For more than 30 years, we are a pioneer industry leader in Asia and our brand “SQI Wax” is very well-known in the global chemical market. Specializing in refining and blending of petroleum, synthetic and natural wax, our products cover a wide range of industrial applications with special emphasis on hot-melt adhesives, plastics, rubber, coating, candle, polish, cosmetics, pharmaceutical etc. We always find a way to work out a win-win scenario between our suppliers and customers. With our strict quality control of incoming raw materials in our own in-house laboratory, our customers trust SQI wax & additives as they contribute to the excellence and consistence of ingredients in many end formulation.

A portion of our SQI Wax is used in our own manufacturing of consumer goods such as crayons, modeling clay, candles, etc. Our strict internal quality control along with third party quality inspection companies always check that the products conform to industry standards before we send the products out to our retailers and consumers. We are committed to keep on improving and updating our operation standards, quality and price to continue to make SQI Wax a distinguished industry brand name.

We have expanded our cooperation with top notch universities and research centers to develop more novel wax from natural sources to replace those of petroleum based. The ultimate goal is to solidify our presence as the leading provider of total wax solutions in Asia.

SQI Fine Color Co., Ltd specializes in manufacturing high quality pigments, additives and general purpose masterbatch. We have experienced color matching specialists to work with spectroscopy in providing accurate color matching services. The factory facility is equipped with pilot testing lab machinery with small trial runs and can match the intricacies in coloring for different applications such as plastics, pigments, solvent dyes, glitter, dry blend, additives, PE sheets, crayons and modeling clay masterbatch, etc. Our team's expert knowledge in production-processes for various applications helps to make sure compatibility with the end products and avoid negative effects on mechanical, thermal and optical properties. Differentiation into product design as well as packaging design has become extremely important in the industry for market serving in consumer product markets. Rapid advancements in technology, as well as a gathering of new exclusive pigments, have enabled us to help our productions internally and within domestic market.

AUTOMATION MACHINERY AND WASTEWATER TREATMENT

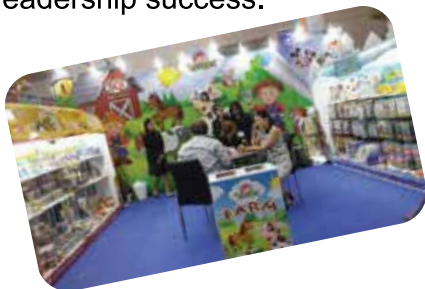

SQL is a service provider for automated designs and packaging systems using up to date technology to meet customer's needs. Our services include: modernization and upgrades, safety services, performance optimization, maintenance and support, operations consultation proposal, engineering design and manufacturing execution that is on budget, on time and at top quality, installation, training and after sales services. Our expert team helps to ensure optimal technical and business performance.

SQL is a single source of supply for all your water and wastewater treatment needs. Environmentally, wastewater treatment and the proper disposal of the sludge produced are essential to prevent environment hazardous impact. Economically, effective wastewater treatment has significant effects on saving water and preventing unnecessary water losses. Hence, our complete range of water and wastewater treatment systems and equipments as well as water treatment chemicals, reverse osmosis chemicals, filter media and ion exchange resins can offer a solution to your business.

“You can’t use up creativity. The more you use, the more you have.” – Maya Angelou. In recent years, our brands Kid Art, Hi Art, and Hi Crafts have grown into a collection of creative arts & crafts activities, fun toys and necessary back-to-school coloring and painting products. As the biggest school stationery manufacturer in Thailand with more than 1,000 items, our dedicated and passionate team strives to bring their ideas into reality and deliver inspirational product concepts with the focus on creativity for kids and adults. Whether it is an activity for a rainy “no school” day or an activity for a community project, it always fills our heart to know that our products can help kids and adults of any age to imagine, explore, discover and dream. Our own Kid Art School offers innovative 3D modeling and drawing child-centered curriculum mainly for children of age 3-12 years old. If given an encouraging and inspiring learning environment, having a combination of seven quotients IQ, EQ, CQ, MQ, PQ, AQ and SQ will lead to children’s leadership success.

Our quality team experts help ensure sure that our products conform to international standards such as ASTM D-4236, ASTM F963, EN-71, AS/NZS ISO 8124.1, AP certification, and any other requests necessary for OEM customers. With our products selling in more than 80 countries worldwide, we continue to strive to provide our product portfolio to more unopened emerging markets. A crucial focus as we gain experience in global markets, is to ensure the maximum standardization where possible and the necessary customization while offering difference according to each local needs.

