About Us

Pinturas MIR | JAURENA SA is one of the oldest companies in Europe, dedicated exclusively, since 1933, to the manufacture of products for Fine Arts, Crafts and Restoration (Water-colors, Oil Colors, Acrylics, Acrylic Inks and Auxiliary Products). It has a great passion for innovation and the development of unique projects. Thanks to its R&D department, it can develop products as innovative as UV Light Reactive Acrylics.

GARVI Acrylics ULTRAVIOLET

Special Applications
Paint for Events
Unique Colours

UNDER UV LIGHT THEY INCREASE ITS LUMINESCENCE 10 TIMES MORE

Discover this range of acrylic paint developed exclusively for use under UV light:

- **Intense Shine;** They are known for their intense shine. They emit a vibrant, eye-catching light, especially under ultraviolet (UV) light/dark light.
- **Available Colours;** wide variety of tones: blue, green, red, yellow, orange, magenta, purple and violet. They are transparent colors that, under the action of UV rays, increase their luminescence ten times more.
- **Formulation;** The base of these colors consists of pigments that accumulate and reflect light, bound by a transparent layer of a pure acrylic emulsion, which improves their light fastness and helps these pigments adhere to all types of clean surfaces.

The colors are packed in a practical squeezable 500ml bottle with a screw-on dispenser that allows excellent conservation of the acrylic. Ideal container for Paint&Sip events, colors can be served in larger capacity containers.

MULTIPLE APPLICATIONS

GARVI UV Acrylics have multiple applications, the colors are ideal for night decoration and to add light to artworks. Ideal for highlighting details in paintings or even creating amazing effects on objects and surfaces, and much more.

Paint & Sip under black light

Escape Room Decoration

Paintball

Decoration of discos, night-clubs

Event Decoration specific

For Professional Artists
