## SUSTAINABILITY

In all the company's decisions, this aspect is taken into account to reduce the impact on nature.

- We recycle and reuse solvent materials used in cleaning and maintaining machines.
- Closed water cooling system for all machinery.
- Use of sunlight with skylights in the manufacturing plant and lighting system with automatic LED lamps, promoting the culture of energy savings.
- Contribution to the recycling of disposable materials. (Green point)
- Preference in the selection of highly recyclable raw materials.

**Committed to having the least  
possible impact on nature**

## QUALITY

Jaurena S.A. It was the first Fine Arts company to achieve, within the artistic painting manufacturing process, the demanding ISO UN EN 9001:2008 certification and its international IQNet correspondence.

In addition to these important certificates Pinturas MIR has traceability in all its products through coding where the company records the entire chain of each product.

## CREATIVITY

We promote creativity and passion for art, working and collaborating with individuals, public and private entities in the world of education.

In addition, on our social networks we create quality content about Fine Arts techniques, tips and examples of how to use Fine Arts and Restoration products.

On our YouTube profile we have several tutorial videos.
