either raising brand recognition, or a specific product or service to get the word out.

We've been helping our customers promote their businesses since 1998. We have built relationships and earned a reputation for reliability and trustworthiness.

We offer a range of eco-friendly, natural fiber fabrics for discerning clients. As an alternative to popular non-woven bags, we supply eco-bags manufactured from natural fibers such as cotton, canvas, hemp, jute, and juco, which is a blend of jute and cotton. These natural bags are not only reusable like non-woven bags, but they are also biodegradable.

Father-Daughter Duo

Manoj Sharma and his daughter Apoorva Swami; successfully run Sankh Overseas Pvt Ltd, a wholesale manufacturer of reusable shopping bags made from eco-friendly Jute, Cotton Canvas and Jucco.

Since 1998, Sankh under Manoj Sharma has been making promotional and fashion bags for everyone across the globe. Apoorva with a textiles degree, initially worked as a designer for another company before she entered into the reusable bag business.

Together with his knowledge and expertise and her creativity and newness makes them an ever-growing company.

Promotional Shopping

JUTE

- ▶ Strong
- Durable And Long Lasting
- ▶ Natural Anti-Bacterial Qualities
- Cost-Effective
- ▶ Eco-Friendly
- 100% Bio-Degradable & Recyclable
- ▶ Versatile

Jute is a long, soft and shiny fibre that is one of the strongest natural fibres in the world, and is the second most produced fibre after cotton.

Jute bags printed with your logo are the perfect promotional tool. Sturdy and affordable, a promotional jute bag will be used again and again by its recipient, resulting in maximum return on investment on your advertising spend.

COTTON

- ▶ Recyclable
- 100% bio-degradable
- ▶ Soft & Smooth
- Affordable
- ▶ Eco-Friendly
- Absorbent
- ▶ Short Growth Cycle
- Durable

Cotton is made from the natural fibers of cotton plants. The term “cotton” refers to the part of the cotton plant that grows in the boll—the encasing for the fluffy cotton fibers. Cotton is spun into yarn that is then woven to create a soft, durable fabric.

Cotton bags are made from renewable natural fibers which are strong in nature as compared to those plastic bags which are made from polyethylene which are derived from natural gas and petroleum. They are stronger and can be used repeatedly as compared to the single-use plastic or paper bags.

- ▶ Sturdy
- Durable And Long Lasting
- ▶ Softer than Jute
- Recyclable
- ▶ Eco-Friendly
- 100% Bio-Degradable & Recyclable
- ▶ Versatile

Jutton or Jucco is a type of fabric produced by mixing jute and cotton fibres. The process involves blending jute and cotton fibers in definite proportion to generate a new kind of textile product that can act as a substitute for cotton textile.

Blending and softening upgrades the quality of jute and thus form a new class of jute.

Fabric: Natural Jutton
Size (cms): 40 x 40 x 15
Handle: Cotton Tape Webbed Handle
Packing (Per Box): 40
Colour: Natural