**Tin
candles**

Placing a burning candle in one's window is a common tradition that dates back to colonial times. Candles offer a glow that's cozy, atmospheric and warming and are one of the oldest and most reliable ways to light up one's home. As the biggest candle manufacturer in Thailand offering machine pour, hand pour and handmade candles, our team uses the finest ingredients from all over the world with our own formulation blending. Together with some of our other smaller production sites in Vietnam, our products can be seen in major US and EU retailers. We offer high quality aroma fragrances, perfect lead-free wick, precise pantone colors based on each season, and décor embellishments to add sophistication to each product as every product is made to its own exact specification. Our strict internal quality control along with third party quality inspection companies always check that the products conform to industry standards before each shipment.

Our own Mellow Collection is available for so many occasions, such as family gatherings, house warming parties, holidays or special events year round that connects you and your loved ones. Our development team continues to keep up with industry trends and themes to offer exclusive designs and unique aroma fragrances to global market.

TOTAL CLEANING SOLUTIONS

With more than 20 years of extensive knowledge in understanding a wide variety of different surfactants, SQI along with our Taiwan partner – Big Sun Chemicals proudly offer Total Cleaning Solutions to our clients. From common household stains to industrial general purpose cleaning, our brand “Benex” provides our clients in many different industries nationwide such as general office, manufacturing, retail, resort, hotel, events, schools, restaurants, hospitals and many more. Current existing items include dish washing soap, hand soap, laundry detergent, bathroom cleaner, floor cleaner, car wash cleaning, pet shampoo and industrial cleaning.

Our quality team experts understand the demand of different requirements for different territories and behaviors of end users. Our products can be customized based on customer needs and specifications. Our strict internal quality control along with third party quality inspection companies always check that the products conform to industry standards before each shipment. Our internal laboratory is always on standby to test for new materials to develop new products and fulfill the quick and changing market demands.

- Cost Savings
- Personal Growth Mindset
- Social Selling
- Build Relationship

Utilizing “presenters”, “beauty bloggers”, “vloggers” and “Instagrammers”, our skincare cosmetics brand “Lunare” uses herbal extracts such as mangosteen, gac, and many more still to come. All skin care cosmetics products are proudly Made In Thailand with a focus on high quality ingredients with innovative packaging solutions at affordable prices. All products are safe and non-irritating that adhere to international production certifications under GMP and ISO 9001.

HERBAL EXTRACTION AND SUPPLEMENT

Certified by GMP, HACCP and ISO 9001-2015, our facilities are well equipped with Reactors, Extractors, Evaporators, Distillation, Freeze-drying and spray drying equipment. We are one of the leading manufacturers in standardized botanical herbal extract to the world's pharmaceutical, dietary supplement, functional food and cosmetics industries. We are recognized by Thailand's Board of Investment (BOI) for using advanced production techniques with supercritical CO2 extraction. This allows us to extract our actives under low temperature environment in order to not destroy the actives themselves during production process.

More and more consumers (young and old) are choosing healthier food or beverages instead of exercising. There is a growing trend in favor of prevention rather than therapeutic healthcare, consumers are trying to stay healthy and live a long life. Our extracts are available in liquid and powder form, and our supplements are available in liquid, capsule and tablet form. Wellness is our ongoing commitment.

A&P ORCHARD - ORGANIC MANGOSTEEN

Largest Organic Mangosteen Farm in Thailand

Organic Mangosteen

Mangosteen is an exotic and tropical fruit that is also known as the Queen of Fruits. A&P Orchard is the leading producer of organic mangosteen in Thailand with the largest farm located in Trat province of Thailand. Our organic farm "A&P Orchard 1959" spreads over 300 acres (1,214,056 m² or 13,068,000 ft²) and has been visited by many travelers around the world. The farm finally grow 100% organically since 1987 and has ever since received organic certifications by USDA and Organic Thailand. Thanks to our meticulous farming and cultivation procedures, we are able to focus mainly on preserving the environments. We understand that what we do in agriculture has a measurable impact on the surrounding organisms, hence that is one of the reasons why we are constantly working to find ways to minimize agriculture's impact.

If you have never tried tasting organic mangosteen, please contact us today. Some incredible benefits of Mangosteen include:

1. Rich source of antioxidants and vitamins
2. Boosts immunity
3. Helpful for Menstrual Problems
4. Regulates blood pressure and boosts heart health
5. Anti-inflammatory properties
6. Boosts skin care
7. Solution to tummy problems

CORPORATE SOCIAL RESPONSIBILITIES (CSR)

SQI encourages employees to volunteer for organizations that are important to them and touch their heart. Giving back to the community where we live and work is important to us as a company and to our people.

Since 1992, SQI Scholarship Program is the cornerstone of our philanthropy efforts where 1,800 students between the ages of 6 to university graduates received scholarships so they can continue with their studies without financial worries. Through volunteering at local school events, product donations, financial support and strategic initiatives and partnerships, we strive to make a difference in our community while engaging our employees.
